Penobscot Company Makes a Good Strike at Maitland.

RICH ORE TO BE SENT TO SMELTER

Averages Fifty to Eighty Dollars Per Ton and the Shoot is a Wide One -Horseshoe Stockholders Do Nothing.

DEADWOOD, S. D., March 22 .- (Special.) -The Penobscot Mining company has made another good strike in its property at Maitland. The new strike was made in a drift driven from the bottom of the Realization shaft, at a distance of 350 feet to the west, The ere is too high grade to treat by the cyanide process, so arrangements have been made with eastern amelters to handle the ore. As soon as the roads are in condition the company will begin the shipment of from twenty-five to thirty tons daily. It is said that the Northwestern Railroad company will begin work on a branch road from Deadwood gulch to Maitland in a few ore shipments of the Penobscot will be greatly increased. The ore in the new strike will run all the way from \$50 to \$80

a ton, and the shoot is a wide one. of which is located in Miller guich, a short distance east from Maitland, will resume hills, and has expended many thousands operations this week. Men will be put to of dollars in development. The long workwork sinking the shaft to the lower conwas sunk that distance with a whim, but while in the east the superintendent made very high values, and it is expected that arrangements for the installation of a the tunnel is now but a few feet distant steam hotel, and it will be placed in oper- from the main ledge, .ich in the early ation shortly, together with an air com- days of stamp milling in the southern hills pressor plant. The company owns a large made the Wheeler hill famous as a proacreage of land on Miller gulch, and has a ducer of rich ore. The tunnel will tap the splendid showing of surface cres. All of its vein at a depth of at least 600 feet. ground has been patented, and the company holds options on several valuable groups of claims adjoining its present holdings.

has been doing a great deal of work dur- gold. ing the past winter, and like the Eclipse. has been winking to quartzite. When that workings will be started.

Strikes Phonolitic Vein.

The Chicago syndicate which is working the Card & Rosenkranz ground on Falsebottom, has struck the main phonolite vein at a depth of 100 feet. The ore at this depth, from a check assay, shows values of \$28 s The ore is a phonolitic schist stained with fluorine, carrying considerable tale and showing the values in white iron. At the present depth of the shaft there is so much water coming into the workings that without putting in expensive pumping machinery, and this the company does not wish to do until it is thoroughly convinced of the value of the ore and its extent. The shaft of the Pluma Mining company

is now down 500 feet and work of sinking inal depth to which it was intended that the working shaft should be sunk. Driftledge was broken into at a distance of four commercial values. feet from the shaft at this point and drift vein has been ascertained. Drifting continues on the 300-foot level and a large reserve of low grade ore has been created. This drift is being driven in the direction of the Hawkeye shaft, with which it will eventually, connect. The Pluma and Hawkeye shafts are 500 feet apart and both are on the Pluma ground. Work of improvement in the company's mill at Pluma has persons connected with the \$1,000,000 insummoned, dast by the board of directors to investigate a new and novel method for reduction of gold ores and the extraction Casimiro Ciccone, an Italian, 82 years old, of their values. The process is a recent invention and is said to eliminate the necessity of machinery for the crushing of the ore, this work, so it is claimed, being accomplished by the aid of a powerful cur- New York. rent of electricity. The inventor claims that his process will pulverize ore to a fineness of 34-mesh, after which it is passed over mercury coated plates much the same as in a stamp mill. The assertions of the inventor are received with much skepticism by mining men here and Superintendent Filion of the Pluma has gone east to satisfy himself as to its merits.

To Meet Again in April.

