Incendiaries Make Two Attempts to Destroy Cup Defender.

AMERICAN YACHT TO BE LAUNCHED TODAY

Columbia and Constitution Both Seek to Best New Boat and Thus Win Honor of Meeting Shamrock III.

BRISTOL, R. I., April 10 .- Twice during the last week attempts have been made to burn the Herreshoff boat shops and the new cup defender Reliance.

The matter was not reported to the po-Hee, but extra precaution has been taken to guard the property. Two years ago an attempt was made to burn the boat shops and the yacht Defender, which was being built, and the would-be incendiary was captured and subsequently declared to be in-

It is thought that the present attempts have been due to a similar cause. Apparently every effort has been made to keep the facts from becoming public. It appears; however, that last Monday evening watchman at the Herreshoff works found some grease saturated garments piled near the staging about Reliance, and on top of the pile was a lighted candle, which had burned to within an inch of the refuse. The watchman acted quickly and

prevented a fire. Steps were taken to guard against a recurrence of such an experience, but on Tuesday night another pile of refuse was found near the boat. No attempt had been made to fire it.

Will Launch Reliance Today.

Rellance will be launched just before sunset tomorrow. It is a ninety-foot composite fin-keel sloop yacht christened by Miss Nora Iselin, the daughter of C. Oliver Iselin, managing owner,

Although, like nearly all the cup defenders, Reliance has been built in secret, it is known that its underbody is con structed of Tobin bronze and its top side of nickel steel. It is about 140 feet over all, just short of ninety feet at the water line, and about twenty feet deep and twen ty-four feet beam

When fully rigged its will be able to spread over 15,000 square feet of canvas which is the largest amount ever hoiste by any racing 90-foot sloop. It was designed by N. G. Herreshoff, an

Big Test for Shamrock.

WEYMOUTH, Eng., April 10 .- It was decided tonight that the course for tomor row's race between Shamrock I and Shamrock III shall be forty-two miles, seven miles from Weymouth to Luluworth Cove, seven miles thence to the Shambles Lightship, and thence seven miles home, twice around to complete the race. Shamrock I will be allowed ten minutes if the wind is fresh and thirteen and one-half if it is

Sail Plan is American.

LONDON, April 11 .- The Field comments on the striking appearance of Shamrock III. It has a hull, it says, which immediately recalls the Columbia and leaves the water and travels as cleanly as the little Herreshoff half-rater Weewin. Its sail plan is essentially American and appears to have a greater hoist. Its headsails sit much higher than those of any previous challenger.

The challenger's performances are in every respect satisfactory. It is quick in stays, steers easily and its trim is perfect. It is not quite so stiff in a light breeze as Shamrock I, which, says the Field, is perhaps a good sign, but it beels over until its covering board is scarcely awash, after which point it seems to have great stability. Its canvas and gear appear faultless, the steel pole mast looks of greater height than Shamrock I's mast and topmast combined, and it remains to be seen what an effect this will have in a sea

others. Colonia and Constitution, did not prove in their trials sufficiently reliable to warrant their selection for the honor.

Reliance will be tried out as no cup boat ever has been before, by the owner of Columbia, who, jealous of its magnificent record of two successful defenses of the cup, will be again in the field, while August Beilmont, who controls Constitution, is anxious to regain the honor taken by Columbia two years ago.

After an hour and a half on the field and at the bat at Vinton street park yesterday afternoon, the Council Bluffs Eagles to fit their scalp nailed to the woodshed door and went over the river again to tell how it happened to be 17 to 0. Papa Bill tried two Nebraska lads in the box and both did fair work. It was not their good work, but the inability of the Eagles to hit the ball that saved Omaha from being scored on. Mosher was easy for the Rourkeites and they made him look like a monkey whenever they went to the bat. Score: OMAHA.

SPECIAL EASTER NUMBER

COLLOWING ITS CUSTOM The Illustrated Bee will ap-

pear in an enlarged and extraillustrated form on Easter Sunday. It will consist of sixteen pages, eight of which will be filled with pretty pictures, prepared especially for The Bee, and the other eight with matter peculiarly appropriate to the season. The high reputation that has been established for the special numbers of The Illustrated Bee will suffer none on this occasion, for in all respects the number is worthy of its long list of predecessors. From a literary point of view it is especially worthy of merit, and the pictures are such as will appeal to all lovers of the truly

THE LONG LIST OF CONTENTS WILL not be recited in detail here, for while it would prove interesting, it is too extensive to give any more than the briefest of mention here. All the articles are on live topics, prepared by well known writers, each familiar with the subject and qualified to treat of it entertainingly and instructively. The range of the topics is wide, but each has an appropriate place in the magazine supplement of The Sunday Bee.

