J. L. Brandeis & Sons

BASE BALL FRIENDS ANXIOUS

(Continued from Ninth Page.)
much is expected of them. "Zob" Townsend stepped into the box in the game with the Farmers and fanned three men straight, just as easy as though it was a common thing. "Zob" will do more pitching during the season than he has been doing and will be an all-round man, ready to go into almost any position and more than make good.

Two important additions have been made to the Townsend crowd the last week. "Old Timer" James Bell has registered in the law school and will watch the left garden. Jim was the captain of last year's team and made a reputation for himself in pulling down the sky-scrapers that rose over the left patch of the field. Jim is an old hand at the game and plays heady ball and is one of the Cornhuskers' surest stickers. One Mr. Pitz has also got into the game and is holding down the position of short. Mr. Pitz or "Putty" is no beginner and in his time has done some good playing, though he has done nothing sensational in the five games he has played. He is cracked up to be a sure player and it is expected that he will distinguish himself before the season is over and greatly strengthen the team.

Hewitt, who was captain of the basket ball team, is out trying to make the hurdles. Hurdle racing is not a very important event and men try for it are few. Mouch has also been training for the hurdles. Morse, one of the crack pitchers of the "varsity" team, has come out to do the broad jump. Having failed to make satisfactory arrangements for a meet with Northwestern and Minnesota universities, Manager Walton has begun negotiations to get the Knox college track team to come to Lincoln. The track team is to take part in two meets away from home, and they are trying hard to land something good to bring to the home grounds. Knox college would be no mean competitor and the athletic board is sparing no pains to make a contract with the men from Illinois.

The tennis courts are scenes of activity now that the weather has made this sport possible, and every afternoon there are a number of players occupying the courts and getting into shape for the tri-state tournament with Kansas and Missouri, which takes place at Lawrence, Kan., in May. Matlowson, Mathew, Tyner, Love, Reed, Wright and Schriber are among those who have taken up the racket.

During the week the activity in interfraternity base ball has become intense. Eight Greek letter societies have organized teams, and on Saturday forenoon the Young Men's Christian association ball park was the scene of four games. Every frat expects to win the championship and they will set a fast pace.

men in the tennis section are old players and it is probable that the remainder necessary to make up the limit of 100 in the section will be recruited from the able players. The middle of this week will see the four courts completed and the players hard at it. Rules will be formulated which will limit the number of games that a man can play at one stretch on the grounds, and this will make it possible for playing to be indulged in by all of the members at almost any time with the exception, perhaps, of Saturday afternoon. Talk was also strong for tournaments among the association players during the summer, as well as representation in any and all other tournaments that it is possible for the association to enter. While the men are not, as a whole, as strong a class of players as some of the other tennis aggregations in Omaha, there are a number of good, clean young players, and there is ample opportunity for the association to have a strong coterie of players in all of the local tournaments.

They are level and with a little rolling and removal of weeds will be ready for the teams to appear upon. The grounds were leased from Herman Kountze for a period of one year and nothing will be done with them beyond the placing of two base ball diamonds on it and a 100-yard club track which may be lengthened in case interest in the longer runs grows. For the base ball section twenty-three men signified their intention of going into the work and at least twenty more are expected to do so. From the best of the players a team will be selected to represent the association and then an attempt will be made to have from three to four more teams organized from the different ages of boys and a business men's team.

"77"

If the use of Dr. Humphreys' Specific "Seventy-seven" does not "break up" your Cold promptly, then alternate with Specific Number One—this will accelerate the action of "77."

At Druggists, 25 cents each, or mailed, Humphreys' Med. Co., Cor. Wm. and John Sts., N. Y.

COLDS

In track athletics, the men are getting out and are taking advantage of these spring days. It seems that the balmy air of the springtime gives great impetus to activity in track work. The outer edge of the ball field has been put in shape for the runners and the scantily-clad athletes speed around the path. New men in the speed events are Reed, Driscoll, Dill and Sampson. They have begun training for the short runs. Benedict and States are still leaders in the long distance runs.

Y. M. C. A. OUTDOOR ATHLETICS
Active Members of the Association Get Ready for a Busy Summer of Sport.
On last Friday night the first steps were taken by the members of the Young Men's Christian association toward the active participation of the association in the outdoor summer sports. A general meeting was held in the association rooms, which was attended by 115 members and the routine work of preparation was taken up. Definite announcement was made of the fact that there would be facilities for tennis, base ball and track and field work. While the three branches are all under the direction of the athletic department of the association, the men were gathered into their respective sections and that part of the work pertaining directly to each branch of sport turned over to its section. The sections met separately and talked over the work and will elect next week a committee to formulate rules and regulations for the proper carrying on of the sections.

The tennis section was by far the most popular, sixty-seven men signifying their intention of joining. Over half of these

With the acquisition of the grounds at Seventeenth and Pinkney streets for both the base ball and track teams, these sections sprung into bright life. The new grounds are not those that the association had been expecting to get, but are much better than the other grounds were. The grounds comprise four city blocks west of the Sherman avenue care line and are not cut up by streets running through them.

BECOMING A MOTHER

Is an ordeal which all women approach with indescribable fear, for nothing compares with the pain and horror of child-birth. The thought of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipations of the coming event, and casts over her a shadow of gloom which cannot be shaken off. Thousands of women have found that the use of Mother's Friend during pregnancy robs confinement of all pain and danger, and insures safety to life of mother and child. This scientific liniment is a god-send to all women at the time of their most critical trial. Not only does Mother's Friend carry women safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period. Sold by all druggists at \$1.00 per bottle. Book containing valuable information free. **MOTHER'S FRIEND**
The Bradford Regulator Co., Atlanta, Ga.