The meeting of the stockholders of the Horseshoe Mining company at Beulah, Wyo., last Monday was without results, so far as at the same place next month, when, it is believed, that the present management will six months longer. have some suggestions to offer the shareholders which will be acceptable to them DRIFTS ASHORE IN Suit against the company has been brought in the United States court and in the circuit court for the Eighth judicial circuit of South Dakota by Maurice S. Lindholm of Chicago for the recovery of \$3,750, alleged to have been obtained from him by the company through fraudulent representations. Mr. Linholm purchased 5,000 shares the schooner Edward T. Stotesbury, from of the stock, paying for it at the rate of Brunswick, Ga., which arrived today, were 75 cents a share, and is now endeavoring Captain Fales and his crew of nine men to regain the money so paid by him. of the schooner C. S. Glidden, which was Through his attorneys Mr. Lindholm has wrecked on the outer shoal of Cape Lookeaused to be issued a warrant of attach- out on March 16. Glidden's boat holding the congress. The association also being small, could not be seen by those on has taken steps looking toward the making Stotesbury and the signal torch was of a creditable exhibit of the mineral re- lighted. The crew of Stotesbury saw the sources of the Black Hills at the St. Louis signal and immediately went to the rescue exposition next year. The association, at of the men. the request of Governor Herried, named W. as one of the exposition commissioners for the state. The report of the secretary shows the association to be in a good condition financially and interest in its work continually growing.

Will Have a Stamp Mill.

Hanschka and associates, on the Hogan & Anderson ground on Elk creek, have extended the tunnel on the ledge for a distance of 125 feet, and for the entire distance it is in ore which will average \$15 ton. Mr. Hanschka has about completed arrangements for the crection of a twentyfive-stamp mill upon the ground, with a cyanide annex. The property is looking fine and the ore body maintaining its richness and gaining in strength as work is being done upon it. Little and associates, in the same neighborhood, have their land all surveyed and ready for patent, and a treatment plant will probably be erected upon it before the year is closed. Cusick & Christian have a large amount of work under way on the Silver Dollar group of claims and are getting cut some good ore. The Lucky Strike company is also doling a great deal of work and getting the greatest of encouragement. This section of Elik creek will be one of the livelest in the Hills this summer and the developments.

MINING IN THE BLACK HILLS now under way on all of the ground there

KEYSTONE, S. D., March 22 - (Special.) The Cuyahoga will soon inaugurate exensive developments upon its property near this camp. For a number of years work has been continued on the ground by a small force of men, but recent developments on the ore body have led the management to continue these developments on a larger scale, so the work will be started as soon as possible. The present shaft will be sunk to a depth of 500 feet and at various levels stations will be cut and drifts run on the vein. There is a large ore body exposed in the workings and at least 50 per cent of it will free mill, while the other values may be saved either

by concentration or by cyaniding. The management is now experimenting with a view to determine the best method of eduction to employ in the treatment of the ore. The company is composed of Chi-cago and eastern men, and should the experiments on the ore now being conducted give the management a line on the kind of plant required for the treatment of the ore one will be erected this year,

New Machinery on Wheeler Hill.

CUSTER CITY, S. D., March 22 .-- (Speial.)-The Castle Creek Mining company is busy installing the new machinery on weeks, and should this report be true the the Wheeler Hill. A month or so ago the company lost its air compressor plant, its engine and boilers and machine and blacksmith shops by fire, and since that time has not been doing much work on the The Eclipse Mining company, the ground ground. The company has one of the best free milling propositions in the southern ing tunnel which cuts the formation has The shaft is now down 195 feet, and penetrated three separate and distinct veins, one of them carrying free gold and

It is reported that at a depth of 185 feet another rich ore shoot has been struck in the Clara Belle mine. The new shoot is The Arcade Mining company, the ground said to be extensive and some of the ore of which adjoins the Eclipse on the north. taken from it is literally alive with free

Virtue & Bowles, while doing developnent work on their ground east of Custer formation is reached extensive lateral City last week, uncovered a small vertical of ore which carries very high values. This program was a nighly interesting story, is believed to be the vein from which Al "The Reconciliation of July Ann." by Miss Gay several years are took some very rich like department. Gay several years ago took some very rich specimens, breaking them from the surface outerop. Gay left the spot, but failed to take proper bearings, and when some years later he with others attempted to find it they could not do so. The find was known to be in the vicinity of Charles Harbach's ranch, and, although Gay, with several others, put in one whole summer hunting for it, they were never able to find .t again. The specimens brought in by Virtue will be impossible to continue sinking & Bowles are very rich in free gold, and they claim that the vertical has widened out considerable with the little work which

they have put in on it. F. H. Long & Co. have bought the old Bullion mine at Keystone, and will ship ore from it to their electro-cyanide plant has been discontinued. This was the orig- at Mystic. The ore from the Bullion is said to be peculiarly adapted to treatment by the process adopted in the Mystic plant, ing has begun from the 500-foot level, and The Bullion is a well-developed mine and a station established there. The school of music will give the regular nonthly recital next Monday night in Memorial hall

