Landlord Anthes Prepares to Get Even with Library Board.

Luwyers Tell Him He is Safe in Taking This Means of Retaliating for Board's Complaint.

C. H. Anthes, owner of the Commercial hotel at Twenty-third and M streets, is considerably displeased at the expense he was put to in securing permission from the city council for the erection of a veranda in front of his hotel. Architect Kimbali and members of the library board opposed the erection of the veranda, but the city council granted Anthes permission, even after protests had been made. The veranda is now about complete. It looks like a

This ground s between the botel and the proposed "I propose," said Mr. Anthes, to a Bee reporter last night, "to erect on this property of mine a bill board twelve feet in height and place on it some adverthing matter. If the members of the library board worried about my veranda I wonder what they will think when they see

my sign board go up." Perhaps Mr. Anthes forgot, when he made the statement, that city ordinances govern the erection of bill boards. Secon 2 of ordinance No. 1065 says that the city bill poster shall regulate and supervise the construction of all sign boards and places erected for the placing of advertising matter. After reading the ordinance Anthes consulted an attorney and was told to go ahead, as the authorities could not stop him as long as the advertising board was on his own ground.

Library Board Meeting.

Wednesday afternoon the Bouth Omaha was allowed \$974.25 for the plans for the building. In addition to this Mr. Kimball will receive the usual fee paid architects for supervising the construction. Contractor Weise will be urged to get busy and commence the laying of the foundations as soon as possible. Weise insists that he cannot get to building until the hod carriers' strike is settled. Everything is ready for the work, as there is plenty of material on the ground. Water for mixing mortar and cement is still wanting, but Weise thinks that he has arranged for this. That Pifer Case.

Some days ago The Bee made mention of the robbery of John Pifer, an aged farmer living about four miles south of the uthern city limits. The robbery was rerted to the South Omaha police by Mrs. er. About \$150 in money was taken, with valuable papers. Sheriff McAvoy of Sarpy county has been investigating the case quietly and has come to the conclusion that he knows who the guilty parties are Two farm bands are suspected and arrests probably will be made today. The South Omaha police did not go with the sheriff yesterday as planned for the reason that the sheriff declared he had practically located the thieves.

All yesterday and far into the night City Treasurer Howe was working on his books in order to get his monthly balance off. He said last night that the overlap in the school fund would amount to a little over \$53,000. In May the liquor license money will be coming in and then cash payments can be made as long as the money holds substantial structure, has iron pillars and out. Considering the fact that the board has been forced to rent a number of outside rooms in order to take care of the increase in the number of pupils and the fact that several additions to school buildings have been constructed, the overlap is not considered large by some who take an interest in school affairs. There seems to be a desire among the people to have the board confine its expenses to its income. This has not been done for years as the rapid increase in the enrollment has caused an expenditure beyond the means supplied to the board by taxation and the state appor-

Some of the Undesirable Features of the Work Done by Douglas County in Legislature Pointed Out.

The regular monthly meeting of the Omaha Retail Butcher's union was held at Washington hall in the union's rooms last night with a large attendance. Measures special interest to the butchers and their relations with the packers and wholesalers and meat deliverers throughout the city were discussed. The meeting was an with refreshments.

An interesting feature of the meeting was the presence of Mayor Frank E. Moores, who was called upon for an address. His speech was brief. He said in part;

I am glad to meet with you, and perhaps it may not be out of place for me to state my attitude on certain public questions in which we are all interested. Being a public officer is any be pardoned for speaking a little of municipal affairs. A public officer is a public servant, and he does best his duty when he works for the best interest of all the people without fear or favor and without regard to his wealth or poverty. As mayor my office hours are from 8:30 in the morning to 6 o'clock in the evening. Police Judge King at 3 o'clock this afternoon. He is charged with discharging firearms within the city limits. Philip Krause of Albright would like to have the complaint changed so as to read shooting with intent to kill. Krause avers that when Weber was shooting the gun was pointed in his direction. Some Unwise Changes.

