The basic principle of this Compound is one of Nature's most precious elements. In the search for a remedy for specific blood poison which the medical world has carried on for centuries this element has been overlooked. It contains neither mercury nor iodide of potassium. It is sold under an absolute guarantee to cure. But one man in the world knows the secret of this Compound. Rival Unions War Together. NEW YORK, April 11 .- A conference was held today between President Compers of the Federation of Labor and representatives of the Sheet Contractors' association of Chicago over the trouble between the two rival unions of sheet metal workers in Chicago, which has resulted in a strike.

The struggle is said to be between a local union of the International Association of Sheet Metal Workers and a union of the Sheet Metal Workers' National Alliauce. The members of the latter are on strike and their places are being filled by the rival union, which is affiliated with the American Federation of Labor.

John Kennedy, first vice president of the international association, took part in the conference, which is said to be an effort on the part of the contractors to induce the Pederation of Labor to take up the fight against the National alliance.

At its conclusion Mr. Gempers said no settlement had been reached, but he would wire instructions tonight to Vice Presidents Mitchell and Kidd and Secretary Lennon, in Chicago, directing them to arrange for a conference there on Monday, at which each of the contending organizations will be represented. Shopping. One of the joys of woman's life
Is shopping.
She shops all day and never thinks
Of stopping.
She chases all the bargain sales.
Her dauntiess courage never falls,
In shopping.
And on she nees, as it on wheels,
Until at night she says she feels
Like dropping.

Oh, yes, she takes a keen delight
In shopping.
As much as way-back Yankees do
In swapping.
She may not have a cent to spend.
But buying things is not the end
In shopping.
The game is just to run around
In spots where bargain sales abound.
With something difficult to match
And push, and crowd, and shove, and scratch
(Just shopping).
Making the cierks so deadly tired
That they don't care if they get fired,
Making them cross enough to bite.
Throwing the goods round left and right,
Muscing things with there delight,
Being the opposite of polite,
And then when she gets home at night
Just dopping.
That's shopping.
