PLAN TO FIGHT AMERICA

European Solons Discuss Best Means to Stifle Competition.

ITALIAN STATESMAN RIDICULES IDEA

Seeks Instead of Customs War Joint Action to Repress Rapacious Trusts in Whatever Country They Operate.

ROME, April 14.—When the International Agricultural congress resumed today a Hungarian project for discrimination by Europe against America was taken up.

Count von Schwerin Loewitz presented and explained his preparation for a European solverein, adding that he wished Europe to defend itself not only against the United States, but against all other non-union countries.

Signor Luzzatti, who has been three times Italian minister of the treasury and who is considered the highest Italian authority on questions of commerce, expressed his astonishment that in the presence of the high tariffs just voted by Germany and Switzerland and the tariff now being prepared by Austro-Hungary, any dare suggest a European customs union to oppose American competition.

It would be ridiculous to threaten war, without an understanding among the allies. Even the renewal of the present union treaties was difficult. The existing tariffs were so enormous that they were threatening to put Europe back economically to the middle ages. How was it possible under such conditions to fight the United States? It's greatness imposes imprudence, while its force commanded respect. Italy, especially, could not take the matter too lightly, as it not only sent goods to America, but its men went to seek there liberty, work and prosperity.

The present threat was not serious. Because a customs union was impossible among the European nations. If it were possible, America would defend itself and how could Europe compensate itself for the damage that America could do? He hoped the commercial treaties would be renewed for they contained the most favorable nation clause, which alone might lead to a sort of European customs union.

"I shall support these states," he exclaimed, "who have no representative here to demonstrate that its sins are not worse than ours. Let us abandon the idea of a European league against any one and advocate a conference of the representatives of the whole world to take measures against the trusts and leagues which are perturbing the natural equilibrium of the markets."

America Extraordinary Country. M. Melline declared that it was impossible to establish the same duties throughout Europe, which had such different products and needs.

"America is such an extraordinary country," he said, "that I am frightened when I think what it may become when it has reached the height of its development, but if some American products threaten us others are absolutely indispensable to us. If its production increases its population also increases, thereby increasing the home consumption. We must study a legitimate organization of defense, not a solverein which would be war. It would be imprudent to adopt the preparation which is a threat and an unripe measure."

Baron Rippenhausen, a member of the reichstag, said they should bear in mind the proverb "Attack is the best defense." The fact that Europe exported more to the American continent was no reason for sparing America. Germany had exported 15,000,000 men who were now fighting Europe worse than the Americans themselves. In conclusion he proposed that a committee of twelve, representing France, Italy, Austria and Germany, be appointed to study the best way for Europe to fight American competition. M. Melline suggested that representatives of Holland be added and moved the postponement of the debate until the next meeting.

CITY BUSINESS MUST WAIT

Councilmen Hoye and Zimman the Only Members Present for Meeting.

Councilmen Hoye and Zimman were the only men owning that title who appeared in the council chamber for a regular session last night. The other seven members not having been nominated apparently did not think the trouble worth while. Hoye and Zimman waited until 8:35 and then left. Among the important matters of business ready for consideration was a communication from City Engineer Rosewater in which he called attention to the bad condition of the downtown asphaltum, and asked that the Board of Public Works be authorized to spend \$5,000 in immediate repairs.

The visit of the president the last of the month is an additional reason why the streets should be in good condition, he said, as well as on account of the heavy spring and summer traffic. The letter was written in vigorous terms and urged immediate action. Assistant City Engineer Craig, who was present, said that if the council waits until the next regular meeting to authorize the repairs it will be too late to have them finished by the time President Roosevelt comes to the city.

Indiana May Emigrate. GUTHRIE, Okl., April 14.—A conference of Comanche Indians has been called for this week near Lawton, Okl., to consider a proposition made by citizens of Chihuahua, Mex., to move the Indians to that country. They are offered 2,000,000 acres of land free.

RING IDENTIFIES HEIRESS

Girl Captured by Indians is Wealthy Stockholm Woman.

CREEKS KEEP BABY, SLAYING PARENTS

Youngster Grows Up with Tribe, Marrying Brave and Knowing Nothing of Civilized Life for Eighteen Years.

KALISPEL, Mont., April 14.—Mathilda Youngquist, long thought to be dead, heiress to a large estate at Stockholm, Sweden, has been found living among Cree Indians as a member of the tribe. A gold ring given her by her father and mother, who were killed in a raid by the Cree many years ago, has established her identity.

