MAY CORN BREAKS OVER TWO CENTS

Other Grains Suffer in Sympathy, While Provisions Are Also Affected in Spite of Otherwise Favorable Conditions.

CHICAGO, March 16 .- There was a break

CHICAGO, March 16.—There was a break of over 2 cents in March corn today, due to heavy liquidation by prominent holders and the close was down 1%c. May wheat was off %c and oats wer, %0%c lower. Provisions were easier and the May pro-ducts closed from ?%c to like lower. Trading in wheat was only moderate and the market heid tairly steady the greater part of the day, but the extreme weakness in corn caused a decline lite in the session and the close was near the bottom. May opened a shade to %c higher, at 76%c to 74%074%c, on comparatively steady cables the market had tairly steady cables the markets at Liverpool tailing to respond to the decline here, and on small world's shipments, the decrease being largely from Russia and Argentine. There was general selling by commission houses, but the of-ferings were well taken by pit traders, and local longs, and the price remained steady until the session was well advanced, when a reversion of sentiment developed on the break in corn and a decline to 73%c fol-lowed. The close was %c lower at 73%0 7%c. Clearances of wheat and flour were 75,000 bushels, against 631,000 bushels a year ago. The amount on yassage de-creused 1.672,000 bushels, and the visible sup-ply showed a decrease of 601,000 bushels a proved a decrease of 601,000 bushels a proved a decrease of 601,000 bushels a inal. against 565 cars inst week, and or cars a year ago. Enormous liquidation of May corn ro-suited in a break of 2c in that commodity and with poor support the market closed near the bottom. The selling was a con-tinuance of the liquidation begun last week and was on a scale sufficient to sat-lefy the most incredulous that the buil campaign inaugurated several weeks ago had been abandoned. The selling was in big blocks and at first was mainly con-fined to one or two large operators, but as the sension advanced and no letup oc-curred the smaller holders took alarm and joined in the selling movement, so that for a time it scened as if the whole pit had corn for sale. The opening was easy on lower cables. May being a shade lower, at 46% 245%c, and from the tap of the bell until late in the day the market experienced a gradual decline. At 4%c there was some covering by shorts and a slight reaction occurred, the close tring off 1%c, at 45%c. Statistics on the whole were bul-ish, but had little effect on the situation. Local receipts were 350 cars, with one of contract grade. There was early selling of oats on the increased receipts but the offerings were well taken and the market held quite steady until late in the dose was weak and %ower for May at 54%c, after steady until late in the seasion, when prices declined with corn. The volume of trade was only moderate. The close was weak and %ower for May at 54%c, after selling between 34%c and 34%c. Local re-ceipts were 41% can. There was considerable liquidation in provisions induced chieffy by the weak ness in corn, although ilberal receipts of hogs and a decline of from %c to 1%c in prices at he yards were early poor the market year ago.
