to Romans, vi 23, which was found upon a was the only message which S. R. Mumaugh left as regarding his suicide, which occurred about ten minutes before 12 o'clock yesterday. Death was caused by Mumaugh shooting himself in the left breast, directly

over the heart, with a large revolver. About fifteen minutes before 12 o'clock Mumaugh left his room and went down to the office of the hotel, where he met several friends cordially. Later he went to the bar and took a drink. After speaking to R. M. Wright, the manager of the hotel, he returned to his room. A moment later a revolver report rang through the corridors. When occupants of the adjoining rooms rushed to Mumaugh's apartment they found the door locked. Suspicions of suicide arose and the police department was Immediately notified

Wenpon in Dead Man's Hand.

Sergeants Whelan and Gibbons responded. When the officers entered the room it was filled with smoke from the fatal shot. Lying upon the bed, clad only in his night garment, Mumaugh was dead. A wound directly over the heart showed the cause of his death, while the weapon was still grasped in the dead man's right hand. The left shoulder of the night robe had been removed that the revolver might be placed directly over the beating heart. The bullet passed through Mumaugh's body, and the bed, being picked up on the floor by Ser-

Mumaugh, who was about 25 years of age, had been despondent for the past few weeks, owing to his failure to secure steady employment, though he had been working at Charles A. Tracy's cigar store, on Douglas street, relieving the day clerk. Tries to Borrow Revolver.

He had made several requests for the loan of a revolver, or a razor from his friends, but none would grant his request. In Tracy's cigar store he secured the gun with which he ended his life. He was formerly connected with the city engineer's department, having been employed there for several years.

Coroner Brailey has taken charge of the remains and thinks that in all probability an inquest will be held Monday.

A queer coincidence in connection with Mumaugh's death is the assertion of Walter Henry, who was arrested while delirious, that a suicide had been, or would be, committed in the Thurston hotel. He so informed Judge Berka when he was arraigned before that magistrate yesterday. Within two hours after he had made the statement Mumaugh has accomplished his self destruc-

Ten Months of Peace After Dreadful Suffering.

Operations are becoming a fad; every young man, as soon as he is graduated from a medical cellege, considers himself capable of undertaking the most serious and complicated surgical work, and hundreds of lives are sacrificed annually to this mad frenzy of incompetent men, to rush into work which should only be undertaken as a last resort, and then only by the most

experienced and careful surgeons. It is a pleasure, in view of these facts, to read the following letter from a woman who has been saved from one of these dangerous operations. "I know I should have informed you long ago regarding my case of piles and the good done me, and I believe I am cured. Last December I sent for your fill all city and county offices, nevertheless book. I have never been bothered since then, and before I had suffered for the last eleven years, and at the time I wrote I had given birth to a child, and they came down with the delievery of the child by the handful. I could not get them back and I suffered everything; and the doctor said nothing but an operation would ever relieve me, but I read of your remedy in our daily newspaper and I told my husband to get me a box and I would give it a trial before consenting to the knife, and thanks be to your ronderful medicine, I was saved from the

operation table. "Every person suffering from piles that my husband and myself hear of, we recommended your wonderful medic no. I just used fine \$1 box of Pyramid Pile Cure, and two xes of Pyramid Cintment and two boxes of Pyramid Pills, and I was, I hope completely cured. If they ever show the slightest return I will certainly get some more medicine, but I hardly think I will need any more for it will be a year the 8th day of December since I had them and that makes it ten months and past now. Thanking you again and wishing you abundant success, I remain, Mrs. S. Hodgson, 105 W.

BULLET THROUGH HIS HEART GREATER DEMAND FOR MONEY

Omaha Banks Not Likely to Keep Up to New York Rates of Interest.

