CHICAGO, April 1.—Duilness prevailed in both the grain and provi ion pits today and after a somewhat nervous se sum wheat crosed firm, with May %25c higher. May corn was off %c and oats were *47%c higher Provisions were easter, the May products closing from 56the lower.

Wheat ruled dull throughout the entire sension and the trading was featureless, with price changes confined within a narrow range. The opening was firm on featured from the sale of "puts" on 4,000,000 bushels, supposed to be for the account of a prominent local trader, and there was a disposition among scaipers to buy. May was unchanged to %c higher, opening at 72%c to 73c, but after selling at 736/73%c the marke, changed front and under a considerable selling pressure the price receded to 73%c. The large decrease in the world's visible supply as shown by Bredstreet's caused some raily later in the day, and during the last half hour of trading the demand became quite animated, which resulted in a firm close, May being %4%c higher at 73/80 shown by bushels. Primary receipts were \$3.9.00 bushels, ompared with 718,000 bushels (two days) a year ago. Minneapolis and Duluth reported receipts of 183 cars, which with local receipts of 21 cars, 1 of contract grade, made total receipts for the three points of 210 cars, against 205 cars last week and 32 cars a year ago.

The chief feature in the corn trade was

The care, against 205 cars last week and 327 care a year ago.

The chief feature in the corn trade was changing from May to July, but there was nothing of a conspicuous character to trading. Both options were lower, with the nearby delivery quite weak. The late strength in wheat caused a better feeling in the pit, but the close was easy, with May he lower at 45c, after selling between 45c, and 435c. Local receipts were 175 cars, with none of contract grade.

Outs were quite erratic, especially the May option, but trading was only moderate. May sold off early from 55c to 35c, the break being due to lack of support as much as to any pressure to sell. There was a rally later in the day on the strength in wheat and the close was firm. May being higher higher at 375c, after selling between 335c and 375c. Local receipts were 35 cars.

ing between 30 to and 33%c. Local reclipts were 35 cars.

Provisions were dull and there was little change in prices, though the tone of the flarket was easy. There was some soliint of ribs early credited to a local picker, with English houses buying. The closs was easier, with May pork 7½c lower at \$17.92% May lard was 2c lower at \$1.97% and ribs were off loc at \$9.70.

week.
About the usual proportion of the

week.

About the usual proportion of the offerings consisted of beef steers, but the market was fairly active and strady to strong prices were paid. Packers seemed to have quite liberal orders, so that practically everything was disposed of in good season. Good handy weight cattle continued to be in the greatest demand, while the heavy weights were neglected unless they were of extra good quality. It may be said that the range of prices is now about the narrowest of the zeason. Fair to good cattle are now selling around \$4.25 and \$4.40, while it takes something strictly choice to bring \$4.5 or better.

The supply of cows was again rather light as compared with the total receipts, and as the demand was quite liberal the market ruled active and steady to strong on the more desirable grades. The same as has been the case for some time past, handy weight heifers of good quality were good sellers and commanded stronger prices. Canners were perhaps, a little carier to dispose of today than they have been of late, but there was not much change in the prices paid.

Bulls, veal caives and stags did not show enough change to be worthy of mention.

The stocker and feeder market was again active and steady on all desirable grades. The demand from the country so far this week has been about up to expectations, so that speculators are buying the good cattle freely. The common stuff, though, is not in demand from country buyers, so that that class of cattle sells slowly at any price. Representative sales:

the market ruled active and steady to strong on all desirable grades of both sheep and lambs. Several trains were late in arriving, but still they sold as fast as they were unloaded. Western lambs soid at \$7.40, which is the highest price of the season. Mexican yearlings sold at \$6.75. It was very evident that packers would have bought a good many more sheep and lambs had they been here, and they claimed they were unable to anywhere near fill their orders.

There were very few feeders on sale, but it is safe to call the market steady.