Dr. G. E. Condra of the department of geology went to Fremont Friday to study the flood conditions there. G. F. Ross, secretary of the Young Men's Christian association, is confined to his from with a severe attack of the grip. The University Glee club will give an entertainment in the First Congregational church at Omaha on the evening of April 10. C. A. Rose of '02 writes from Flat Iron, S. D., that he has been promoted from chemist and assayer of the Flat Iron cya-ide mills to superintendent.

Prof. Howard Kirkpatrick of the university conservatory of music was initiated into the Phi Gamma Delta Tucsday night. The usual feed followed the ceremonics. Miss Alice Howell of the department of elecution went to York Friday, where she acted as one of the judges in the interstate high school oratorical contest held there

The following is the convocation program for next week: Tuesday, Dr. Mayhew, organ recital, Wednesday, Prof. H. R. Smith. "Animal Husbanery:" Thursday, senior ladies' program; Friday, musi The English club met in Miss Hayden's tudlo Friday night. The feature of the lsh department.

The prospects are excellent for a strong

track team this year. Forty men have registered for track work, including almost the entire last year's squad. The new ma-terial is showing up well and competition for places promises to be close. Dr. John Hobson, the distinguished English economist, will lecture on "Socialism, True and False," Tuesday evening, March 24 in the university chapel. On Tuesday evening, March 31, he will deliver a second lecture on "England's Outlook in the New Century." These lectures are under the auspices of the department of economics and sociology. The public is cordially invited to attend. Dr. John Hobson, the distinguished Eng-

for their successful presentation.

The Historical society has just received type written copies of the bills and amendments which preceded the famous Kansas-Nebraska bill, passed by the thirty-third congress. There is no published record of these preliminary proceedings, which date as early as 1844, and the originals are kept in the document rooms at Washington. The copies, numbering 3st type written pages, will be bound and will prove invaluable in tracing the early history of the bill.

A magnificent photograph of the arch of Constanting at Rome has been received at the headquarters of the Latin department, from the world famous Baun Photograph company at Paris. The narrow frame is of dark Flemish oak and measures 22x38 inches. The picture itself is a masterpiece in photography, both in finish and delinea-

tion. It forms a valuable addition to the ollection of view owned by the department.

Manager Bell of the base ball team has the schedule for the season. Ne-Manager Bell of the base ball team has completed the schedule for the season. Nebraska will play twenty-lix regular games, besides several practice games. About May 2 the team will leave for an eastern and southern trip. On this tour they will meet Highland Park, lowa university, Lutheran college, Decorah, Ia., Knox college, Lombard university, Galesburg, Ill., Notre Dame, Purdue Illinois university, Washington college, St. Louis; Kansas university, Washington college, St. Louis; Kansas university, Washington college, St. Louis; Kansas university, Washington college, St. Mary's college and Kansas Agricultural school. The following is the home schedule: Omaha league, April 13 and 14; Kansas university, April 17 and 18; Nebraska Indians, April 24 and 25; Washburn college, May 1; Colorado university, May 18; Highland Park, May 20; Knox, May 22; South Dakota university, May 27; Creighton at Omaha, May 30.

The announcement of the summer session

Knox May 22: South Dakota university, May 27; Creighton at Omaha, May 20.

The announcement of the summer session now ready for distribution shows an interesting program of work especially designed for teachers. The courses this year cover a large number of departments. Work is given in agriculture, American history, art. bottapy, education, English language and literature, French, German, mathematics, nature study philosophy physical training, sociology and zoology. The faculty comprises Chancellor Andrews, Dean L. A. Shorman, Dr. E. A. Ross, Prof. G. W. A. Luckey and other well known instructors. A new feature will be a series of lectures and entertainments covering the six weeks' session. Among the lecturers are Chancellor Andrews, Prof. M. V. O'Shea of the department of education at Wisconsin university, Prof. Wilbur S. Jackson of the department of education at Chicago university, Miss Zonia Baber, instructor in geography at Chicago university and Profs. P. H. Grumman and H. W. Caldwell of Nebraska university. Recitais of select readings will be given at the state fisherles at South Bend.

