Coffee Market.

Coffee Market. NEW YORK. April 2.-COFFEE-Quiet. Futures opened steady and ruled fairly ac-tive. The foreign markets were generally lower and while the day's movement was not quite up to the recent average estimate for Brazilian, receipts for April were large and the market turned slightly easier with shorts taking profits, the best buyers. The close was steady at unchanged prices to a decline of 5 points. Sales were 44.750 bags, including: Portl. 4.66c; May, 4.66c; July, 4.55c; September 4.45c; October, 4.59c; No-vember, 4.55c; December, 4.756; Jac, Jan-uary, 4.8061.55c; February, 4.90c; March, 4.95c.

Evaporated Apples and Dried Fruits.

Evaporated Apples and Dried Fruits. NEW YORK. April 2-EVAPORATED APPLES-Show no change from the condi-tions recently reported. demand being still light and offering freely. Common are quoted at System prime. diffect choice. Dispect fancy. Signific. CAI IFGRNIA DRIED FRUITS-Spot prunes continue quiet and rather easy, but without change at from Sole for all grades. Apricots remain steady under a fair de-mand; choice are quoted Toolfs and fancy at Signific. Peaches are dull and easy at These for choice and These for fancy.

CATTLE-There was another fairly lib-eral run of cattle here today, but in spite of that fact the market ruled active and strong on all desirable grades and a fairly early clearance was made. Beef steers again made up the bulk of the offerings and the handy weights con-tinued in the best demand and they could safely be quoted strong and active. Buy-ers all scemed to be anxious for that class of cattle, and as there were a limited num-ber on sale the market ruled active and a good many sales looked a little higher. The heavy cattle, however, were in liberal supply, and the prices paid were certainly no more than steady with yesterday, and some salesmen complained that they were unable to get quite as much as they did yesterday. The demand for cows and helfers was brisk and the prices paid looked a little stronger. The demand however, was con-fined largely to the better grades as canners were slow sale and prices were no better than they have been for some time past. There are but very few canners coming, and that is largely the reason that they are so hard to sell at satisfactory prices. If there were enough to make it an object for packers to buy them the market would probably be in better shape. Buils, veal calves and stags all sold in about the same notches they did yesterday. Stockers and feeders were hardly as ready sellers as they were earlier in the week. The very best grades were probably about steady, but when it came to the commoner kinds the market was slow and. If any-thing, a little lower. The demand from the country the last day or two has hardly there up to expectations, which accounts for the weaker feeling. Representative sales: BEEF STEERS.
