Settle Department Scandals.

WASHINGTON, April 13 .- Postmaster General Payne this evening announced that the investigation into postoffice affairs would be continued and that any parties found guilty of wrong doing would be dealt with summarily.

with summarity.
The statement follows:
During January and February information and reports reached me which I deemed it for the public interest to investigate, and I personally grathered such information and facts as would enable the proper officers of the department to undertake a thorough investigation as to the truth of these reports. I directed Fourth Assistant Postmaster General Bristow to take the proper steps through the inspectors' division, and he was instructed to proceed promptly and with vigor.
The investigation will continue and if any wrong doing is disclosed the guilty parties will be summarily dealt with. If the system or method of doing business in the department is faulty the proper remedies will be applied without fear or favor.
It is proper for me to add that I ald before the president the information which I had in my possession and that he fully approved the action proposed.
The whole administration of the Postoriofic department is made subject to the investigation and every division will be probed thorough as the department's most expert inspectors can make it.
At the same time no immediate changes of importance are now contemplated and changes will depend largely on the report made by Fourth Assistant Postmaster General Bristow, although developments meantime may necessitate some deviation from the policy. The statement follows:

is probable no successor to assist Attorney General Tyner will be named. It will be several weeks before the postoffice inspectors will be able to complete their work. When they have finished Mr.

Bristow will prepare a comprehensive report, some points of which will probably be withheld from publication.

AMERICAN COMMANDER SAVES CHINESE Bull Pool Succeeds in Again Advancing Price of Southern

> NEW YORK, April 13 .- New high price for May and July cotton were recorded on the local exchange today. May went to 10.05 cents, and July, which was really the leader of the market, sold as high as 10.11 cents. Other options advanced from one to three points. The early strength was due to active bull support, no less than to short covering.

Late in the session the bull pool bid the market up and forced further covering on which May advanced to 10.55 cents and July to 10.18 cents. Futures at noon showed a net rise of sixteen and twenty-two points on near months and four and eight points on distant months. During the early part of the session sentiment was really bearish, chiefly because of the weather and general crop conditions.

The lockout of the spinners at Lowell exercised little or no influence on quotations.

In the last half hour May cotton touched 10.63c and July 10.20c, the record price. It was understood on the street that New York was a heavy buyer of short account. The bull leader supported May during the entire session

Christie to Name Committee.

Dr. Christie was instructed by a motion to name an executive committee for this citizens' ticket, three members to be selected from each of the nine wards. He will name it later. The plan is for Benson to be nominated tonight by the 100 populiats of Omaha. This was decided at a meeting of a conference committee from the two factions yesterday. According to as a conservative, and averred he received a member of that committee from the pop- \$3,000 as a bribe to vote with the govern ulist wing, the remainder of the ticket, as ment. far as decided on, will be: H. G. Streight, Fifth ward, city clerk; C. C. Wright, demccratic nomines, city attorney; C. O. Lobeck, democratic nominee, city comptroller; A. H. Hennings, republican nominee, treasurer; building inspector, not decided on. The plan further is to have a mass meeting after this ticket is decided on and ratify what the "citizens" and populists have done and an attempt is made to impress the voters that organized labor will be behind this ticket.

Mr. Bryan, who was the last speaker, addressed himself to "The Statute for Re ligious Freedom," concluding as follows:

To Jefferson the doctrine of free speech and freedom of opinion applied to every-thing because he rightly understood that no censorship of opinion could be permitted that would not be more dangerous to truth than to error.
