NEW YORK STOCKS AND BONDS.

Wilmington, Del. Birmingham Powerfully Organized Bear Party Causes Vio'ent Breaks in Prices, NEW YORK, March 37.—There appeared in the stock market today a powerful or-ganized and resourceful bear party. The market proved unable to withstand the aggressive tactics of this element and some violent breaks were the result. When spec-ulation has got into that condition where available resources have been taken up by speculative holders of stock and the construction of money supplies begins to make their position procarious, the bull party is in the position of holding grimly to their possessions and selling out only as they are forced to do so. Skillful calcula-tion will disclose approximately a price level below the market where the efforts of these holders will have to be abandoned and their possessions thrown over for pur-pease of realizing. Under normal circum-stances the narrowing money supply would bring this about by gradual steps. It is the part of the ambitious bear to bring it about with a rush and avail himself of the benefit of selling before the break and of buying at the decline. The sluggish and hesitating tone of the market for some time and the difficulties of the money mar-ket have disclosed the unpleasant position of buying at the decline. The sluggish and hesitating tone of the market for some time and the difficulties of the money mar-ket have disclosed the unpleasant position of buying at the decline. The sluggish and hesitating tone of affairs. The opening apurt on the exchange newly recruited by the return of a number of skillful specu-lative leaders, demonstrated to their satis-faction the state of affairs. The opening apurt in prices this morning was nomi-mally based upon the action of the secre-tary of the treasury in resuming refunding operations, but the professional bear party evidentiy had its part in forcing the open-ing bulge in prices and they sold freely from the start.
