

REGISTERED IN WRONG CAMP

Republican Voter Gets Certificate to Participate in Democratic Primaries

CITY CLERK EXPLAINS THE MISTAKE

Blank Forms Are Revised So as to Avoid Similar Errors in Future—Few Registrations So Far.

The issuance of a democratic primary affidavit to a republican Friday afternoon by City Clerk Elbourn caused some excitement in political circles yesterday, and although the clerk has corrected the error and explained that it was a mistake, very easily and naturally made, political leaders are carefully scrutinizing the remainder of the twenty-five affidavits that had been issued to noon yesterday.

The applicant who received the affidavit that would have disqualified him at the republican primaries was Charles Born of the Sixth ward, who swore that he was not of legal age at the last election. His affidavit to this effect was supported by William J. Hunter and E. D. Evans, well known in republican politics. Mr. Hunter being a candidate for the nomination for city controller and Mr. Evans for councilman. The blank affidavit was supplied by Sam Samuelson, a clerk in the office, and City Clerk Elbourn administered the oath.

There could have been no misunderstanding on the part of the city clerk's office as to what party Mr. Born desired to ally himself, considering the known politics of the men who supported his oath that he was entitled to participate in the primaries in the Sixth ward. Furthermore, on the record kept of affidavits issued, Mr. Born is marked as a republican.

The error was discovered Friday night by Mr. Hunter looking over Born's affidavit. When the error was discovered it was decided to secure a correction yesterday morning. This was secured without difficulty, the city clerk issuing a new affidavit, marking the old one cancelled and preserving it.

After talking with City Attorney Connel the city clerk announced that to obviate future errors of the same kind he would have each affidavit signed by two voters and of removal, as well as the removal certificates, stamped across their face "democrat" and republican.

The city clerk said: "The forms were printed in a great hurry, because of the short time allowed for the work after the new primary law was signed by the governor. The issuance of the wrong form Friday was nothing more or less than a mistake. So far as I know, there were no other mistakes. I would ask, however, that everyone holding affidavit or certificates of removal would look them over and see that they are right. I will correct them all, by issuing new documents."

At noon twenty-five non-registered republicans had taken affidavits, eighteen republicans had secured certificates of removal and three democrats the same. The city clerk's office will be open until 10 Monday night for the accommodation of the unqualified electors.

N. P. Dodge, Jr., secretary of the republican city committee, has issued circulars to the committee members, announcing that an adjourned meeting of the body will be held Monday evening at 8 o'clock in Washington hall. The only business to be transacted at that meeting is the selection of judges and clerks for the primary election, April 10. Secretary Dodge calls the attention of the committee to the law which confers upon the candidates the right to have judges and clerks acceptable to them, and asks the members to have this matter thoroughly understood in submitting names.

Republicans and democrats who were not registered last fall or who have moved since

they voted last cannot participate in the coming primaries of their respective parties unless they secure certificates of registration or transfers at the city clerk's office on or before next Monday or Tuesday. Those who failed to register last fall will have to give lawful reason for such failure or show that they were not of voting age in order to secure certificates. For republicans no certificates or transfers can be issued after next Tuesday and for democrats none can be issued after next Monday, as the new primary law requires this work to be done ten days in advance of the date of the primaries.

HUNT LIONS IN STREETS

Pittsfield Enlivened by Real Jungle Work Provided by Menageries.

CAGED BRUTES SLAY KEEPER AND FLEE

Attendants Follow with Guns, Shoot One and Recapture Other Fugitive Beat After Exacting Time in Massachusetts.

PITTSFIELD, Mass., March 28.—A genuine lion hunt took place in Pittsfield streets tonight, during which one 4-year-old lioness was killed and another captured. Both were attached to the Boston animal show, but escaped after the one which was killed had killed one of the attendants, who was feeding her.

The attendant, whose name is William H. Crawford, early in the evening went into the cage where four female lions were imprisoned to feed them, and Vic jumped at him, bit his arm and tore his cheek. He managed to get an iron bar and drove her back into a corner.

