Ayer's Sarsaparilla

"I was a soldier in the Spanish-American War. After returning home I found that I was a perfect wreck. I was all run down, my blood was impure, and my nervous system in bad shape. tried almost every medicine I could hear of, but none of them did me any good. I then tried Ayer's Sarsaparilla and began to improve at once. I want to recommend it to every sufferer from impure blood."-H. C. DOEHLER, Scranton, Pa. November, 1902.

"I had a terrible case of scrofula, and I kept trying all kinds of medicines, but they did me no good. One day I thought I would try Ayer's Family Medicines, so I bought two bottles of Ayer's Sarsaparilla and two boxes of Ayer's Pills. I took them according to directions, and in a week I was greatly improved. Before all the medicine was gone I was completely cured. I shall always recommend your medicines to others." - Chas. L. Locke, Stanford, Mont.

"Ayer's Sarsap wills made the greatest cure for me ever accomplished by any medicine in the world. As a result of a long sickness in the army I had fever-sores, varicose veins, and ulcers of the worst kind. I was on crutches a great deal of the time from 1862 to 1901. Then I began to take Ayer's Saraaparilla, and I am happy to say that my limb is entirely cured. I can go without crutches and can walk without a limp." — David C. Holr, West Haven, Conn.

Cured these people

'I suffered untold misery for many years from indigestion. I then began to use Ayer's Sarsapririlla and I soon felt its good results. I only had to use four bottles, and I tell you it was money well spent. Words cannot express to you the gratitude I feel for that great cure. I must say hat no one need suffer with indigestion if they can buy Ayer's Sarsaparilla," - Mas. F. R. Herr, Mt. Kisco, N. Y.

"I owe my life to Ayer's Sarsaparilla and Ayer's Pills. They are the wonders of the world. I was in a terribly nervous condition, so that I could not bear the slightest noise, but immediately after beginning the use of these medicines I noticed an improvement, and soon was entirely well. I have also gained to pounds in weight from its use." - MRS. Delia McWell, Newark, N. J.

"I am anxious to let every one know what Ayer's Sarsaparilla has done for me. I am a great sufferer from sciatic rheumatism, but whenever a itesh attack comes on I take the Sarsaparilla and am soon over it. I keep it in the house all the time, for I cannot get any ease from any other medicine. How can I tell you the true worth of this medicine?"-MRS. CHAUNCEY TYLER, Randallsville, N. Y.

we do object to being singled out by our- ties. selves and given another name. The Rock laland company will most likely change the name of its depot to Washington street depot, South Omaha. As for the street car company we hope to have the signs on the cars changed so that the word Albright will be omitted. All of our merchants have promised to cut the word Albright off their stationery and run straight South Omaha lines. Another matter in this connection is to come up, and that is to change the name of the Albright school. The members of the club which I represent would like to have the name of the Albright school changed to that of Madison. It is understood that a petition will be presented to the Board of Education at its next meeting asking that this change in name be

SECRET KEPT UNTIL THE LAST MOMENT

On Under Management of Women

Proves a Unique Social Success. crowd-an incongruous, brilliant crowd and from the lower edge of the vein a merry one withal, which danced last

night at that most mysterious ball in of the shaft is in all respects similar to Masonic temple. And it was a mysterious the coal producing regions of southeastern dance. At 18:30 o'clock the hall went Kansas, the Hocking coal fields of Ohio came off, a blue calcium flared up and a garlanded sign displayed the ended secret: "Vesta Chapter, No. 6." Until then, such has been the mysteriousness of invitations and the care of workers few had known who were the hosts. The ball was really given by the women of Vesta, who two weeks ago put- on the "Vocal Star" work in the lodge, and to them is largely due the credit for this most successful dance.

At the beginning there was a grand march, First of all came Walter Howe, as page for his royal highness; then the ladies of the "Vocal Star," followed by four little girls in white, Louise and Helen Downing, Alice Peterson and Irene Moore; and then his royal highness, L. H. Bradley, king and master of ceremonies. With him was John D. Howe, third royal Medinaannota. Then followed the dancers. At swashbucklers in hose and doublet; Spanish dancers and Spanish students; young women who wore dancers' skirts for obvious reasons and young men who should not have dared the short breeches and long hose. There was a general in full regalia; but there were no swords; in olden times men died from swords, now they trip on them and fall and are ashamed. There was one rash beau who danced in chaparajos that creaked like a new saddle, and with great Mexican spurs. And he es-

caped alive! Mayor's Double There.

