DOUBLE TRACK WORK ON UNION PACIFIC

Millions of Dollars to Be Spent and Ten Thousand Men to Be Employed on Improvement This Spring.

The Union Pacific has let contracts for doubling 144.4 miles of its track this year, 76.4 miles of the work to be done in Wyoming. The double tracks are all to be placed so that they will connect with other double tracks already laid and give two sections of double track complete between Silver Creek and Watson's Ranch in Nebraska and between Cheyenne and Laramie in Wyoming.

This work is being done in connection with the expenditure of $10,000,000 which E. H. Harriman has planned for the purpose of making it possible to go from New York to San Francisco in three and one-half days. The work in Wyoming will cost $1,500,000 and the Union Pacific will have 10,000 men working on track and roadbed in Wyoming and Nebraska this spring.

To Reduce Some Grades.

The biggest part of the work planned for Wyoming is that of the reduction of the grade on Archer hill and the double tracking of this sixteen miles. The grade at present is so great that freight trains have to be split and taken over the hill in two sections. This has caused a great deal of delay on this section of the road. The work in Echo canon is of somewhat the same character and will give the Union Pacific a track with few curves in it and put it in shape for a double track at slightly increased cost.

There are 1,010 miles of track on the line from Omaha to Ogden and one-seventh of this amount will be double tracked this year which with that already built will give them a double track for more than one-fifth of the route.

The Southern Pacific is making preparations for the building of a tunnel through the mountains in Nevada at a cost of $10,000,000. This work is in line with that being done on the Union Pacific and will probably be begun within a year.

It Happened in a Drug Store.

"One day last winter a lady came to my drug store and asked for a brand of cough medicine that I did not have in stock," says Mr. C. R. Grandin, the popular druggist of Ontario, N. Y. "She was disappointed and wanted to know what cough preparation I could recommend. I said to her that I could freely recommend Chamberlain's Cough Remedy and that she could take a bottle of the remedy and after giving it a fair trial if she did not find it worth the money to bring back the bottle and I would refund the price paid. In the course of a day or two the lady came back, in company with a friend in need of a cough medicine, and advised her to buy a bottle of Chamberlain's Cough Remedy. I consider that a very good recommendation for the remedy." The remedy owes its great popularity and extensive sale in a large measure to the personal recommendations of people who have been cured by its use.
