Wheat Rules Quiet on Board of Trade and Closes Cheaper,

CORN GOES UP AND DATS DOWN FRACTION

Provisions Are Moderately Active and Firm, and Alded by Fair Hogs and Strong Corn Close Prac. tically Unchanged.

CHICAGO, April 24.—Quietness prevailed in wheat today and prices in general were easier, with May closing 1/26 lower and July down 1/26. July corn closed 1/26/26 higher. With oats off 1/26, while July provisions closed from 1/26 lower to 56 higher.

Lower Liverpool cables had a weakening effect on wheat prices at the start, May opening unchanged to 1/26 lower at 1/25/26/16/26. Outside mirkets were also somewhat easier, and there was considerable selling by commission houses and pit traders, while longs sold freely, which resulted in a still further decline. Stop loss orders on the decline, in connection with the dulines, of trading, brought more wheat onto the market than could be readily absorbed, and extreme weakness followed, May decilining to 77/26 and July to 72/26. Buying by the Armour interests gave support to the situation and a firmer feeling developed. Reports of a good export demand helped to create a better tone late in the day. May closed 1/26 lower at 77/26 and July was down 1/26 at 72/26. Clearances of wheat and flour were equal to 41,000 bu. Primary receipts were 28,000 bu. against 154,000 bu. a year ago. Minneapolis and Duluth reported receipts of 116 cars, which, with local receipts of 116 cars, which, with local receipts of 51 cars, 1 of contract grade, made total receipts for three points of 157 cars, against 134 cars last week and 124 a year ago.

Trading in corn was active and a strong tone was manifested throughout the day. There was a good general demand at the start on the higher Liverpool cables, the market there showing a good advance on the poor showing made by several cargoes of corn which had just arrived. Covering by shorts, added to aiready firm feeling, and the market developed considerable strength, the weakness in wheat having no apparent effect in this pit. Smail receipts and a good cash demand were bull factors. The close was firm, with May 1/26 higher at 1/26/26/26, after realing between 3/26 at 1/26/26 clower at 1/26/26/26 cafter selling between 1/26/26 the down 1/26 at 1/

LONDON. April 24.—Discount rates today were practically unaltered. Trading on the Stock exchange remained unchanged, the idea prevailing being that the budget will inaugurate a long-waited period of increased activity. Buoyancy characterized home securities generally in spite of some percalisation, and they continued fairly active, notwithstanding the nearness of the settlement. Home rails later were irraular, but they had a firm undertone, Americans opened quietly, following the indifference in New York; weakened later to

down, though the quotations remained more or less nomical. Lake and electrolytic are quoted at \$11.750(1.00, and casting at \$11.500(1.00, and casting at \$11.500(

 Wool Market.

BOSTON, April 24.—WOOL—The Commercial Bulletin says of the wool market in tomorrow's issue: The market contains a pretty poor assortment of old wool. Good wools are steady and lower, but a large proportion of the sales of the week are ordered, lots of 10 and 12 bags, largely of medium wools, and on such there have been some concessions. The market shows more inquiry than trade. The chief impediment in the way of a better 'unineces is the decidedly sluggish market for caths. Reorders for heavyweights are not wholly satisfactory and it is more and more evident that manufacturers owned much larger supplies on January 1 than was supposed. The cold weather has checked shearing in the west and the fact that wool there seems firmer than on the eastern seaboard is accounted for in part by the fact that banks are lending in the wool district for 1 per cent less than is charged in this vicinity. The shipments of wool from Boston to date since December 31 are 50.74,640 lbs., against 81,795,097 lbs. at the same date lust year. The receipts today are 65,533,343 lbs. against 79,379,447 lbs. for the same period last year.