OMAHA HIGH SCHOOL NOTES.

One of the most entertaining and interesting programs given at the high school this year was the one given by the Alice Cary society on Friday. Original rhymes, some most amusing, took up most of the program, which was as fellows: Selection, "The Value of Poetry," Gilberta Williams; original, "A Rhyming Visit to the High School," written by Elizabeth Kiswit, read by Minnie Eldrige; another original rhyme, "What Hans Thinks of the High School Girls," Claire Gratton; plano duet, Eva Pulver, Birdie Ferguson, original rhyme, "Memory of Other Days," Violet Patton; "Alice Cary Nonsense Rhymes," read by Nelle Brown; vocal solo, Grace Zander; original rhyme, "How the President of the A. C. S. Met Hobson," Jessie Willis; oration, "The influence of Paetry," Winifred Perkins; parody on "An Order for a Pleture" in rhyme, Lola Devalon; A. C. S. vocal quartet.

a Picture" in rhyme, Lola Devaton; A. C. S. vocal quartet.

The Orpheus club organized several months ago as a vocal club, met last week for the purpose of electing officers. Helen Sadilek was elected president; Earnest Johnson, vice president; Harriet Smith, secretary; Hugh Wallace, treasurer, and Louise Crowley, sergeant-at-arms. Green and white were chosen as the society's colors.

Louise Crowley, sergeant-at-arms. Green and white were chosen as the society's colors.

The second of the Fraternity hops will be given April 3.

The Browning society was delightfully entertained on Saturday by Grace Jones. The Demosthenian Debating society has devised a new plan for the purpose of parliamentary practice. Its meeting place has been transformed into a senate chamber and the members of the society consider themselves senators. The first session of the senate was held Friday.

The Lincoln Debating society held their regular semi-monthly meeting Friday. The freshman boys belonging to this society do remarkably good work in debating and oratory. It promises to be one of the leading societies of the school if it keeps on in its good work. The following program was rendered Pricay: Paper on "Monroe Doctrine," Mr. French; drill on parilamentary practice, Mr. Waterhouse; debate, "Resolved, That municipal ownership of gas and waterworks is better than private ownership." Affirmative, Kenith Patterson, Sidney Mandelberg, negative, Harry Coke, Claud Robertson. The judges decided in favor of the negative.

The Latin verb contest, held hast week among all the freshmen taking Latin, was won by Henry Muhlberg. A preliminary contest in verb drill was held several weeks ago and the three highest standing papers were selected from each class and the owners of these contested in the final. The members of the Hawthorns society spent a very pleasant afternoon at the home of Edith Fisher Saturday.

STOCK MARKET UNSETTLED

Union-Southern Pacific Controversy One of the Moving Causes

FOREIGN TRADE MAKES GOOD SHOWING

in the other the same number of 1-cent Outside of Stock Market the General Conditions Are Satisfactory, with Demand for Iron Keeping Up.

NEW YORK, March #1 -- (Special.) -- Henry ews, in market The stock market influence series of conflicting influence series of conflicting influence monetary situation mo liews, in his weekly market letter, says: The stock market has been unsettled by series of conflicting influences. While an

a series of conflicting influences. While an easier monetary situation contributed towards improvement, the Southern-Union Pacific controversy produced a feeling of decided uneasiness that quite offset all other lavorable developments. As a result there was little if any increase in public buying of stocks, and the investment demand is of course still held in check by the comparatively high rates of money and the relatively smail returns which good securities bring at present high level prices. The knowledge siso that heavy new security issues are pending for the imperative purpose of calarging terminal facilities of the great trunk lines, as well as increasing their general equipment, acted as a damper upon the general market. Already there is a surplus of securities hanging over the market, and the certain prospect of a further big increase is anything but a buil argument. Still another movement exciting distrust is the speculation in copper and cotton, both of which are exceedingly high. A great deal of uncertainty is also felt over the Southern-Union Pacific contest, which, as it involves a struggle for control unpleasantly recalls the consequences of a similar contest in Northern contest, which, as it involves a struggle for control unpleasantily recalls the consequences of a similar contest in Northern Pacific. While no such consequences as followed that memorable occasion seem probable, still the possibilities of disturbance discourage stock market activity, and the outcome of the suits involving the rights of one corporation holding stock in another will be watched with particular concern. Another suit of great importance up for will be watched with particular concern.

