

MORTON MEMORIAL TABLET

Is to Be Placed on One of the Big Redwood Trees in Santa Cruz Park.

ARBOR DAY PROCLAMATION IS ISSUED

Supreme Court Hands Down a Number of Opinions, Among Them One in the Libel Case From Riverton.

(From a Staff Correspondent.)

LINCOLN, March 19.—In the rooms of the Nebraska State Historical society at the State university there is on exhibition a tablet of white brass that is to be placed upon one of the big redwood trees in the park at Santa Cruz, Cal., in memory of the late J. Sterling Morton. This tablet is about two feet square and is cast with its inscriptions standing in bold relief so that they may be read at a considerable distance. On the upper left hand corner are the words, "Plant Truths," and upon the upper right hand corner the words, "Plant Trees." Below these words is a design composed of four oak leaves and an acorn on a single twig beneath which is set for the significance of the tablet as follows: "In memory of J. Sterling Morton of Nebraska, father of Arbor day; born April 22, 1832; died April 27, 1902. By order of Nebraska State Historical society."

The tablet was manufactured in Des Moines at the order of W. W. Fox Cortland, who conceived the idea while touring California that Mr. Morton should be remembered as have been many other men of national prominence in the naming of the big trees abounding in the park at Santa Cruz. He asked leave of the park authorities there to name one of the trees after Mr. Morton and was assured that it would be granted if the proper tablet were furnished. At the last meeting of the historical society a committee, with Mr. Cox as chairman, was appointed to secure the tablet and provide for its installation. The tree picked out to bear the name of Mr. Morton, and to which this tablet will be fastened, is about 270 feet high and is believed to antedate the pyramids. There are others much larger, but this one is the finest. Pending its being sent to California the tablet is shown at the historical society's room beneath the bust of Mr. Morton.

Arbor Day Proclamation.

Governor Mickey today issued the following Arbor day proclamation:

The recurring spring season is again at hand, bringing with it that holiday which is so distinctively Nebraska. Arbor day, which has here received its most complete recognition. The observance of nearly all public festivals is actuated by motives of sentiment, and Arbor day is no exception. It is a day which has received its most complete recognition. The observance of nearly all public festivals is actuated by motives of sentiment, and Arbor day is no exception. It is a day which has received its most complete recognition.

Supreme Court Opinions.

The Riverton review will have another chance for its white ally. The supreme court has reversed and remanded for a new trial the case brought against it by Ed Fuller, the town marshal, who was the subject of a terrific rant published by Mrs. Amanda B. Williams and edited by her husband, Paris Williams. The story is an odd one.

Assistant is Liable.

For a second time the supreme court holds that the bookkeepers of Frank Flais as assistant cashier of a bank at Millard, Fillmore county, which was wrecked by the peculations of its cashier, one Zirhut, are liable for Flais's acts in permitting the cashier to forge forged and fictitious notes.

Sustains Convictions.

The supreme court sustained the conviction in the courts of Colfax county of William Kepple, who was accused of violating a law which prohibited the keeping of a bowling alley in connection with a saloon or hotel. The defendant's attorneys attacked the law as an unreasonable restriction upon the freedom of a man to engage in a business not in itself bad or vicious.

Smith Gets New Trial. Raymond Smith was charged in the district court of shooting the late and the supreme court, upon an information which was a bad one, and the case is reversed. There were two counts in this information. One sought to charge him with burglary, entering and breaking into the home of Hanna Swanson with the intent and for the purpose of ravishing her, and the second charged burglary. The latter was dismissed, and Smith pleaded guilty to the first count and was sentenced to a year.

Decides Indian Case.

A decision of very great importance to the people of Thurston county is that in the case of Daniel Porter against Ne-daw-daw, involving the application for non-application of the Nebraska law of descent to Indians. There are some 1,200 Indians in that county and there are 100 or more acres resting upon the decision in this one. The facts and the contentions of both parties thereto were stipulated to the court recently, and an early decision asked for on many titles depended upon the final decree of the courts. The decision is that the law of descent applies to Indians just as well as to white men. It says: "An allotment and patent of lands in severalty pursuant to an act of congress entitled an act to provide for the sale of a part of the Omaha reservation to the state of Nebraska, is seized of an equitable estate in fee, which, upon his death, before the issuance of the final patent therefor by the United States, descends to his heirs or heirs-at-law according to the laws of inheritance of this state."