I do not think that it was the wise thing to do to cut the chief of the fire department's salary \$500 and increase the salary of the chief of police \$200. The new primary of the chief of police \$200. The new primary law, changing the time of the primaries, was evidently passed in order to permit the legislators to fix things up there at Lincoin and then give them time to get back hers and mix in the municipal campaign. This law was passed in a certain interest, and is in all respects, in my opinion, a victous measure. If the judges or election see fit they can ask you questions that you will refuse to answer. They can ask you who you supported at a previous election and other questions that you may feel perfectly justified in declining to answer, and then run the risk of disfranchising yourself. The democrats seem to take no special interest in the law. By its provisions it previousle. run the risk of disfranchising yeurself. The democrats seem to take no special interest in the law. By its provisions it practically makes registration useless, and the more we look into it the more vicious it appears. Again, I must say that I am glad that I am here. Am glad to see so strong an organization among you. In union there is strength. They enable you to work together for your own good. In the recent strikes in this city the strikers have acted like men. I believe that the only way to over settle these difficulties between the laborer and his employer is by arbitration. If I have injected some politics into this talk it is because I cannot nelp it just at this particular time. I almost believe that I would have to talk politics at a prayer meeting.

Mayor Moores' address was heartily applauded and he was followed in a short address by Mr. R. R. Hall, representing the Computing Weight Scale company of Dayton, O. Mr. Hall presented to the union the latest designs of their scales and tickets Wednesday afternoon to answer to a more were issued to all members of the union serious charge. The only charge against present to draw for the scales. Justus Garver at the police station in South Omaha Peterson of 1421 North Twenty-fourth street held the lucky number and was awarded the scales. The remainder of the evening was given

E. J. Groves of Fremont, Neb., was so phenomenally under the influence of liquor last night that three persons to him unknown took his diamond ring, diamond stud and watch and chain. Groves came to the police station at a late hour to make complaint. He knew that something was wrong, but was not sure just what it was. He was locked up for being as he was and Detectives Hudson and Dunn sent up to the vicinity of the Arsade hotel, where the prisoner said he had been. Nellie Allen of SE South Skxteenth street was arrested and confessed to having bought the stud from Groves for 50 cents and then pawning it at George Abbott's for \$5. She described two men who had been with them and Fred Rarden of Elis Woolworth and J. H. Oliver of Fremont were arrested. The former had the latter admitted having pawned the rang for \$5 to a rallway man who had gone out on his run.

Committee is Appointed to Look for an Engineer Suitable to Act as Appraiser in Contemplated Purchase of Plant.

Arnold C. Koenig, an hydraulic engineer, with an office in Omaha, was appointed the first secretary-commissioner of the new water board yesterday afternoon. His salary will be \$25 a month and he will begin upon such duties as present themselves at Whether his incumbency will be permanent members of the board declined say, it being stated merely that under he law any appointee may be removed without cause within a year from his appointment. After the board had elected the secretary-commissioner he was sent for and was closeted some time with the board members. He was the only man who made a formal application for the place. The meeting of the board yesterday after-

oon was its first regular session. Guy C. Barton was absent on account of illness, but the other five members were present. They discussed matters in executive session for an hour and then admitted two reporters and transacted the regular business in a few minutes. Aside from appointing the commissioner,

Chairman Boyd and Member Barton were named as a committee to find an engineer sultable for an appraiser for the water works plant and report back to the board. This was done upon the motion of Mr. Mahoney. Mr. Koenig was elected by ballot, the vote being unanimous.

Sketch of Mr. Koenig. Commissioner Koenig is a young man, who was born and raised in Grand Island, Neb., where his father, Henry A. Koenig, former state treasurer and banker, resides. The commissioner was educated at technical schools in St. Louis, at Cornell university and in Germany. He has served as city engineer of Grand Island and has been connected with the building of water plants in several smaller cities of the state. He has one brother in Omaha, W. H. Koenig, treasurer for Thomas Kilpatrick & Co. Inasmuch as the city council has not met since the water board completed its organization, notification to appoint an appraiser has not been received by the latter. Following are a few of the testimonials received during the week ending March 28.

TWELVE HUNDRED more like them, covering every phase, description and symptom of disease for which the EIKER-HOFF CURE is a specific, together with full details of positive cures, can be had at Beaton Drug Co.'s.

