Prescription Department

Our prescription department is as near perfect as intelligence can make it and our work in this line of Pharmacy is absolutely satisfactory to every patron.

This is proven by the absolute confidence the best physicians and our patrons have in us. The changing or "substituting" of drugs we will not tolerate. To illustrate:—If your prescription calls for Listerine, or Phenacetine that is what you get—nothing more, nothing less, nothing else. This principle is honestly carried out throughout our drug department.

We do not recognize the schedules of prescription prices used by druggists, but charge a nominal profit only.
