Right here at and they will be good and interesting Games. And then I have added a game the less so because we have a little local with Belevue college for April 16. All of mystery of our own, one that is bothering home grounds. Papa Bill as much as any of us. BIII knows who's going to catch, but neither he nor any of the other wise boys can tell. who's going to pitch. It's a cinch that Omaha will have some good pitchers if money can buy them, and that is about as far as any one can go in the matter just Other managers in the Western league are giving out their teams, and up to date none of them look very fierce. Denver shows up with about the same gang as last summer, barring Parke, the Umpire Tommy Delehanty is to be bosa of the bear pit this season, and if he sticks to his showing of last year, Omaha will have just about the same sort of record with Denver. No trouble to beat the Grizziles in Omaha, but impossible to touch them at Denver. Here's offering a hig red apple against a doughnut that Pop Eyler doesn't win every game he pitches against Omaha this year. St. Joe is to be handled by young Mr. Rohe, the false alarm who cavorted around third base for the Josies last year. That is going to be a had place for umpires, too, for, if memory serves correctly, Mr. Rohe's chief claim to distinction arises from his capacity as a ing overtime, burning incense before young Mr. Leary, the shortstop. They admit that Joe Dolan has some claim to premier honors, but still hope to see will start under the banner of Big Bill Wilson, over at Pee-o-ree, is allowed third place by these prohibition fanatics, and the rest are nowhere. Hugh Duffy, Bill Everitt and Charley Nichols are following very much the lead of Bill Rourke, and are simply sawing wood and waiting for the season to open before winning the pennant. With these veteran managers at the head, at least four of the Western league teams will be equipped to put up first-class ball. Just what Bill Wilson will do as a manager can't even be guessed at. If he succeeds to high standing in the list of base ball impressarios.

PHYSICAL HOUSE-CLEANING A Thorough Cleansing of the System

Now is the Surest Protection Against Spring and Summer Sickness.

No good house keeper ever neglects Spring cleaning. With plenty of soap and water, hard scrubbing and scouring, sunlight and air, she soon gets rid of all rubbish, musty odors, germs and microbes, and the dust and dirt that have accumulated during the long winter months, and everything about the place is fresh ned up and given an air of newness and neatness that suggestic health and comfort. But when the house has been put in order, and the

premises cleared of all old plunder and trash, the great majority of house keepers feel that Spring cleaning is over, and forget that their systems may be in a worse condition than the house, and that the bad feelings, debility, loss of appetite, nervousness and sleeplessness from which they are suffering are due to neglect of the more important and necessary work of Physical house cleaning. A clean house does not insure against disease, but a clean system does. The poisons and humors engendered within the body, the waste matter that is clogging the system and contaminating and vitiating the blood, are far more dangerous to health than the dirt and dust of our homes. In the winter time we give free rein to our appetites, and eat more and oftener than is for our good. We inhale the polluted air of badly ventilated offices and rooms, take little or no exercise, and our bodies become a veritable hot-bed of disease-bearing germs, and our blood is loaded with impurities and poisons of every conceivable kind; and no wonder that Spring time is so often Sick time and finds us in such poor physical condition, with vitality slowly wasting away, our digestion impaired, the liver torpid, and all the bodily organs over-worked and out of repair. Unless our systems are given a thorough cleaning, and the blood purged and purified, the simplest malady may develop into some serious disorder or end in chronic invalidism, and often the pent-up impurities, poisons and humors break out through the skin, and all through the Spring and Summer you are tormented with boils, itchy

rashes, sores, bumps and pimples, and all manner of ugly pustular and scaly eruptions. Physical house cleaning should begin with the blood. It must be purified and strengthened and when a stream of pure, rich blood is turned into all the nooks and corners of the system the rubbish and disease-producing poisons are washed out, and the congested channels and avenues of the body are opened, and Physical house cleaning is made thorough and complete. S. S. S. cleanses the blood of taints and poisons and expels the waste and rubbish from the system. It is to the system what soap and water are to the house. Nothing else so quickly removes the

stubborn, deeply-rooted poisons and humors that are destroying the purity of the blood and blocking the avenues of health and life.

A course of S. S. S. now will put your system in perfect order and fortify you against the debilitating diseases and aggravating skin troubles that are sure to come if your physical welfare has been neglected. S. S. S. is not only the

best of all blood purifiers, but an unequalled tonic and appetizer. It builds you up, improves the appetite, and aids the digestion and assimilation of food, and keeps the system in a healthy. vigorous condition. S.S.S. is guaranteed purely vegetable, and can be taken by the old, middleaged and young without danger of any harmful effects. S. S. S. is a blood purifier and tonic combined, a perfect Spring medicine and indispensable in Physical house cleaning. Write us fully and freely about your case and our physicians will advise without charge.

It really looks as if Duffy is to have the better of the argument in the Cream City next season, just as he did last. One big point in his favor is that A. W. Freese has been removed from the position of base ball editor of the Sentinel and this will insure the Western league at least an even break in the news columns of the leading Milwaukee paper This will help a great deal, for last season the Western had to stand for a lot of unreasonable battering in the columns of the Sentinel.

Another little ripple is shown by the behavior of George Davis and Ed Delehauty. Davis insists that he is going to play with Muggsy McGraw's outfit and Delebanty says he will play with Griffith's team or not at all. And both of them insist that they will collect the big salaries they were offered, play or no play. Harry Pulliam and Ban Johnson have told this pair that they will play where they were assigned by the peace conference-that is, Davis with Comiskey and Delehanty with Tom Loftus-or they'll do no playing and will draw no pay. This situation is going to lead to another decision on base ball players' contracts and the probabilities are that it will be in favor of the magnates and against the rubber legs.