Another suit of great importance up for active consideration is that of the state of Minnesota against the Northern Securities company and, since a whole series of important negotiations hang upon this one suit, it is easy to understand the significance attached to its progress. With so many serious contingencies to be faced, the market really showed surprising strength and resistance. Considerable of the buying, however, was on short account, and while there was a somewhat better undertone re-

all serious operations for the rise. Foreign Trade Healthy

sufting from recent liquidation, the uncer-tainties above referred to effectually chilled

Our foreign trade just now is in very healthy condition, last month being the heaviest February on record in both imports exports. During the month there was an increase of \$14,000,000 in imports, chiefly due to our large takings of raw and semi-manufactured materials which our own mills and mines are unable to meet. These large imports are a distinct result of high prices and trade activity on this side of the Atlantic, and they promise to continue until values recede and our own caracity becomes able to satisfy our own needs. Our exports during the same month were \$15,000,000 ahead of the same time last year, the increase here being chiefly due to heavy shipments of cotton and corn. This result is exceedingly satisfactory, in-annuch as these articles furnish a good supply of exchange when the latter is most wanted, thus materially strengthening our financial status abroad. Our foreign trade just now is in very

The Dramatic c'ub of the university gave two short plays. "The Obstinate Family" and "Lend Me Five Shillings," in the university chapel Wednesday evening. Both plays were delightfully rendered and were thoroughly enjoyed by the audience. They were prepared under the supervision of Miss Alice Howell of the elocution department, to whom much of the credit is due for their successful presentation.

The Historical society has just received type written copies of the bills and amendments which preceded the famous Kansas-Nebraska bill, passed by the thirty-third congress. There is no published record of these preliminary proceedings, which date as early as 1844, and the originals are kept in the document rooms at Washington. The copies, numbering 38 type written pages, will be bound and will prove invaluable in tracing the early history of the bill.

A magnificent photograph of the arch of Constantine at Rome has been received at the headquarters of the Latin department, from the world famous Baun Photograph company at Paris. The narrow frame is of dark Flemish oak and measures 23x3s.

General Situation Satisfactory.

Outside of the stock market the situation continues generally satisfactory, the only exception being the prospect of further labor troubles, which are already increasing the costs of production to a point that is checking new enterprises. Railroad earnings continue large and the iron trade boom shows no signs of cassation. The phenomenal demand for iron is one of the wonders of the age, and is to be attributed to its introduction into many new fields of userulness, as well as the enormous consumption for structural purposes in buildings, railroads etc. The demand on the latter account is sure to continue for some time to come, and both Germany and England are being urgently called upon to satify our requirements, notwithstanding the tariff.

The immediate future of the market is, as already stated, exceedingly uncertain. Natural conditions should favor some improvement as soon as the stringency incidental to April 1 is passed, but the serious cuntingencies referred to above, especially the danger of awkward compilcations arising from the Southern-Union Pacific quarrel, emphasize the necessity for caution in speculative operations. Although, in some respects, the market is in much better shape than for several months, we should advise taking profits on all sharp railies, at least until the differences between Messrs. Keene and Harriman are adjusted. The interests represented by these gentlemen may, however, settle the dispute when least expected; hence the high degree of uncertainty.

Foreign Financial.

LONDON, March 22.—The dealings in Americans and Canadian Pacifics were the sole redeeming feature in last week's stock market. There were flurries here and there during the week, the news of the Uruguaymarket. There were flurries here and there during the week, the news of the Uruguayian revolution, for instance, causing temporary excitement, but otherwise the whole lists have been lifeless and there is little hope of improvement before Easter. The public is disincilined to speculate or invest before the budget statement is issued, while money is scarce, and until the outlook in Venezuela becomes clear. The Southern Pacific railroad struggle is watched with Interest on this side and has oreated a certain degree of nervousness. Consols remain at low water mark. Home rails are flabby and even Colonial Secretary Chamberiain's speeches have failed to have any favorable effect on the South African market.

