WAGE SCHEDULE IS ADOPTED

Northern Pacific Company Effects a Settlement with Its Trainmen.

DOUBLE-HEADERS TO BE ABANDONED

Duke, the Tobacco Man, Refuses to Take Strikers Back, but Agrees to Increase Wages of His Men.

ST. PAUL, April 22.—Thomas Cooper, general manager of the Northern Pacific railroad, has completed the settlement with the trainmen of that system.

Since the company agreed a week ago to abolish double-headers the trainmen's committee held several sessions, arranging with the railway officials details, including the schedule. The schedule has now been completed and the final settlement signed by the members of the committee for the trainmen and Mr. Cooper for the company.

The new wage scale and the abandonment of the double-headers will go into effect immediately.

Cotton Finers Exonerated.

BOSTON, April 22.—According to the report of the State Board of Arbitration and Conciliation presented to Governor Bates today the textile corporations in Lowell with one exception cannot afford to pay their men the 10 per cent increase demanded.

The board shows that the cost of living in 1902 is 12 1/2 per cent higher than in 1897, against the 25 per cent claimed by the workmen, and that wages have been raised 16 per cent in the same period.

Alton Raises Wages.

BLOOMINGTON, Ill., April 22.—The Chicago & Alton railroad today issued a new schedule of pay for trainmen. For men west of the Mississippi the scale provides for an increase of 15 per cent for freight yard services and 18 per cent for passenger service. East of the Mississippi there is no increase.

Committee now in session demand the same wage for Illinois men as granted in Missouri. The new schedule is taken to mean that the request will be ignored.

Men Strike on Duke's Farm.

SOMERVILLE, N. J., April 22.—A committee of strikers on the estate of James B. Duke, president of the American Tobacco company, had a conference with Mr. Duke today.

He told the committee that he would not under any circumstances re-employ the men who had caused trouble at the farm.

He agreed to increase the wages of the men and they returned to work. The other strikers are still in an angry mood, but they have gone quietly to their homes.

Miners Refused Work.

ASHLAND, Pa., April 22.—When the mine workers reported at the collieries here today in compliance with the instructions issued by the leaders yesterday, they were told there will be no work for them until Saturday, when operations will commence if the men are satisfied to work the nine hours as required by the company.

Grave Diggers Quit Work.

MONTREAL, April 22.—The grave diggers of Montreal are on strike for an increase of 25 cents a day in wages.

Shipment Fish Joins Crew.

NEW HAVEN, Conn., April 22.—Stuyvesant Fish has been hired at \$6 a week in the regular variety eight of Yale, taking the place of Meyer, who has been dropped to the second boat. For two years the son of the Illinois Central railroad president has accepted the duty of rowing in the freshman crew against Harvard. All winter he has been on the "variety squad," but had been kept on the second crew.

UNION PACIFIC GETS LAND

Claims to Large Amount in Nebraska and Wyoming are Allowed.

NO PRIOR CLAIMS TO TRACTS SELECTED

Large Number of Rural Free Delivery Carriers Named for Nebraska and Iowa—Routes of Departments.

(From a Staff Correspondent.)

WASHINGTON, April 22.—(Special Telegram)—It was announced at the Interior department today that the Union Pacific Railroad company had a clear title to 34,615 acres of land in the Cheyenne land district, and 175,452 acres in the Evanston district, Wyoming. These are lands selected by the railroad under land grants. The department, after investigation, finds there are no prior claims to the particular tracts selected by the railroad company.

It was said at the Interior bureau today officials probably would conclude to refer to the department for proposals for the work of moving old buildings, construction of an additional dormitory and a new system of water and sewerage supply at the Hope Indian school at Springfield, S. D. The bill of W. D. Lovell of Des Moines, is not entirely satisfactory in that it does not include a proposal for all the work desired to be done.

Bristow Probes to the Bottom.

In response to requests for information from Fourth Assistant Postmaster General Bristow reports are being received from numerous postmasters throughout the country, regarding the supplies furnished them from the department. The object of these reports is to assist in the investigation by furnishing specific, detailed information regarding the character and necessity or otherwise of supplies sent to postoffices by the department. The charges are that supplies were sent regardless of recommendations by postmasters as to their necessity.

Discover More American Land.

Official advice received at the Navy department record the discovery of a number of valuable islands in the southern part of the Philippine archipelago which are not on any charts. So far as known no foreign government as yet has laid claim to this territory and to preclude the presentation of such claims Secretary Moody has taken steps to have the islands properly charted as the property of the United States.

German Minister Pleads for Peaceful Rivalry Between Two Countries.

PAST FRICTION DUE TO MISTAKES

Samson and Venezuelan Troubles Declared to Be Result of Misunderstanding, Not Political or Commercial Menace.

NEW YORK, April 22.—Baron Speck von Sternburg was the guest of Edward Dill and Hermann Ridder at the Manhattan club tonight. The German minister, replying to the toast of his health, said, in part:

No great nation can expect to escape the penalty of greatness, are words which seem to be well adapted to the present position of the United States and Germany. Our marvelous development during the last decade has added to our power and prestige, but it has also increased our responsibilities to those which we already had. It has brought us into contact with other nations which have hitherto been isolated and permitted us undisturbed by friction to pursue the fruits of our effort.

In Venezuela and Samoa there was some unpleasantness which threatened to produce friction. But all fair-minded men seem to agree that it was in no way due to any political or commercial questions which were arising between the two countries, but that it was due to misunderstandings.