These 1,200 testimonials, if printed in this newspaper, would fill eight full pages. They show more genuine and voluntary evidences of cures of chronic cases of CONSUMPTION, ANTHMA, BRONCHITIS and CATARRH than all other so-called "cures" can show in the entire history of their business. And all this within the short space of six months on a remedy only recently advertised and which prior to February 15, 1900, depended for its sales solely upon recommendations of one person to another. The testimonials tell the story.

March 18, 1903.

I take pleasure in quoting the following from the letter of a friend dated March 19, 1903. (He come from Wisconsts to New Mexico on account of Consumption. Circumstances compolied his return to Wisconsti in February, without experiencing much benefit from the trip. While here we told him what Hoff had done for us, so he concluded to give the medicine a trial)—'It is simply wonderful what the Eliest-Hoff Cure has done for me so far. I sometimes feel that it is almost too good to be true. I have gained from the first, my cough is almost entirely gune, have almost stopped espectorating, my hoarseness is all gone and am in the neighborhood of ten pounds heavier. I weight 115 pounds today, which is more than I have weighed for over four years. I have followed the instructions to the letter. I believe the Lord sent me to you as a means of healing my body, as well as helping me spiritually."

A lady friend here is taking the Elker-Hoff Cure for catarth of the stoinach and receiving substantial tenefit. Would be glad to give name and address of shove mentioned friend should any person desire it.

Please forward at once a bottle of the Eiker-sioff Cure to each of the following parties: Mrs. C.— Reading, Pa.; Elvin F.—, Reading, F. I will enclose money order for \$2.00 in payment of same. My daughter, Mrs. W. H. Rohrbach, and others to whom I have recommended the remedy, speak very highly of its curative properties in cases of catarrh. I used a bottle for myself for this trouble and experienced great relief.

I have received your sample bettle of ElkerHoff Cure and can say that I have received
more benefit from it than any treatment I ever
used. I have been a sufferer from Aathma
for twenty years, and if you can cure me I
will be very much pleased. Find anciesed
P. O. order for 31,00 for which please bend
me one bottle of your treatment. If you can
cure me I will guarantee you a testimonial
that you may use at your own pleasure.

Tou will kindly eand me three or four sam-

them for different parties. I have recommended the cure to several parties, and the only reason for sending to me for them is that I can direct them in taking the cure. The medicine has cured me, and I can heartly recommend it to ethers. The Elker preparation is much better than — You knew I told you I tried one bettle at their compounding and it tasted like isodanum and looks like isodanum. I recommend the Elker-Hoff Cure svery time. It is by far the best and does the most good. I took three best and does the most good. I took three best and does not make the most good. Sund me several of rour pamphilets. I sent the last by my son to Mr. Porter, one of the officials of the East Coast rallway, at St. Augustine. Send me three samples at once for immediate distribution.

It is about time I wrote you of my condition, but really I do not seem to find time. I go out after breakfast, then come in long enough to eat a big dinner, then out again until supper. The weather is excellent and I am feeling fine, yith the exception of a slight cough, which gives me a little bother. I could not help but let you know what your wonderful Elker-Hoff is accomplishing for me, so don't be offended at my delay. I used to be known as a skinny, but I don't know what I will be called if I get much stouter. Wishing the Elker-Hoff Cure success.

I received your last bottle of Elker-Hoff Cure all right and was glad to get it when I did. I feel your medicine more than I ever did. I got down very weak, but now I have lots of attength. I feel that when it gets warm that it will do nore. The medicine has very nearly cured me of catarrh of the head and I feel as if it had helped me very much. If you will kindly nead me another bottle I will be very much. OLYDE JONES, Lafayotte. Ill.

his condition in its early stages, I would have cured him and saved him much suffering, amoyance and expense. This, I consider, is due to lack of knowledge on the part of the one who has previously treated the case; therefore, I say to you, if you are suffering from any disease or condition peculiar to men, or if you have been a victim and been disappointed in not getting a permanent cure sisewhere, I would ask that you come to my office. I will explain to you OUR SYSTEM OF TREATMENT, which I have or ignated and developed after a whole life's experience in the treatment of special diseases of men. I will give you a thorough examination, together with an honest and scientific opinion of your case. If I find you are incurable, I will honestly tell you so. If I find your case curable I will give you a legal guarantee to cure you in the shortest possible time without injurious after-effects.
