LINCOLN, April 24.—(Special.)—Governor Mickey today, by the appointment of the South Omaha Board of Fire and Police Commissioners, settled one of the most difficult propositions that has so far confronted him as chief executive of the state.

Never since he has been in office has the governor been pulled and hauled so much as over these appointments. This morning before breakfast he was called up over the telephone and many citizens of South Omaha came very near camping here from the time the bill became a law until the appointments were made.

But to add to all the pulling and hauling someone bobbed up at the last minute and claimed that the bill had not been passed with the emergency clause. This required the delay and some trouble to investigate the records of the house and the senate.

But to add to all the pulling and hauling someone bobbed up at the last minute and claimed that the bill had not been passed with the emergency clause.

Lee Spratlan, the Burlington politician, called upon Governor Mickey just before Mr. Anderson remained closeted quite a while. He may have been talking about a police commission, but it is more than likely that he was putting in a plug for a certain candidate for state oil inspector.

And that recalls that the filling of this office is the main question now before the governor. All of the candidates are in the race and they and all their friends are putting in these last few hours getting the ear of the governor.

Pentitentiary Appointments

Two appointments were handed down late this afternoon. These were Dr. Edgar L. Holyoke of Lincoln to be physician at the penitentiary and Mrs. Beemer, wife of the warden, to be matron at the same place.

MORMONS TO BE EXPELLED

Prussian Government Takes a Firm Stand Against the Missionaries. THEY MUST LEAVE WITHOUT DELAY.

BERLIN, April 24.—The governments of Prussia and of the grand duchy of Mecklenburg have decided to expel the Mormon missionaries, who there are 145 in Germany and 90 in Prussia, on the ground that they are propagating a form of religious belief incompatible with the laws of the state and public morals, and because polygamy is not tolerated by their doctrines.

THE GOVERNMENT OF PRUSSIA DECIDED the expulsion as being simply a police measure for which no explanation need be made. Peter Lentensch, a German naturalized in Utah, first organized missionary work here in 1898. He was succeeded in 1899 as bishop by Arnold Schurtliff, a Swiss naturalized in Utah, who directed 100 missionaries.

HUGH J. CANNON replaced him in 1900 and the latter has steadily increased the number of Mormon preachers and has nearly doubled the membership, which is now 1,800. When a Mormon arrives in a German village he rents a hall and begins to preach, and the common result is that the local pastors complain to the police, who not infrequently order the missionary to leave.

THE LATTER THEN WOULD TELEGRAPH to the bishop in Berlin, who, through the United States embassy, would obtain a suspension of the police order indefinitely, or its cancellation. The foreign office, owing to the number of cases pending, took up the subject with a view of settling the status of the Mormons for good, instead of being bothered by numerous individual cases.

THE RESULT HAS BEEN DECISIONS OF Prussia and Mecklenburg to expel the Mormons, which course is likely to be followed by Saxony, whose there are twenty-five missionaries, and by other states. Bavaria some time ago decreed the expulsion of Mormons and they quietly left without making a stir or attracting discussion.

MR. CANNON, who has been informed officially of Prussia's and Mecklenburg's decision, has not yet determined what to do, but he will endeavor to obtain a reversal of the policy. He affirms that the missionaries never taught polygamy, never persuaded their adherents to emigrate and always admitted obedience to the laws. The members are discouraged from emigrating. Mr. Cannon adds, because the church desires to establish a permanent foundation stone. The missionaries in Germany, at their own expense, have distributed large sums of money in charity.

CAPITAL IS IMPAIRED. BOSTON, April 24.—The officers of the North American Insurance company of this city, who were notified by the insurance commissioner that the financial condition is not up to the requirements of the statutes. The impairment estimated at about \$50,000, or about 30 per cent, and is attributed to a decline in premiums resulting from the reinsurance of the company's business in a foreign company at the close of 1902. It is a violation in the value of real estate held by the company, and to a change in the method of calculating the reserve required by its insurance contract. The company is one of the oldest and most reputable in its line in the city. It is expected that the directors will recommend an assessment to make good the impairment.