What I want to emphasize tonight is that our two nations, in working out their great problems, should use their power to foster a clearer understanding between their people. This is the surest safeguard against friction, and it is the duty of both nations to do so.

On the other hand, Germany has had merely on account of the millions of its people, had added to her power and prestige, but it has also increased the brains of America has looked to Germany for the most part, and it is more than half a century. These men and women have made us familiar with the high aims of the American citizen.

Our future rivalry, be it ever so keen, should never let us forget that our work is directed towards the same object—the perfection of civilization. If we keep this in mind, nothing will mar our peaceful progress.

HUNTING FOR THE ASSASSIN

Witness in Gobel Case Tells of Search for Man Who Did Shooting.

FRANKFORT, Ky., April 22.—In the Howard trial today, J. B. Matthews, former republican secretary of state, continued his testimony begun yesterday. He told further of the breaking open of Dowers' office and search for the assassin.

The search continued no further than that room and as soon as he and others there realized what had been done they began preparing to protect themselves. He did not see Howard in the hall and his recollection was that Grant Roberts and Sam Sheppard, clerks in the auditor's office, were the only ones in the hall when he first went out.

He said he had been offered immunity by the prosecution when Powers was on trial if he would testify that he led the assassin into the secretary of state's office.

Sam Sheppard, a clerk, and Grant Roberts, also a clerk, testified that they were the first persons in the hallway after the shooting. Did not see Howard there. After a few minutes went in and saw Powers' office open.

George T. Hemphill, clerk in Caleb Powers' office, said he was summoned before the grand jury in April, 1900, when Governor Taylor asked him to be as easy as possible on Henry Youtsey.

MUNICIPAL OWNERSHIP LIKED

National League Told People Believe in Popular Control of Public Franchises.

DETROIT, April 22.—The attendance at the opening session of the National Municipal League was somewhat disappointing. About seventy delegates were expected, but only half of that number were present when Vice President Charles Richardson of Philadelphia called the convention to order.

The exhaustive report of the year's work was read by Clinton Rogers Woodruff of Philadelphia, secretary of the league.

After touching on the recent municipal scandals at Minneapolis, St. Louis and Chicago, he took up the question of municipal ownership, declaring that a movement in its favor had taken a deep hold on the urban population of the country.

PURPOSELY BURNS PUPILS

Showman Uses Hot Irons While Training Two Infant Acrobats.

ST. LOUIS, April 22.—John Earl was fined \$1,000 today for torturing two children and in default of the fine was sent to the workhouse.

Earl, who is a showman, beat little George and Florence Miggo with sticks and straps and burned them with a hot iron while attempting to train them for an acrobatic show.

TO CURE DANDRUFF.

It is Necessary that the Dandruff Germ Be Eradicated.

"Destroy the cause, you remove the effect." Kill the germ that causes dandruff, falling hair and baldness, you will have no more dandruff and your hair must grow luxuriantly. Herpicide not only contains the dandruff germ destroyer, but it is also a most delightful hair dressing for regular toilet use. No other hair preparation is on this scientific basis of destroying the dandruff germ and none other claims to be, for the simple reason that it is only recently that a destroyer of the germ has been discovered—Newbro's Herpicide, the only hair preparation that actually kills dandruff. Sold by all druggists. Send 10 cents in stamps for sample to The Herpicide Co., Detroit, Mich.

DEATH FROM POISON

Medical Records Show That Uric Acid in the Blood is a Swift Agent of Death.

Paine's Celery Compound

The Popular Spring Medicine, is the Only Reliable Blood Purifier.

In the springtime deaths from poisoning are in the blood—are common. This malignant poison, which should be expelled by the kidneys, is diffused through the blood, and when allowed to remain in the system, proves fatal. Thousands of men and women around us are now suffering from kidney-poisoned blood. Loss of nerve force, failure of appetite, nervousness, depression of spirits, indicate that uric acid is doing its terrible work.

For such a condition in springtime, there is but one sure, tried and never-failing remedy, it is Paine's Celery Compound, which promptly restores the kidneys to health and enables them to perform their functions. With the kidneys in proper condition, there cannot remain the slightest trace of uric acid in the blood. Mr. A. Winters, of Cincinnati, O., writes as follows about his wonderful cure—

"In March, 1902, I was dangerously ill, and my condition became so alarming that my family called in a specialist to confer with our family doctor. I was told that my kidneys were in very bad condition, and as a consequence, my blood was charged with uric acid. I was also suffering from rheumatism in back and arms. Getting no positive good from the doctors, a friend advised me to make use of Paine's Celery Compound. The use of the first bottle seemed to produce magical effects, and after I had used five bottles, I was strong and well. Today, my blood is pure and clean, appetite hearty. I sleep well, and am gaining in flesh and strength every day. Paine's Celery Compound saved my life, and I thank God for it. I always recommend it to sick people."

I am organizing several personally-conducted excursions

California, for April and May. May I send you full particulars of special advantages offered?

Some of the excursions are one-way only, in tourist sleepers, for homeseekers.

Others are round-trip, in first-class Pullmans, for general sightseers; good, if desired, on limited trains.

The rates are very low. Accommodations are excellent. I have selected the best California line—the Santa Fe—and confidently guarantee a delightful outing.

Why not go this spring and see California at its prettiest? Such an opportunity seldom comes.

Don't miss it. Write to E. L. PALMER, 402 Equitable Bldg., Des Moines, and receive in reply full particulars, with a copy of beautiful book about California.
