Wer,heime. H.l. & Huntzinger 10 HOGS—There was a liberal run of hogs havingstone & Shalier. 18 here today and although packers started in to bear the market they were unable to get the hogs, and linally had to raise their bids. The general market was fully being & Co. 25 stady with yesterday, but the quality was a great deal better which makes the sales on paper look higher. After buyers and sellers inally got together trading was quite active, so that practically everything was disposed of by the mindle of the foremon. The bulk of the hogs sold from \$7.20 to \$7.25, with prime heavies selling from \$7.20 to \$7.25, with prime heavies selling from \$7.20 to \$7.25, with prime heavies sold largely from \$7.20 down. Representative shape, so that the market was very active.

CATILE—There was a liberal run of cattle here this morning, over 30c cars being on saie. Ine demand, however, was in good shape, so that the market was very active and strong from start to finish and everything was disposed of by the middle of the forencon. It was in fact the most active market that has been experienced with such heavy receipts in a long time.

The beef steer market was setive and strong to a dime higher than yesterday. Buyers were all out early and the cattle soon started toward the scales. Anything at all decent in most cases som give higher than yesterday, with the hancy weights still the favorites. Well this heavy cattle also sold to good advantage and as high as a.40 was paid, which is the top price for some time past. The quality of the offerings as a whose was fully as good as yesterday and, as will be seen from the sales below, there were a good many cattle sold at \$5.00 or better. The partific kinds, of which there were only a limited number, did not show much improvement.

The cow market was also active and strong on all desirable grades. The bulk of the offerings being made up of steers there were none too many cows and heifers in the yards to supply the demand and as a result the market was very active and the pens were soon cleared. The quality of the cows was also good, so that the market on paper makes a good appearance. Bulls, veal caives and stags were all in good demand at steady to strong prices.

There was a small supply of stockers and reeders on hand this morning and the market showed no particular change from yesterday. Anything at all decent met with ready sale at good steady prices, but the common kinds wore more or less neglected. The prices paid, however, did not show any quotable change from yesterday.