Options in the following cases will not be officially reported: Van Auker against Mimer; former judgment affirmed; Duffie, C. J. McKee against Leake; affirmed; Pound, C. J. Carter against Jordan; affirmed; Hastings, C. J. Nebraska Loan and Trust company against Corning; affirmed; Pound, C. J. Guthrie against Guthrie; affirmed; Albert, C. J. MEET WITH WARM RECEPTION

Bride and Groom Sleep in Jail on Account of Fear of Brother of the Bride.

FREMONT, Neb., March 19.—(Special.)—Vigo Nelson, an employe of the Bell Telephone company of this city, and Clara Tetze, a 27-year-old girl, ran away to Council Bluffs Monday and were married. The girl's mother, Mrs. F. Tetze, did not succeed in locating the pair until last evening when Sheriff Bauman found them at Mrs. Weid's lodging house on Main street and brought them up to the residence, where the bride's mother was. Mrs. Tetze was not in a forgiving mood and she at once started to administer a good dose of corporal punishment to her recalcitrant daughter in the same manner she formerly did when Clara was a little girl in short dresses, in which she went to the school of music and German and English epistles at the astonished groom. The sheriff finally succeeded in quieting the pair. A little later Felix Tetze, the bride's big brother, found out about her marriage and that knowledge he brought them up to the jail door on the sun and begged the sheriff to lock him up for safe keeping. Bauman accommodated him and as the bride didn't dare go home and had no other place to stay he went to the jail too, the newly married pair occupying apartments up stairs. This morning the groom went to the jail door and that his wife was safe and went to work as usual keeping an eye out for the big brother.

Boy in Problem for Officers.

HUMBOLDT, Neb., March 19.—(Special.)—Local police officers have a hard problem to deal with in the case of the 8-year-old son of Robert Leary, a laboring man. The boy has for several months been causing complaint from citizens in various parts of the city by stealing chickens and other petty articles and disposing of the same. Of late he has devoted most of his time to taking horses from various farms, picking up a saddle wherever possible, riding about town as long as he desired and turning the horse loose to go home. He, however, got into his most serious trouble by stealing a gold watch from the vest of C. C. Stringfield. Marshal Grinstead went in search of the lad and meeting him on the street found that he had the watch and compelled him to give it up. He was just returning from a jewelry store, where he had claimed the watch belonged to his father who wished him to sell it for \$5 and have the money ready for him when he returned from the county in 18 evening. The lad always denies complicity in these offenses until fined down and then goes up with astonishing frankness and promises not to do so any more. His parents seem to have wholly lost control of him and the authorities are considering the advisability of placing him in a reformatory.

CHRONIC SORES

Signs of Polluted Blood.

There is nothing so repulsive looking and disgusting as an old sore. You worry over it till your brain grows weary and work with it until the patience is exhausted, and the very sight of the old festering, sickly looking place makes you irritable, despondent and desperate.

A chronic sore is the very best evidence that your blood is in an unhealthy and impoverished condition, that your constitution is breaking down under the effects of some serious disorder. The taking of strong medicines, like mercury or potash, will sometimes so pollute and vitiate the blood and impair the general system that the merest scratch or bruise results in obstinate non-healing sores of the most offensive character.

Often an inherited taint breaks out in frightful eating sores upon the limbs or face in old age or middle life. Whenever a sore refuses to heal the blood is always at fault, and, while antiseptic washes, salves, soaps and powders can do much to keep down the inflammation and cleanse the sore, it will never heal permanently till the blood itself has been purified and the deadly germs and poisons destroyed, and with S. S. S. this can be accomplished—the polluted blood is purified and invigorated, and the pure blood is again circulating freely throughout the body the flesh around the old sore begins to take on a natural color, the discharge of matter ceases and the place heals over.

S. S. S. is both a blood purifier and tonic that puts your blood in order and at the same time tones up the system and builds up the general health. If you have a chronic sore write us and our physician will advise you without charge.