BERLIN, March 22—There were indications of regained confidence in the New York situation among the operators on the bourse last week. The reports received here that the Harriman and Keene interests had buried the hatchet had a marked effect in aliaying the uneastness regarding the flurry on Wall street. The American demand for money is also diminishing and little was heard last week about borrowings for New York. The main features of the Berlinstock market were the strength of in-

heard last week about borrowings for New York. The main features of the Berlin stock market were the strength of in-dustrials and the weakness of domestic and foreign loans. Some of the foreign rentes of high denominations remained in good demand. Among lidustrials, iron shares were particularly firm, rising on an average of 394 points. The reports regarding the iron trade continue favorable and further advances in prices are announced. The or 304 points. The reports regarding the fron trade continue favorable and further advances in prices are announced. The rolling mills in the Rhine-West Phalian district report a heavy increase in the home demand and they have ordered curtailment of the sales of blooms, billets, etc., abroad. The Koelnische Zeitung reports that the uncovered home demand for half-rollied goods for the June quarter amounts to from 80.000 to 129,000 tons. Coal shares made a further advance, but barely a moderate one in view of the indications that the production was exceeding the consumption. Electricals were weak and octan transportations declined upon the fallure of the North German I doyd to pay a dividend. Money remained abundant. Loans for the carry-over commands 4 per cent. Rates are expected to become easier in April.

MANCHESTER, March 22-DRY GOODS MANCHESTER, March 22—DRY GOODS
—Business on the cloth market last week
was particularly inactive. None of the
outlets abroad appear disposed to purchase
on the normal scale under the present conditions. The offers of livits and China
were far below acceptance, while the business for the eastern markets was unsatisfactory. There were some sales of brocades
for the United States and of miscellaneous
and fancy goods for the home trade.

Transactions in yarns were slow and the
turnover far below the average.

5. The record of the trial court examined and held that the court was not guity of an abuse of discretion in refusing such a request.

an abuse of discretion in refusing such a request, 12564. Ritchey against Seeley. Error from Cass. Reversed. Duffle, C. Division No. 3.

1. The testimony of an attorney who prepared an answer is competent to show that by inadvertence and mistake he used the name of one party to the action while intending to name another party.

2. On the foreclosure of a mortgage a deciency indement was entered against R.

tending to name another party.

2. On the foreclosure of a mortgage a deficiency judgment was entered against R and G, the mortgagors. The judgment creditor thereafter brought an action to subject a farm conveyed by R to his son to the payment of this judgment. The conveyance was made some two years prior to the entry of the deficiency judgment. Prior to the foreclosure proceedings R had conveyance was made some two years prior to the entry of the deficiency judgment. Prior to the foreclosure proceedings and agreed to pay the mortgage. R testified that he had no knowledge of the foreclosure proceedings and offered to show that at the time he made the conveyance to his son he understood that G was alone liable for the mortgage debt. Heid, that R's understanding was immaterial and incompetent, but that it would be competent and material to show that a solvent and responsible party had assumed the mortgage debt on which the deficiency judgment was entered, as bearing on the question of the character of the conveyance by R to his son and whether fraudulent or not, but that the offer did not go far enough in not proposing to show that G was solvent and able to meet any deficiency that might arise after exhausting the mortgage security.

1272. Parker against State. Error from Boyd. Affirmed. Sullivan, C. J.

1. The credibility of witnesses and the probative value of their testimony are matters which it is the peculiar function of the jury to determine.

this court.

3. An appeal for conviction based altogether upon the evidence, however fervent
it may be, is not an abuse of the privilege

of advecacy.

4. Ordinarily a party who did not promptly object to an argument alleged as misconduct will be held to have waived his right complain.
5. But where the misconduct of counsel is

5. But where the misconduct of counsel is so flagrant and of such a character that neither a complete retraction nor any admonition or rebuke from the court can entirely destroy its sinister influence, a new trial should be awarded, regardless of the want of an objection and exception. C. B. & Q. R. Co. v. Kellogg, 55 Net., 748.

6. A person who has been found guilty of shooting with intent to kill cannot found a valid claim to judicial leniency upon his inferior marksmanship.

