# Spring Headache? Try Nature's Cure, Paine's Celery Compound

### And You Will Quickly Rejoice in a New Life.

While hendaches are varied in character and are produced by a variety of causes, the majority of victims suffer either from nervous or billious headache. When neglected, eliher form will quickly cause serious suffering and will assuredly prosrate the system. Nervous headaches, to which women are specially subject, arise game. from weak and inflamed nerves, heavy and dull brain, poor circulation and debility. Billous headaches are usually accompanied

by sickness and vomiting. They result from inactive liver, digestive disturbances or sore and constipated bowels.

In the springtime, able and experienced physicians urge upon those who are subject to headaches the use of Paine's Celery Compound. In tens of thousands of cases this wonderful remedy has produced happy and permanent results after all other modes of treatment failed. Unlike other the boys of their classes with right good medicines claiming popular attention, Paine's Celery Compound gives prompt and times. At one time, when the boys took effective results. It gives to weak and an active hand in the class rivalry, there sick people an immediate supply of nerve force, with pure blood, active liver and quickly. The senior boys stole the junior perfact digestive vigor. ... The work of Paine's Celery Compound is not a simple relieving of pain; it effectually reaches the only to be pursued by the juniors, who tore root and causes of disease and permanently banishes the trouble. Mrs. Darley, Franklin, Ill., says :---

After trying in vain several remedies for headache, I began using Paine's Celery Comopund. This great medicine not only cured, me, but it built up my system and made me feel like a new woman. It is the only medicine we keep in the house."

defeated the team from the Sloux City high BOSTON, March 27.-Pitted against each other in an international struggle for chems supremacy, the best student players of America and Great Britain, representing on the one side Harvard. Yale. Columbia and Cambridge, are contesting today the fifth of the series of annual matches over the Atlantic cable. Play began at 10 o'clock this morning with the Americans stationed in the gym-nasium of the Boston Athletic association on Exceter street, the scene of this end at last year's contest, which resulted in so de-cisive a victory for the American col-leges. school after a hard struggle last night in Germania hall that lasted through two fast and furious halves. During the first half the two teams scemed very evenly matched and the score tied at 21. In the second half Omaha took the lead at the start and maintained it throughout the remainder of the Sioux City showed the better team work

last year's contest, which resulted in so de-cleive a victory for the American col-leges. The British team has its headquarters in the rooms of the London Chess club and the two points are in constant communication by direct wire. The trophy is a large and costly sliver shield, the gift of Imac L. Rice of New York. It has been won twice by the Britishers and once by the Ameri-cans, while a tie was the result of the other match. Last year the emblem was brought back here and the losers then are the challengers on this occasion. The American sextette consists of C. T. Rice and H. W. Bridgman of Harvard, F. M. Sewall and H. A. Keller of Columbia, J. F. Sawin of Yale and C. S. Richardson of Princeton. The four first named are all experienced men, having played in previous matches. The playing hours are from 10 a. m. to 5 p. m. with an hour's intermission for lurch. H. N. Pillsbury, the American champion. is American umpire in London and John E. Cook British umpire in Boston. Manager Rourke Secures Denver Man

to Replace Stone in the Outfield.

R. 1881.7.1

Manager Rourke has just succeeded in securing Preston from Denver to take the place of Stone in the outfield this year. Preston has been with Denver for the last three years. He is expected to be a suitable successor to Stone, as he is an old hand at the game and is an unusually good man with the stick. Carter and Bruner will be here today if things go as they should, and maybe Hickey will get in, too.

### Corbett is Still Over Weight,

Corbett is still Over Weight. SAN FRANCISCO, March 27.-Young Cor-bett is having some difficulty in getting down to the agreed weight of 127 pounds for his contest with McGovern. He is now several pounds over weight and is employ-ing heroic measures in order to weigh in at the required weight at 4 o'clock on Tuesday afternoon, the day of the contest. The champion, however, professes not to be anxious about his weight, and claims that he will step into the ring in good condition, and that he will do himself full justice in his argument with McGovern. Reports from McGovern's camp at Alameda say that the Hitle fellow is fnow within the required weight and is in fine condi-tion, physically and mentally. His mana-ger, Sam Harris is willing to bet \$10,000 at even money that Terry will regain the championship on next Tuesday night.