Most of those present were under the impression that Mayor Moores was in the hall until after the unmasking. He apparently met his royal highness and gave him the key of the city. But it was George R. Armstrong, who looks much like the mayor when the upper part of his face is masked. All those coming to the dance passed through an inquisition at the hands of Mrs. Anna C. Simpson, Misses Maud and Winnifred Wallace and George D. Nicholson, before being passed to the hall. The floor was in charge of Misses Coru Jack, Clara Smith, Nellie Schonlau and Mrs. F. A. Walker. The sixty gallons of punch and cakes were served by Messrs. and Mesdames Nicholson, Bradley, Springmeyer and Ayer, and John Robertson and Josiah Thomas.

Said John D. Howe, who acted as lord high almost everything: "Women can keep secret: I find that men cannot. We thought that secrecy was everything in this entertalnment and we swore secrecy; but learned that some of the men failed in the eath. The invitations of which I sent out \$50, were meant only to confuse. The symbols on the front are of the forty-sevonth degree of the Eastern Star and can be read only by three people in the world. The emblems are from all branches of Masoury. I received some amusing letters in reply to these and few people knew anything they should not until the

COAL IS FOUND NEAR OMAHA

Three-Foot Vein of Semi-Anthracite Dircovered at Glissman Farm

CRUDE TESTS SHOW EXCELLENT QUALITY

Drillers for Omnha Company Strike Pure Conl When Shaft Reaches a Depth of Minety-Three

Bituminous coal has been discovered in the vicinity of Omaha. The discovery was made at 11 o'clock yesterday morning or the farm of W. H. Glissman, nine miles west of the city, on the Center street road. The coal was struck at a depth of ninety three feet, and is apparently of the semianthracite grade. The vein is three feet in thickness at the point where it was

The discovery was made by W. J. Glison, who has charge of the drilling which has been going on for some time at the Glissman farm for the Omaha Petroleum, Gas and Oil company.

Mr. Gilson is a practical miner, having been engaged in the business for a number of years, and is but recently from the Boulder (Colo.) mining fields. As soon as the coal was found Mr. Gilson mounted a horse and rode to the nearst telephone, five miles distant, and sent the word to Omaha. Frank Dunlop, secretary of the company, and a Bee reporter departed a few moments afterward by private conveyance for the Glissman farm to investigate

The drill, a huge ten-inch affair, had been pounding through slate and coal blossom during the morning, having just gone through a thirty-five foot ledge of dark sandstone. At ninety-two feet the indications for coal became pronounced and suddenly, from the easy action of the drill. Mr. Gilson and the drillers were satisfied that a strata of coal had been reached. The drill was drawn out, the long cylindrical bucket sent down and it brought up a miscellaneous compound of powdered slate and coal blossom and a quantity of pure coal, finely crushed by the action of the drill.

The drill was set to work again and it drove through the coal layer with great rapidity for a few minutes, and when the bucket was sent down again it brought up a considerable quantity of pure coal in pieces from the powdered state to the size of a hickory nut. The drilling was continued for about three feet through the coal vein, when slate and coal blosson were again encountered and the drilling was discontinued until the officials of the company in Omaha could be notified.

Conl Burns Rendily.

In the meanwhile Mr. Glissman took some of the new-found coal up to his house to test its burning qualities and found very easy of ignition and that it burned summer to complete this work, though the Verta Chapter, Order of the Easterd Star, rapidly. The family dinner was cooked

The Bee reporter obtained a small quantity of the coal, taken from the shaft in his presence, and tested its burning qualities at the house. It was found to burn readily, with a strong bituminous odor, clear gaseous flame, emitting a brownish smoke, and leaving a light brown ash. The coal on being exposed to air shows no indications of decomposition, is extremely hard in texture and is apparently of a semi-anthracite order. The specimens from which the necessary crude tests were made were Indeed! Indeed! but that was a motely taken directly from the shaft and were

MAYBERRY BECOMES BAILIFF Old Soldier From South Omaha is Appointed to Succeed John

Norberg.

Judge Lee S. Estelle of the criminal branch of the district court wrote and mailed with a special delivery stamp at 5 o'clock last evening a letter formally apprising Maynard Mayberry of South Omaha that the judge has selected him to be a bailiff of the criminal court, vice John Norberg, who retired today after holding the position for sixteen years.

The appointment was made pursuant to the promise Judge Estelle gave some time LIBRARY BOARD RETRENCHES ago that if he took the criminal bench a South Omaha man should be appointed Cuts Off Some Expense Items to Meet to the place. In making the selection he had to choose between Mr. Mayberry, very strongly urged by his comrades in Phil Kearney post, Grand Army of the Republic, I. J. Copenhary, equally strongly urged and supported union labor because of his membership in the Typographical union, and James V. Chizek, a politician once employed under County Clerk Haverly. Mr. Mayberry's duties will begin Monday, as Mr. Norberg's term expires today. The latter has been on duty this week, but for some months has been confined to Reed and Directors Haller, Rosewater, Ives. his home by rheumatism. The other bailiff in Judge Estelle's court is J. H. Hulburt.
