supply of securities added to that al- bushels, against 25,000 by in the market is above the capacity OATS-The feature f	ary alternative Second by the decime of		Quotations of the Day on Various Commodities.	PRINTED MATTER, ETCThis steamer	Davight Chicago a 8:00 am all:

These. The of the most unsatisfactory features of the market is the large issues of new securities either recently issued or pending. It is true most of these issues are made by corporations of unquestioned strength; but the supply of securities added to that al-ready in the market is above the capacity of investors to absorb at present prices. These companies are forced to make such meded for public convenience, refusal to provide which would be very short-sighted provide which would be very short-sighted is overcongested security market and render any efforts for a buil campaign all the more difficult. Another element of un-certainty is the Southern-Union Pacific outroversy, which as long as it lasts must

and with yesterday's advance the market on that class of cattle is not more than logical lower than the close of last week. The heavy cattle, however, have been in greater supply and are fully 15c lower than a week ago, and some salesmen thought they had to take off 20c. The bulk of the fair to good steers are now selling from \$4.25 to \$4.50, with the choice cattle going argely from \$4.50 to \$5.00. Something strictly prime would, of course, sell higher than that. The short fed stuff that is sell-ing to killers goes largely from \$4.00 to \$4.25. The supply of cow stuff this week has not been viry excessive, and as the demand was in pretty good shape the better grades have held fully steady. On some days they looked a little lower, but the week closed about the same as the close of last week. Canners, however, have been slow sale all the week and are generally 25c lower. Cul-ters have been rather uneven and are from steady to a little lower. Canners are now selling mostly from \$2.00 to \$2.50, cutters around \$3.00, fair to good cows from \$2.55 to \$4.25. Good handyweight helfers have been in good demand all the week and are from \$6.00 to \$2.50, with choice grades from \$5.00 to \$5.50. The stocker and teeder market has been more or less affected by the decline on fat stuff. Strictly choice thin feeders are not much lower for the weak but anything but the best and the warmed-up feeders are lower, the decline being about the same as on the steers that sold to killers. Strictly choice feeders are selling from \$4.00 to \$4.50 days for \$4.00, and the commoner kinds from \$5.50 down. Rep-resentative sales: DEEF STEERS. No. Ar. Pr. No. Ar. Pr.