When John Anderson, a relative, appeared in this part of Montana a year ago and made inquiries for a family named Youngquist, no one could aid him. Finally he met an old resident who remembered that many years ago, Frank Youngquist had tried to operate a ranch in the extreme northern part of the state near what is now the Blackfoot reservation. One day the ranch was raided by Cree Indians, who killed Mr. and Mrs. Youngquist and carried away their little baby girl, Mathilda, then 4 years old.

Anderson today met the girl with a band of Cree. She told him she had been carried away by the Indians after her father and mother had been killed and that since then she had been with the Indians and was the widow of a member of the band who was killed in a snow slide several weeks ago.

She remembered nothing of her parents except that they were white, like Anderson. All she could remember then was that she had been with the Indians and that she had a little gold ring. There was an inscription on the inside of this ring, but as she could not read she did not know what it was. Anderson read the inscription, which established the identity of the owner of the ornament. It reads: "To Mathilda from Papa and Mama Youngquist, 1883." Anderson and the girl will go to Sweden immediately.

LOCAL BREVIITIES. Annie Goth has secured divorce from George and again become Annie Egan. She convinced Judge Dickson that her husband had been guilty of extreme cruelty.

The Tom Moore Social club will give a ball at New Turner hall, Thursday night of this week. There will be good music, refreshments and a general good time is promised.

Lilla Mary Maggill has filed her reply to the answer of her husband to her original petition for such answer he averred that he knew at the time of their marriage what his financial condition, prospects and ambitions were. In her reply she denies his every allegation.

Announcements of the Theaters. Charles D. Herman and the Ward company have established themselves favorites at the Boyd theatre already and fully merit the high praises that have been lavished upon them throughout the country. This afternoon they will present Shakespeare's most popular and fascinating story, Romeo and Juliet. Mr. Herman will appear as Romeo, Miss Anna Roberts as Juliet, Mr. Francis McGuire as Friar Lawrence and Mr. Harry C. Barton as Mercutio. Tonight the play will be "Macbeth," which is said to be Mr. Herman's masterpiece. Mr. Herman will assume the title role, Miss Roberts will be seen as Lady Macbeth and Mr. McGuire as Macduff, supported by the full strength of the company. Just at present "Macbeth" is one of the most interesting Shakespearean productions to the public, in view of the promised revivals by Mary Maddern Fiske and Margaret Anglin.

No better attestation of the excellence of this week's bill at the Orpheum could be offered than the enthusiasm and large size of the audiences. Of course as usual some acts are stronger than others, but every one of them come in for approval and probably no program this season has given more general satisfaction. It is a laughing show and one of the kind that seems to please nearly everybody. A matinee will be given tomorrow.

What Shall We Have for Dessert?

This question arises in the family every day. Let us answer it to-day. Try

Jell-O,

a delicious and healthful dessert. Prepared in two minutes. No boiling! no baking! add boiling water and set to cool. Flavors—Lemon, Orange, Raspberry and Strawberry. Get a package at your grocers to-day. to cit.

APPROVE GOVERNOR'S VETO

Representatives of Labor Pleased with Killing of Exemption Bill.

SAY IT WOULD BE HARD ON EMPLOYES

Enlargement of Garnishment Opportunities, It is Said, Would Bring Discharge to Many Honest Salaried Men.

Governor Mickey's action in vetoing the Norris exemption bill has brought forth cordial commendation from representatives of organized labor in Omaha who did their utmost to defeat the bill in the house and senate. The measure was regarded by these men as a pernicious one and they think the governor has shown commendable judgment in withholding from it his official signature.

"We did not oppose the bill because we were any the less anxious to pay our honest debts," said George W. Smith, a prominent union labor man who worked against the bill, "but simply because it sought to deprive us of rights and privileges which we needed as natural safeguards against arbitrary encroachments of certain creditors.

As to Railroad Employees. "The worst feature of the bill was not that it reduced the exemption from \$500 to \$200, or that it subjected 20 per cent of a man's wages to attachment; these were bad indeed, but the worst element was that it facilitated garnishing, which with a certain class of workmen is fatal. Most

HEREFORD BREEDERS MOVE

Association Takes Officers to Kansas City to Be Nearer Herds.

KANSAS CITY, April 14.—The officers of the American Hereford Cattle Breeders' association have been removed from Chicago to Kansas City by order of the directors.

Three-fourths of the Hereford breeders in the United States are said to be west of the Mississippi river.

Murder in Third Degree. MINNEAPOLIS, Kan., April 14.—A verdict of murder in the third degree has been returned against Ervin Kerr, charged with killing A. B. Upham on February 12. Kerr's father is the pastor of the Methodist Episcopal church at Ada, Kan. The trial attracted much interest and many women attended daily.