12997. Keating against State. Error from Webster. Affirmed. Holcomb, J.

1. The trial court gave an 'nstruction of general application regarding the credibility of the witnesses who had testified in the case, including the defendant who was accused of a felony, and of the weight to be attached to the testimony of the several witnesses which announced a correct accused of a felony, and of the weight to be attached to the testimony of the several witnesses which announced a correct rule of law. At the request of the state the jury was also instructed that the defendant had a right to be sworn and testify on his own behalf, but that in weighing his testimony and in determining the weight which should be given thereto, the jury might take into consideration his interest in the result of the trial and the further fact if the aame was proven (which was admitted by the defendant) that he had been convicted of a felony as affecting his credibility as a witness. Held, that the latter instruction was not prejudicially erroneous because of the repetition of the matter contained in the general instruction on the subject nor under the circumstances was it erroneous because the defendant was individually named and his testimony alone alluded to in the latter instruction.

2. By virtue of the statute a prior conviction of a felony may be proven for the purpose of affecting the credibility of a witness and the court may properly instruct the jury as to the purpose of such evidence.

3. The accused was charged and tried for robbery. Held, his prior statements as to how the robbery might be committed was properly admissible in evidence to be considered by the jury with other facts and circumstances proven in determining the question of guilt or innocence.

4. Evidence examined and found sufficient to support a verdict of guilty as found by the jury.

12004. First National Bank of Greenwood except was a supposed to the content of the status.

the jury. 1994. First National Bank of Greenwood against Van Doren. Error from Cass. Affirmed. Albert, C. Sedgwick, J., concurwhere a writ of attachment issues for the whole amount claimed in several causes of setion included in the same petition and afterward and before trial some of

and afterward and before trial some of 51 such causes of action are dismissed by the plaintiff, a metion to dissolve the attachment, based on such dismissal, should be sustained.

12365. New Omaha Thomson-Houston Electric Light Company against Rombold. Effor from Douglas. Affirmed. Hastings, C. Division No. I.

1. Where evidence tended to show that a sineman of an electric lighting company was injured by inadvertently passing between a pair of exposed splices situated. ween a pair of exposed splices situated within two feet of a post, on wires carrying a strong current of electricity, and that the lack of insulation had continued during ing a strong current of electricity, and that the lack of insulation had continued during time of lineman's employment, held not error to tell the jury that fallure to make reasonable effort to provide a safe working place for the employe and consequent negagence, might be inferred from the mere fact that the splices were not insulated, if the jury found that reasonable care would have required their insulation.

2. Held that whether or not due care on the lineman's part required that he see and avoid contact with the exposed splices was properly left to the jury.

3. The evidence showing that no inspectors were employed and that the lineman was instructed to repair or report defects of insulation observed by him, the question as to whether or not he had assumed the risk from this defect of insulation was properly left to the jury.

4 One, to whom a receipt in full settlement of all damages has been, in order to procure his signature, misread so al to cause him to think it a receipt and settlement of certain expenses only, is not estopped from disputing its validity by the fact that relying upon such information as to its contents he signs without reading it.

5. Where plaintiff, an electric lineman of 33 years of age, earning \$65 monthly, has been injured in both feet and one ankle in such a manner as to compel amputation of the right foot almost eleven months later.

such a manner as to compel amputation of the right foot almost eleven months later, with severe suffering, a verdict for \$15.00) will not be reduced or set aside as excess-

Both Beef Steers and Cows Selling Higher Than a Week Ago.

HOGS AT HIGH POINT OF THE YEAR

Fat Sheep and Lambs Have Been In Good Demand All the Week and Prices Show a Gain of Ten to Fifteen Cents.

SOUTH OMAHA, March 21. OMAHA, MSTCA Cattle Hogs Sheep. 3,086 4,67 10,905 4,100 5,447 7,898 4,225 6,257 8,886 4,235 4,121 2,017 1,913 2,786 3,115 310 3,162 1,608 Official Friday Official Saturday ... 27,540 40,855 85,174 53,857 55,256 46,384 Total this week. RECEIPTS FOR THE YEAR TO DATE. The following table shows the receipts of cattle, hogs and sheep at South Omaha

parisons: Date. | 1903. | 1902. | 1901. | 1900. | 1898. | 1897. March 1.1 6 01 5 22 4 68 3 51

* Indicates Sunday. The official number of cars of stock brought in today by each road was: Cattle, Hogs, Sh'p, H'r's ... M. & St. P..... Wabash Mo. Pacific Ry.

