LINDSAY RETURNING TO NEBRASKA

Secretary Root Decides It Will Not Be Possible for Him to Accompany President on Western Trip.

(From a Staff Correspondent.) WASHINGTON, March 18.—(Special Telegram)—There was much favorable comment about the War department today when it became known that the president had sent in the name of Colonel C. H. Humphrey to be quartermaster general, with the rank of brigadier general. Among the other officers who have known Colonel Humphrey and who have been associated with him in his army life from the early days of the civil war, his nomination was received with real pleasure, for Colonel Humphrey has come up from the ranks to his present high position. In the Department of the Missouri also, Colonel Humphrey's promotion will be well received, for much of his later military life was spent in that department, although when he was located in Omaha it was the Department of the Platte.

HAVE HAD THEIR DAY.

Old Fashioned Medicines For Cataract No Longer In Vogue.

for many years past the usual treatment for cataract diseases was with local douches, sprays, inhalers and liquid medicines composed principally of alcohol, all of which never cured but simply gave the temporary relief and stimulation. A thorough cure can be made only by the treatment which removes the catarctal poisons from the blood. A new remedy which meets the requirements and which so far has been remarkably successful in curing cataract is Stuart's Cataract Tablets.

These tablets act upon the blood and mucous membrane only. They can hardly be classed as a secret patent medicine as they are composed of such valuable remedies as blood root, Hydrastin, red gum of Eucalyptus tree and of the B. & O. system; and another contractor, testified before the Bartley committee today, Morris this morning, the others tonight. None contributed any evidence as to the existence, location or contents of that famous cigar box. None gave the committee any light that tends to aid it in ascertaining the names of the parties to whom Bartley loaned state funds or the amount of those funds.

Dr. Bennett stated "that the internal treatment of cataract by means of pleasant medicated tablets is rapidly taking the place of douches and local applications" and says that "probably the best and certainly the safest remedy at present on the market is the Stuart's Cataract Tablets, as no secret is made of their composition and all the really efficient cataract remedies are concentrated in this tablet."

The police were notified by telephone and the officer was compelled to put his revolver on the man in order to capture him. A night in the city jail followed him and when he appeared in police court this morning dressed in a black suit of the latest style and perfect fit, but without the customary carnation in his buttonhole, he was very willing to plead guilty and was given a bond of \$500. The fine was remitted on condition that he leave town, and Policeman Stiles saw him aboard the Lincoln train.
