The limited time allowed precludes the possibility of anything like formalities, and an intimation has been given from Washington that crives are preferred to receptions. There will be a rapid drive from the Burlington depot to the capitol. President Roosevelt will make a very brief address from the band stand on the capitol grounds and the party will be whirled away again toward the train.

According to the contemplated schedule, the presidential train will arrive here at 1:10 p. m. and will be met by the reception committee. Remains in State Courts.

P. Rich, attorney for the Union Pacific, later and it was learned that the parties ruling in the case of John F. Crovo, a Judge Cornish decreed this morning that he at Leylandon in the case of this city, against would not allow the removal of the \$50,000 damage case brought against the road by Colonel Wilson in the Lancaster district court to the federal court. Mr. Rich insisted that this should be done as a matter of law and right, and he proposes to fight the matter out as far as the United States supreme court, if necessary.

In this case Wilson sues for damages for a broken back. While jacking up an engine in a pit at the Columbus round house he slipped and fell, his back striking a broken edge of the pit bottom and maiming him for life. He makes Daniel Linahan. the master mechanic in charge of the round house, a co-defendant with the railroad company, claiming that he is equally liable with the company. The legal effect of making Linshan a defendant is to give the state courts complete jurisdiction to try the case, and while it is not proven that his heing brought into the case is a fraud or an attempt to evade the statute, the federal courts are not likely to invade the jurisdiction of the state tribunals.

Mr. Rich insists that the only reason why Linaban was made a defendant was to enable the state court to retain jurisdic tion. The case will be tried shortly. Mr. Rich said that if the supreme court of Nebraska should uphold the district court in its refusal to permit the removal of the was held at Judge Leslie's office last night case he would go direct to the United States and the following ticket was named to quiet at Surigao. ALARI

Germ Infected Air. Malaria is not confined exclusively to the swamps and marshy regions of the country, but wherever there is bad air this insidious foe to health is found. Poisonous vapors and gases from sewers, and the musty air of damp cellars are laden with the germs of this miserable disease, which are breathed into the lungs and taken up by the blood and transmitted to every part of the body. Then you begin to feel out of sorts without ever suspecting the cause. No energy or appetite, dull headaches, sleepy and tired and completely fagged out from the slightest exertion, are some of the deplorable effects of this enfeebling malady. As the disease progresses and the blood becomes more deeply poisoned, boils and abscesses and dark or yellow spots appear upon the skin. When the poison is left to ferment and the microbes and germs to multiply in the blood, Liver and Kidney troubles and other serious complications often arise. As Malaria begins and develops in the blood, the treatment to be effective must begin

there too. S. S. S. destroys the germs and poisons and purifies and strengthens the polluted blood and under its tonic effect the debilitated constitution rapidly recuperates and the system is soon clear of all signs of this depressing disease. Also is Taken Into Coufidence of Mrs. Hull, Who Says Her Daughter is Not Wholly to

Blame.

BUFFALO, N. Y., March 26 .- When the nquest into the murder of Edwin L. Burdick was resumed this morning the expectations were that it would end today, unless unforeseen matters should develop in the final examination of witnesses. Before today's hearing began it was announced that Mrs. J. D. Hull, mother of Mrs. Burdick; Rev. L. M. Powers, pastor of the Church of the Messiah, which the

Burdicks attended, and City Chemist Herbert M. Hill would testify. Rev. Mr. Powers recently made a state-

subpoenzed, but because he was Burdick's pastor. He knew the murdered man well. Burdick, it is said, had talked to him of BEATRICE, Neb., March 26 .- (Special.) his troubles and Pennell, and even of the Prof. W. O. Clark, president of the Peru letters Pennell had written to Mrs. Bur-

Clergyman is First Witness.

Rev. L. M. Powers was the first witness He said that Mrs. Hull and the Burdicks were members of his church congregation On two separate occasions he had had talks with Burdick concerning the latter's domestic affairs. The first one was at Burdick's office about three weeks prior to the murder. He called voluntarily to talk with Burdick about the matter, which the witness said, "had become common talk at that time."

Mrs. Hull also had discussed it with him once during a call the minister made at the house. Asked to repeat the conversation with Mrs. Hull, Mr. Powers said:

She told me her daughter had left home, and that a sult for divorce was pending. She said her daughter was not without fault, but that she was not alone to blame, either, that if I knew the whole thing I would not believe that the fault was all her daughter's. Mrs. Hull, he said, did not ask him

speak to Burdick about withdrawing the divorce suit. On the first occasion that he visited Burdick he walked up home with him, so that he was with him about an hour. Burdick told him about everything that has come out in this examination.

Pennell Threatens Suicide.

"What did he tell you that has not come "He told me that Pennell had threatened

to commit suicide if the divorce suit was not withdrawn and that Pennell had succeeded in impressing the sincerity of his threat upon Mrs. Burdick to such an extent that she had believed him and induced Burdick to go to Pennell and tell him that if he would get out of town he would call everything square. I think he said Pennell had given a written promise to leave

"He told me that he had made up his mind to make public all the letters that Pennell had written to Mrs. Burdick and he impressed upon me how ridiculous it would make Pennell appear."

Asks Burdick to Stop Suit. The witness said he asked Burdick to

withdraw the divorce suit and to take his wife back, but he concluded from the man's reply that he would not do so under any circumstances. Burdick, Mr. Powers said, had a very kindly feeling for Mrs. Hull. 48 inch He thought a good deal of her. "He told me she was not well and that he had offered to send her to Florida or California," continued the witness, "and that she should always have a home with him. One reason Burdick gave me for not taking Mrs. Burdick back was that Mrs. Hull always had had the chief care of the children and they would continue to be under her care." Mr. Powers said his second call upon

Burdick was mainly regarding a business matter. He was asked whether Pennell ever made any threat against Burdick, by Mr. Coats-"No. All I know is that I have an im-
