and Fairly Steady Close.

CHICAGO, March 13.—There was a repetition of yesterday's duliness in the grain pits today and with the exception of osts prices ruled easier, May wheat closing \(\frac{1}{2} \) in the exception of osts were \(\frac{1}{2} \) in the higher. Provisions closed steady, with the May products from 2½c lower to 2½c higher.

were %c higher. Provisions closed steady, with the May products from 2½c lower to 2½c higher.

Trading in wheat was dull and the market lacked any features of interest. May opened a shade lower to a shade higher at 74%-75c, the lower cables having a depressing effect. Soon after the start little better demand developed on the small Argentine shipments and some talk of colder weather in the northwest, which resulted in a firmer feeding. May selling up to 75/47/5%c. Late in the day general realising set in and May sold off to 74%c and the close was at 74%c. a loss of 1/4%c. Clearances of wheat and flour were equal to 25/600 bu. Primary receipts were 411.000 bu., against 25/06/000 last year. Minneapolis and Duluth reported receipts of 2% cars, which, with local receipts of nine cars, none of contract grade, made total receipts for the three points of 2% cars, against 291 last week and 256 a year ago.

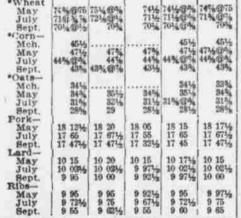

Corn was influenced more or less by the action of wheat, but the strength in oats overhalanced this factor and the market held about steady. The weather was much more favorable for the movement and grading, but the receipts were still light, 215 cars being received, none of which were of contract grade. The close was about unchanged from last night's figures, May being a shade lower at 4%c, after selling netween 47%c and 4%c.

There was a fair trade in oats, with the interest of many traders from the other pits centered in this market. The sentiment was decidedly bullish, due largely to a private report discrediting the large estimate on far,n reserves as shown by the recent government report. Shorts were active buyers and there was also considerable stuff taken for long account. The close was strong and %c higher for May at 25%c, after ranging between 3½c and 35%c. Local receipts were moderate at 222 cars.

Provisions were easier early on liberal receipts of hogs and lower prices at the yards, and on quite general liquidation the market declined still further, but a fair demand for lard from foreign houses brought a

market declined still further, but a fair de-mand for lard from foreign houses brought about a raily and prices held about steady the remainder of the day. May pork closed 2½c lower at \$18.15. May lard \$1½c higher at \$10.17½ and ribs off 2½c at \$9.50. Estimated receipts for tomorrow: Wheat, 20 cars; corn, 250 cars; oats, 170 cars; hogs, 14.000 head. Cotton Market.

NEW YORK, March 13.—COTTON—Opened steady, I point higher to 2 lower and immediately following the call ruled irregular, prices fluctuating within a narrow limit, showing corsiderable steadiness, particularly on the nev crop propositions, under less favorable weather forecasts, which were regarded as offsetting the rather d sappointing ruling of the Liverpool market. Under some covering by shorts, which was encouraged by the small estimate for iomorrow's receipts at Houston, held for a time around last night's close, but the market soon gave way under liquidations and Pacifics were forced rapidly cownward, though trading was by no means as sciive as the recent average. May led the decline under sales said to be for the account of certain spot interests, while the soid crop months continued relatively firm. The estimates for Galveston and New Orleans tomorrow were liberal, and there was out little support in the market. Shortly after mid-day the buils attempted to rally Pacifics on the week-end figures, but these had been expected and but little outside support was forthcoming, so that after momertary improvement of a few points the market resumed its downward course and at the close was barely steady, net 2017 points lower, that being the lowest level of the season. Total sales of futures estimated at 20,000 bales. Port receipts footed up 18,700 bales, against 18,600 last year, and the exports reached 25,321 bales.

Wool Market.

HOSTON, March 12.—WOOL—The Commercial Bulletin will say in tomorrow sissue; The demand is limited to the small consumers and sales are in small lots. Prices are about steady on these, but large lines could only be moved at concessions. That prices were maintained at the London auction sale, which opened Tuesday, encourages the local and holders of fine wools. On the other hand, medium grades are easy cross-breds 5 per cent lower at London. Three thousand sheep carcanses will be shipped from St. Paul via Seattle to Australia, owing to heavy losses of sheep there by drouth and consequent contrage in mutton. The east Boston warehouse is expected to be released from quarantine next week. The shipments of wool from Borton to date from December 31, 1992, are 55,294,795 lbs., against 48,085,317 lbs. for the same period last year.