After the evening performance Vic and another lioness named Sappho were driven into a small cage to be lowered from a rear window to the ground, a distance of about sixty feet. While the cage was in midair the block broke, and the cage fell to the ground, bursting open as it struck.

Just below the window there was a horse and wagon, and Vic made a rush for the horse and fastened her jaws in his neck. The attendants collected rifles, revolvers and shotguns, and with the assistance of several policemen started out to capture the animals, dead or alive. It was impossible to drag Vic away from the horse, so she was shot dead, seven bullets being fired into her body. In the meantime Sappho, the other lion, being frightened at the firing, started off down North street. There were few persons on the street, so that she had a clear field. Half a dozen of the hunsmen followed closely after and she was finally captured in the central automobile station. The hunt was a short one, Vic being shot and Sappho captured inside of fifteen minutes, but while it lasted it was lively.

EAT DINNER ON HORSEBACK

Thirty-Two Society Men Mount in Sherry's Ball Room for Strange Banquet.

NEW YORK, March 28.—An equestrian dinner was given tonight by C. K. G. Billings of New York and Chicago in the ballroom of Sherry's, which was transformed into a rural scene by the introduction of grassy lawns, thick foliage and beds of flowers.

Here the guests found thirty-two richly caparisoned horses bearing on their saddles small tables, two feet in length by eighteen inches wide, covered with cloths. The steeds were perfectly trained and remained motionless, while attendants in hunting costumes served the various courses to the riders.

The plan of the dinner was kept a profound secret up to the last moment, when the horses were taken up to the ballroom on the freight elevator.

Each guest found his mount by means of horse shoe shaped cards bearing the names attached to the saddles.

Endows a Hospital.

LA PORTE, Ind., March 28.—Hon. John H. Barker of Michigan City has endowed St. Anthony hospital, which is to be built on the corner of 10th and 11th streets, by giving \$100,000, the conditions being that the citizens subscribe \$25,000. A \$5,000 site has already been donated and part of the amount necessary to secure the endowment subscribed. Mr. Barker has during the last ten years, built a public library in Michigan City, and also endowed several other public institutions.

CASE AGAINST THE STRIKERS

Court Grants Continuance of Thirty Days to Await Recovery of McCann.

The preliminary hearing of William Richelle and other Union Pacific strikers arrested last week as the result of a fight between them and a party of strike breakers who were returning to their work, and during which J. G. McCann was shot in the left breast by Fred Root, a strike breaker, was to have been held in police court yesterday morning. The defendants, who are charged with assault with intent to do great bodily injury, made a showing that McCann's condition is such that he is still unable to appear in court, and as he is one of their important witnesses their interests would not be fully protected without his presence in court. The motion of the defendants' attorneys that a continuance of thirty days be taken was granted by Judge Berke.

Dr. Riley, who is attending McCann, stated that his patient would in all probability be so far recovered by April 27 that he could appear in court. The physician also stated that McCann's condition is very much improved and that he is rapidly recovering.

The preliminary hearing of Fred Root, who shot McCann, and who is charged with shooting with intent to kill, is set for next Thursday.

On the return home Pouphebert was struck on the head by a board thrown from the ship Montenegro and his skull was fractured.

Pistol Finally Exploded.

Rode Skores was accidentally wounded in the left thigh yesterday evening at 102 South Thirtieth street by Peter Dorot, a hobo, who was shot in the chest by a bullet from the rear porch of the saloon of Joe Pezderski and was due to inexact handling of a newly purchased revolver. The two men are of a party of sixty-five Hungarian railway workers who just arrived here from Centerville, Ia., and who are staying at Pezderski's place. Some of them bought the weapon and had been snapping it unloaded all afternoon. After supper they loaded it with the idea of trying a shot or two. The accidental discharge struck the left hand of Skores, which rested on the left thigh, splitting the bone of the little finger and piercing the thigh. The wounded man was taken to St. Joseph's hospital, where he was treated by Surgeon Vance, after which Skores was sent to St. Joseph's hospital.