UNUSUAL CARE HAS BEEN GIVEN THE ture of the paper will be the most artistic presented by any western paper in observation of the Easter festival. Hackneyed topics have been avoided, yet all the pictures are calculated to please the eye and delight the imagination. Those which accompany the illustrated articles fit well with the text, for which they were made, and all form a part of the excellent whole.

Nothing is omitted or slighted; all the regular features of the paper, including Carpenter's letter, the short stories, the personal anecdotes, the gossipy comment and the selected miscellany that has made The Illustrated Bee such a prime favorite with Sunday readers, have been carefully provided for, and 'n addition a most generous feast of good things has been prepared. AFFAIRS AT SOUTH OMAHA

Clean Up the City is the Order New Being Strictly Enforced.

EFFORT TO AVERT SUMMER DISEASE

Authorities Ask Citizens to Cooperate, to the End that Cleanliness Shall Prevail Instead of Dirt.

Clean up back yards and alleys is the order that has been issued from municipal headquarters. Within the last week over 200 notices have been served and more were prepared yesterday to send out today. Westcott, the city garbarge master, has four teams working night and day hauling refuse to the river. The board of health proposes to see to it that the city is thoroughly cleaned before warm weather sets in. In order to do this it will take the co-operation of the residents. What is wanted is to have every back yard and every alley in the city cleaned of all garbage and refuse matter by the end of the present month. Dr. Sapp, city physician, says that by a thorough cleaning a great deal of disease can be prevented. During the winter there was little sickness as compared with the winter before. Only half a dozen smallpox cases were reported and the emergency hospital has been without a patient for some time. The small amount of sickness during the winter is due, in a measure, to the general cleaning up last fall. Physicians say that when the city sewer system is extended there will be less sickness than there is now. The extension of the N street sewer to the river will take care of sewage of an area covering 180 acres and do away with the open sewer to the river which has caused a number of law suits. With a

good sanitary sewer, complaints from those living down M street and Missouri avenue way will cease and property in that locallty will command a higher price than it does now. Mayor Koutsky asks every citizen to clean up yards and have the accumulation of the winter hauled away as soon as possible. In this way the present healthy condition of the city may be main-

Etter Lands Appointment. As stated in the papers Friday afteroon, L. F. Etter has been appointed deputy postmaster for South Omaha. The appointment went forward about ten days ago, but through some hitch word was not received here until yesterday forenoon of the approval of the appointment. It appears from the records received that Etter's application for the place was approved on April 2. His bond in the sum of \$6,250, was immediately forwarded and it is expected that the new deputy will commence work on Tuesday morning. At the present time Etter is chief of the fire department. He said he would tender his resignation on Monday. Mayor Koutsky stated that he would place George Curtis in charge of the fire department when Etter tendered his resignation. "Curtis," said the mayor, "will be placed on the roll as acting chief. I will leave it to the fire and police board to name a chief of the department."

Time: 1:494. agents are cutting down expenses and that as little paper as possible was being put out. Omaha bill posters say that the ordinance is obnexious and that there will be little or no bill posting in South Omaha until the ordinance is modified.

McMillan Enters Denial. John McMillan called at The Bee office Friday to say that he is not a candidate for Henry Oest's place at the county poor farm. The original report that McMillan is a candidate came from the county court house. Mr. McMillan says he has his business interests here to look after and that he is not, at this time, looking for any political office.

Raising Church Debt.

W. D. Stambaugh, pastor of the Methodist church at Springfield, Neb., is in the city endeavoring to lift the debt of the Albright Methodist Episcopal church. The plan is to make this a memorial church and when out of debt will be known as the Lefler Memorial Methodist Episcopal church. When sufficient money is raised the indebtedness will be cancelled and improvements to the property made. A pastor for the church, to be permanently located in Albright will most likely be appointed at