Fuel Troubles Almost Over.

Fuel Troubles Almost Over. Fuel Troubles Almost Over. An output of about 300,000 tops of coke in the whole Conneilsville region for the last work indicates that fuel troubles are ai-most ended in the iron and steel industry Quotations are sustained by the vigorous home consumption and there is the addi-tional support of stronger markets abroad. Work is being resumed on bridgs and buildings wherever the places of strikers can be filled, and several contests in this department have been aver.ed. A large opening trade in pipe has been followed by home complementary orders, joboers te-newing contracts extensively, and prices are well maintained. Sharp competition for business in bar from has caused a slightly lower level of prices, while plates and sheets are firmer, especially in gai-variace lines. A prominent feature of ac-tivity is found in merchant sized for agri-uity is found in merchant size for agri-uity is noined conditions at rail milis are ending urgent orders abroad. Dry Goods Show Ne Imprevement. Famous Sceptre is Sold. LONDON, March 27.-R. S. Sivier has bold his famous race horse. Sceptre, to W. A. H. Bass of the Tenth Hussars, nephew and heir of Lord Burton. The price paid has not been divuiged. Mr. Sivier last year refused an offer of \$150,000 for the horse from W. K. Vanderbilt.

Dry Goods Show No Improvement.

No improvement has appeared in the dry goods market. The situation is complicated as to cotton goods; stocks are light as a rule and labor troubles threaten to curtail output, yet jobbers are reluctant to under-take contracts at present quotations. Mean-while producers are in no position to make concessions, and a dull market is the re-sult

sult. Duliness is reported in woolen goods, with new business on a limited scale. Cancel-lation of early orders has become a serious problem, many mills that had disposed of their product for the season now seeking

their product for the season of the business. Jobbers are placing large orders for fail delivery of shoes, paying the recent ad-yances, and manufacturers of heavy goods have booked more business than is custo-mary at this early date. Leather is quiet, but low stocks maintain prices. At last the turning point has been reached in domestic hides and prices have steadled, which is due to the somewhat better condition of .e-celpts.

Failures this week numbered 214 in the United States, as against 255 last year, and 25 in Canada, against 22 a year ago.

TRADE GENERALLY IMPROVES.

Many Encouraging Features Noted, Though Prices Do Not Change.

NEW YORK, March 27 .- Bradstreet's to-NEW YORK, March 27.—Bradstreet's to-morrow will say: Weather, crops, distributive trade, trans-portation and even collections show im-provement this week. The price situation shows tew important changes, but so far as the usual indications are concerned the demand shows no curbing as a result of increased cost. Railway earnings continue excellent, those for the third week of March showing the snormous gain of 17 per cent in gross.

March showing the shortmous gain of I per cent in gross. An abundance of rain fell in the west and northwest last week. This has put the ground in good shape for spring planting, Jobbing distribution of dry goods, clothing, notions, millinery, hardware and shoes show a large aggregate, though spring irade has probably reached its maximum in leading western centers. Fall business is now beginning to be sought. Iron and steel are active, the demand still surpassing the supply. The tendency is still toward increased strength in fin-ished products a strengthening element be-ing the upward tendency of bar and Ger-man markets. Wire and nails note marked strength. In the crude forms the feature is beiter demand for pis iron at Chicago and Plitsburg, and higher prices for steel billets. A curious development is the sale of some Lake Superior charcoal itpn to France.

rance. Lumber continues active, with deliveries

unequal to requirements at many points, and building material of all kinds is active, though quotations are from 30 to 50 per pent higher than a few years ago, and

though much lower prices are not looked for. McPadden Knocked Abont. DETROIT, March 27.—Benny Yanger of Chicago was given a well merited decision by Referee Silor tonight over Hugh Mc-Padden of Brooklyn after ten rounds in the Metropolitan Athletic club's arena. Yanger had clearly the better of every round after the first and was unmarked after the fight, while McPadden's nose was bleeding freely and his body showed the effect of Yanger's punishment. McPadden was in distress several times and clinched repeatedly, while Yanger forced the fight-ing throughout. From the first McPadden's stomach was Yangers objective point and it was the blows he sent to this point that brought him the decision.