The money market in Omaha experienced revival in demand for money for commercial use this week on account of the marked advance of rates in New York, but It is not believed that the firmer rates thus created will be maintained for any length of time. Money is now coming into the city banks from the banks of the interior of the state and the next statement is expected to show a much larger volume o "For the wages of sin is death; but the deposits than the last one. The soft corn barvested last fall caused farmers to feed more cattle than usual and the money which usually comes from the sale of corn did not arrive, as it required longer time to sell the cattle. These cattle are now being placed on the market and the money, with possibly higher profits, is coming to the banks in the interior of the state and in turn being sent to the banks of Omaha. These deposits since February

have increased approximately \$2,500,000. On the other hand, the loans and discounts of the banks have not increased in proportion and were it not for the condition of the eastern money market a slightly lower rate for demand loans on good security might be expected. This is, however, equalized by the increased demand for money on the part of a number of western institutions which are ordinarily supplied in the east, but which have been temporarily driven from that market by the high

TALKS OF SUMMER SCHOOL Secretary Says It Will Be Rare Opportunity for County Superintendents.

Concerning the prepararations that are being made for the Transmississippi Summer School of Superintendence, Superintendent Pearse, who is the secretary, says: "The circulars announcing details concerning the school are about ready, and during the spring vacation, which begins March 28, will be sent out to all the superintendents and principals in the Transmississippi country, of whom there are between 7,000 and 8,000, not counting California, which will not be circularized.

"As the program develops it becomes clearer that not only will the school be a notable event for superintedents and heads of town and village schools, but for county superintendents, or county school commissioners, as they are called in some states, it promises to be the greatest opportunity they have ever enjoyed. In addition to the line of lectures prepared especially for them and to be given by State Superintendent Stetson of Maine during the week beginning June 22, a series of round table conferences is being arranged for that week. Four of these conferences are already provided for and will be conducted by State Superintendent R. C. Barrett of Iowa, W. T. Carrington of Missouri, I. T. Dayhoff of Kansas and J. W. Olsen of Min-

JANITOR RUBS AGAINST ART

Hence Musical Director Kelly Says Mop Manipulator Must Go

QUESTION UP TO THE CHURCH TRUSTEES Choir Master Insists that the Janitor

Has Refused in an Insulting Manner to Perform Certain Work.

Thomas J. Kelly, musical director and organist at the First Methodist Episcopal church, has submitted a tentative resignain the same escapade and sentenced to two tion to C. F. Weller, chairman of the music years in the penitentiary, was taken to committee and a member of the board of trustees. Mr. Kelly said he was willing to continue in charge of the largest and best known musical department of any church in the city provided that Janitor Innes was dismissed from service. The board of trustees demurred at this and insisted upon giving the janitor a hearing, while the musical director held out for instant action. Finding that this course was not to be followed Mr. Kelly tendered his resignation and Mr. Weller thereupon resigned from the board of trustees.

Behind the differences between Musical Director Kelly and Janitor Innes is a deeper significance-marked in the divergence of the ideas of the congregation as to what extent and scope the musical department should be carried. What is said to be a minority has for some time complained of what was termed a "preponderance of muric." This feeling has exhibited itself at various times, and according to common report has been focused in the janitor, who is an aged and very religious Scotchman Without design between the musical and non-musically inclined factions the differ ences seem to have unconsciously arrayed Musical Director Kelly and Janitor Innes

on the firing line. According to Mr. Kelly the present crisis is to be a test of the music question in the church. Friday evening when the choir had gathered for rehearsal he stated the case plainly and told the members that rather than submit to what he considered insults and inefficiency on the part of the janitor, backed up by the members of the congregation who favored less ceremonicus and less expensive music, he would re sign. He then dismissed the choir, stating that he would not conduct the services as usual Sunday. The announcement came as a surprise to most of the choristers, who dispersed without any attempt at rehearsal and with many expressions of regret over

the course affairs had taken. Mr. Kelly says the inattention and neglect on the part of the janitor have been pro mounced and by no means uncertain, and that he has refused on occasion to do certain work required of him for the benefit of the choir, in what the director has considered an insulting manner. "Whether I remain or not," says Mr.

Kelly, "depends upon what action the the Omaha Gun club and the All-Nebraska board of trustees sees fit to take with the | team, a return contest for the one held at janiter. I shall insist upon his dismissal. A Sprained Ankle and Other Injuries and Allments.

As a rule a man will feel well satisfied if he can hobble around on crutches two or three weeks after spraining his ankle, and