Assaults Men Destroyed Her Clothes.

Pearl Hill of 416 North Fourteenth street last night caused the arrest of C. W. White and Harry Brown at 1125 Capitol street. The three were quarreling in Mick Mulvey's saloon and were sent to jail for disorderly conduct. Pearl accuses the two of tearing up two of her silk waists and a hat. It seems that White and the woman separated yesterday and later the former, with Brown, returned to the woman's room for something he had forgotten to take away. Pearl was absent at the time and when she returned she found her wearing apparel in pieces. The two do not deny visiting the room, but say they did not destroy the clothing.

Charles Call of Twenty-eighth and Pinkney streets was arrested last night, charged with being drunk and disorderly by fast and reckless driving. The prisoner, a peddler and says that his horse is a sufferer from honey jam and cannot be tamed, and when he walks you can hardly notice the progress made. So the only way to get anywhere is to let the animal stop slowly, and this is what he was doing at the time of the arrest.

The crowd of pupils that witnessed the carnival given at Germania hall Friday evening gave vent to its enthusiasm by uproarious yelling. The basketball game played between Omaha and Sioux City was an exciting one and resulted in a score of 34 to 24 in favor of Omaha. The sophomores won in the relay race and the freshmen in the 400 yard race. Mr. Koumanan was victorious in the high diving.

THE BLOOD

The INSPIRING of HEALTH

The most wonderful part of our being is the blood. It is the fountain of life, the vital life-sustaining fluid, containing everything needful for the growth and development of the body, and as it circulates through the system carries material for the making of bone and muscle and nourishment for the nerves and tissues.

Every atom of the body is dependent upon the blood for its existence. The bones would decay, muscles shrink and the skin become parched and shriveled but for the nutriment they draw from the blood, and so long as it remains uncontaminated and pure we are fortified against disease and health is assured. But the blood is constantly exposed to poisonous elements from a thousand sources; we come in contact with infectious diseases almost every day; we breathe into our lungs the germs of Malaria; the water we drink is teeming with millions of microbes, the dust of the streets is filled with bacteria, and when these gain access to the blood are distributed to all parts of the system and the blood becomes a carrier of disease instead of health. Deadly poisons are generated within the body itself, which pollute and vitiate the blood, from which serious and often fatal maladies result.

There is scarcely a disease that cannot be traced to a bad condition of the blood. Rheumatism, Scrofula, Catarrh, Eczema, Tetter, Acne, Contagious Blood Poison and many other equally as distressing ailments are due to a depraved condition of the blood, for which there is no cure except through the purification of the entire blood system. Sores and skin eruptions of the most frightful character, ugly spots upon the skin, blackheads, pimples and the red disfiguring bumps so often seen upon the face and neck are also evidences of diseased blood. The use of cosmetics, face bleaches, soaps and lotions hide the blemishes and conceal for a time the roughness and redness of the skin, but do not reach the cause, which is hidden deep down in the blood and beyond reach of external treatment.

The blood is the main spring of health, the life current that strengthens and refreshes the body, and upon its purity depends your health and happiness. If disease has already entered and you are suffering from some malady for which an impure blood is responsible, a blood purifier and tonic is what you need, and none is so good as S. S. S., which for nearly fifty years has been recognized as the standard remedy in all blood and skin diseases. It is guaranteed purely vegetable and can be taken by old and young without fear of any harmful after-effects. S. S. S. is a perfect blood medicine; it destroys and eradicates germs and poisons of every description and restores to the weak and innutritious blood its lost properties, makes it rich and strong again, and under the vitalizing effects of good blood the system rallies, the exhausted and diseased body is regenerated and the patient enjoys again the blessings of perfect health.

If you have Rheumatism, Scrofula, a Sore or Ulcer, Catarrh, Eczema, Tetter, Acne, Contagious Blood Poison, or blood trouble of any kind, write us and our physicians will advise you without charge.