Total receipts....13 47 8 2 The disposition of the day's receipts was as follows, each buyer purchasing the num-ber of head indicated: Cattle, Hogs. Sheep.

Omaha Packing Co... 438 793 880 959 43 Omana Facking Co...
Swift and Company.
Armour & Co...
Cudahy Packing Co..
Armour & Co., S. City
Hill & Huntzinger... Other buyers Dennis & Co.....

Totals 148 3,413 1,694 CAITLE—There were a few bunches of cattle in the yards this morning, but scarcely enough with which to make a test of the market. For the week receipts have been about the same as last week, but as compared with the corresponding week of last year there is an increase of about 4,000 head. 4,000 head.

A good portion of the offerings all the week have consisted of beef steers, but the demand has been fully equal to the occasion and the market has ruled active and steady to strong on most days. As compared with the close of last week prices

pared with the close of last week prices show an advance amounting to just about 10@15c. The greatest improvement has been on handy weight cattle of fair to good quality. The choice heavy cattle do not seem to be much higher than they were a week ago but still they were the best cattle that have been here in a long time. The bulk of the steers now coming forward are probative value of their testimony are matters which it is the peculiar function of the jury to determine.

2. A verdict based upon substantially conflicting evidence will not be set aside by this court.

3. An appeal for conviction based altogether upon the evidence, however fervent gether upon the evidence, however fervent. compared with the close of last week prices on desirable grades may be quoted 15@20c. higher. Canners are selling largely from \$2.00 to \$2.70, fair to good cows from \$2.75 to \$5.50, and the choicer grades from \$3.50 to \$4.00, with a few sales above \$4.00.

Bulls have sold to a little better advantage this week than they did last, but yeal calves have not shown much change. Choice yeals are selling from \$5.00 to \$6.50. The demand for stockers and feeders of good quality has been brisk all the week

The demand for stockers and feeders of good quality has been brisk all the week and prices have held fully steady. In some places the market seems to be a little higher. Warmed-up cornfeds are now selling to both feeder buyers and packers, but the cattle have to show considerable quality in order to sell for feeders. There is very little demand for common stockers and feeders of any weight, so that that class of cattle are selling mostly from \$3.00 to \$3.50; fair to good, \$3.50@4.00, and good to choice from \$4.00 to \$4.60. Representative sales:

BEEF STEERS.

No. Av. Pr. Av. Pr. S41 1 85 COWS. 1. 800 2 40 1. 1070 5 40 2. 1000 2 25 20 . 046 2 40 1. 740 2 60 1. 1420 2 85 CALVES. STOCKERS AND FEEDERS.

TIL 400

HOGS There was a very light run of hogs here today even for a Saturday and the market opened a nickel higher. Packers. though, were very slow to pay the advance and as a result the market closed slow and weak, the last sales being scarcely more than steady with yesterday. Good heavy hogs sold mostly from \$7.35 to \$7.40 and as high as \$7.45 was paid. The medium weights went from \$7.30 down. The light receipts soon brought the market to a close, even though trading was slow.

For the week the receipts have been very light, as there is a big decrease, both as compared with last week and with the corresponding week of last year. The demand, on the other hand, has been brisk, so that the tendency of prices has been upward. As compared with the close of last week there is a net gain of about 3600c, which carries the market to the high point of the

SHEEF-There were several cars of sheep and lambs in the yards this morning, but quite a few of them were consigned direct to local packers. Those that were offered on the market sold readily at good steady prices. Western ewes brought \$5.50 and western lambs of fair quality \$6.50. For the week receipts have been very liberal, as there is a good increase both over last week and also over the corresponding week of last year. The demand, however, has been fully equal to the occasion, so that the market has been in very satisfactory condition. As compared with the close of last week it is safe to quote both sheep and lambs fully 10615c higher, which carries the market to the high point of the season.

ries the market to the high point of the season.

The demand for feeders has been fully equal to the supply all the week and prices may be quoted fully steady.
