George F. Eades, the young dentist who pleaded guilty to counterfeiting, was sentenced yesterday by Judge Smith McPherson in United States court to eighteen months in the penitentiary at Fort Madison and to pay a fine of \$2,000. The fine, however, was suspended until further order of the court. Young Eades had believed that he would be let off with a jail sentence and when he heard the court order him committed to the penitentiary he collapsed. He will be taken to Fort Madison this morning. Eades was arrested in Council Bluffs for counterfeiling \$5 gold pieces which he forced his young wife to pass in Omaha and South Omaha. His relatives live in Cedar Rapids, Ia.

vesterday to have set aside the order of SON GETS POSTMASTER IN TROUBLE Statement is Made that the New Presi-

dent of State College at Ames Must Be an Iowa Man-Leg Ball for Prisoner.

(From a Staff Correspondent.)

DES MOINES, March 12 .- (Special.)-The steady stream of new incorporations in the state of Iowa, notwithstanding the greater fees that are exacted for incorporation in this state, causes great surprise to many of the state officers. Last year more than \$200,000 in fees was received in the office of secretary of state, nearly all being on incorporation matters. The increase in business has been steady. In 1960 the number of different new corporations which filed their papers with the secretary of state was 719. The next year the number went up to 797, and last year the total

reached 1,135. Up to this time the number filed this year has been the same as last year, and it is probable that the number will be slightly increased before the year is ended. The fees received last year were made large because the legislature took off the limit for large corporations, and this

did not deter the Rock Island reorganizers and others from becoming incorporated in lowa. But the increase of business was such that if the fees had been figured at the old rate they would have amounted to \$20,000 more than the previous year. There is anticipation that a big fee will be received from the Northwestern on account of the increase in its capital stock.

The majority of the new corporations are new industrial enterprises, only a few being banks or financial corporations.

One Prisoner Gets Bail

Frank Cook, under arrest on four charges, took bail from a justice court today and created some excitement on the streets. He was accused of grand larceny and breaking and entering on two counts each, and had been taken before Justice Duncan. He was notified that his bond would amount to \$1,700. He was pacing the floor and

told the court that his attorney had gone to see if he could arrange for bail. Just day and its commander saw no wreckage or then his Fitorney came in and Cook talked with him awhile, but, watching his opportunity, dashed from the court room and

disappeared down the street with the justice and others loudly calling to the pedestrians to stop the fleeing prisoner. Cook disappeared entirely.

STEAMER PROVES A MYSTERY Sends Up Signals and Then Goes to

the Bottom Leaving No. Trace.

SAN FRANCISCO, March 12 .- Great mystery attaches to the disappearance and identity of a steamer which is reported to have sent up signals of distress off Point Reyes last night and which suddenly disappeared as if swallowed up by the sea. Just before its disappearance, the ob ervers say, the steam siren of the distressed vessel sounded three long blasts and lanterns were swung on the port side in a manner indicating that great excitement must have prevailed on board the vessel. To the watchers at the Point Reyes lighthouse it looked as if those or

board were preparing to disembark. Captain Jorgensen of the life saving station ordered his crew to get a lifeboat ready and with his men launched the boat and spent several hours cruising in the vicinity of the spot where the steamer was supposed to have gone down, but nothing to indicate a wreck was found. The steamer Columbia, from Portland, Ore., arrived toother indications that a vessel had gone to the bottom.

The steamer Corona of Eureka, Cal., signaled that It had passed through immense quantities of wreckage at 3:30 o'clock this morning at a point about thirty miles outheast of Point Arena. Investigation indicates that this wreckage was a portion of the dick load of the steamer schooner Alcatraz, from Greenwood Landing, Cal., which was lost during the storm on the morning of March 8, together with some of its rigging.

Alcatraz arrived in port safely several days ago. The consensus of opinion around the Merchants' exchange is that while the Point Reyes people may have seen signals that Metzgar had been compelled to pay to indicate that the vessel sending them up was in grave danger.

The many remarkable cures of colds and grip effected by this preparation have made it famous over a large part of the civilized world. It can always be depended upon and is pleasant to take. It not only cures colds and grip, but counteracts any tendency towards pneumonia.

This remedy is also a certain cure for croup, and has never been known to fail. When given as soon as the child becomes hoarse, or even after the croupy cough appears, it will prevent the attack.

Whooping cough is not dangerous when the cough is kept loose and expectoration free by the use of this remedy.

It contains no opium or other harmful substance, and it may be given as confidently to a baby as to an adult.

The first step toward forcing the Portland Gold Mining company of Colorado to pay taxes in Pottawattamie county were taken yesterday. County Attorney Killpack, in the name of William Arnd, county treasurer, served notice on Dillon Ross, the Portland company's local agent, that he would apply at the March term of district court for an order directing the company to place at once at the disposal of the county treasurer all books, papers and records and other information to enable the county treasurer to learn the names and present postoffice addresses of each every stockholder, together with and amount and number of shares the held by them on January 1, 1898, 1899. 1900, 1901 and 1902, and all such other information as may be required to enable the county treasurer to make a proper assessment for taxation purposes of each and all shares of stock for each of the five years last past.
