REPUBLICANS VERY ACTIVE!

Many at the Orty Clerk's Office to Get Names on Poll L'st.

FEW DEMOCRATS PLT IN APPEARANCE

Ed Streeter Says He Would Rather See Democratic Nomination Go to Howell Than to Any Dark Horse.

That extraordinary interest is going to be shown in the municipal primaries and election is indicated by the number of nonregistered voters who are making affidavits and registered voters securing certificates of removal at the city clerk's office. The republicans outnumber the democrats many times, but twelve nonregistered democrats having appeared and thirteen who applied for removal certificates entitling them to vote in the wards where they are now

On the other hand, republicans at noon yesterday had made more than seventy-five amdavits and secured as many certificates. The crush in the city clerk's office yesterday was greater than it has been at any time and the indications were that it would be heavier still today. No compartson could be obtained with similar conditions three years ago. All the names with the addresses of the nonregistered and removed voters will be published in the official papers for seven days before the primaries in order that they may be checked off and any possible fraud un-Representatives of the parties and factions are watching that too closely, hour by hour, however, to make it possible in any event.

Democratic candidates for mayor-those who have so far announced themselvesare very much afraid that the nomination will go to a dark horse and these avowed candidates are united upon one thing-a resolve that no dark horse shall receive that nomination. Ed Streeter, the commercial traveler candidate from the Seventh ward, speaking of the matter, said:

"I am spending my money, Ed Howell is spending his, others may be spending some, but I don't know. Now, I want the nomination and have no desire to see anyone else get it, but I would rather see it go to E. E. Howell than to a man who has taken no part in the canvass and who has spent no money to secure an expression of the will of the people. Some of us desire to have the delegates chosen in favor of any candidate pledged to vote for no one who is not an announced candidate before the primaries, and if we can secure that result we will do it."

It is said in some quarters that this fear is mainly directed toward W. S. Poppleton, who was defeated in the election three years ago. Mr. Poppleton is not an announced candidate, but many persons are looking toward him as the Moses who is to bring the democrats out of their wilderness, and it is the fear that such sentiment will gain ground in the convention in case no announced candidate has enough votes to nominate early in the convention's session.

From the inner circle of the Gopher Klan comes the report that 300 persons in the Sixth ward have joined the organization. The klan is not meeting with the plain sailing that it expected and prospective members are rather chary of joining. When one republican was presented with the application and pledge exacted from all members,

"I see that the final words of the pledge are that all members will be bound by the action of the 'committee.' Now, before I give this pledge I would like to know the names of the persons who compose this can bind. In this pledge I am requested to promise silence as to all things and obediice to persons unnamed, and, so far as

I know, unnamable." The reply to this was that the person making the pledge would know all about it after he had been initiated into the secret councils, but that the pledge of obedience must first be made, and that it was not intended to apply in case the member withdrew from the klan, except so far as it included the pledge of secrecy. In other words, the pledge of secrecy would be eternal, but the pledge of obedience only temporary.

Doing Good.

The following extract from a letter written by Mr. Geo. H. Leader, publisher of the Breeze, Akron, N. Y., will give you some idea of the great good that is being done by Chamberlain's Cough Remedy in curing colds and grip: "My wife and self have used Chamberlain's Cough Remedy for la grippe and wish to attest to its beneficial effects and thank the manufacturers for the good they are doing suffering humanity. Whenever I hear of a case of la grippe I recommend this remedy."

its shadow over the meeting of the county board yesterday when the sheriff asked to be permitted to tap the general fund for his payroll, the clerk of the district court petitioned for authority to add two more typewriter operators to his list of employes and the five janitors at the court house requested an increase in wages.

The sheriff sent in a communication stating that the fee receipts of his office were insufficient to cover the salaries of all of the deputies and asking that two of them paid from the general fund hereafter. He explained that the fee receipts had been reduced by the falling off of mortgage foreclosures and the loss of other business that the subject of a lecture at Boyd's theater formerly made the office self-sustaining.

Mr. Broadwell sent in a brief communication, simply asserting that two more typeto be a man of exceptional literary and ora- writer operators could be used to advantage Torpid Liver. in his office and asking the board to give him the authority to engage them. OUR GREAT SPECIAL

Men's Suit at \$10.00

There isn't a clothing store in town but what has a ten dollar suit. We have a grand line also. We think these the greatest suits for the price that was ever manufactured. You will agree with us when you examine them. A great many men agreed with us last Saturday. You will find a great difference between our 10 dollar suits and the ordinary suits at that price sold about town. You won't find any outlawed styles in these suits of ours. We are continually experimenting ourselves to get smart, new effects, and if some manufacturer evolves a new style wrinkle, we are quick to recognize its merits and adopt it. Hence our men's suits are up to the minute, bustling with distinctive points.
