## Third Ward Democrats.

A meager gathering of Third ward demcerats greeted the democratic candidate for mayor and the other candidates on the First last night in the hall which serves Schnauber headquarters. Edward E well spoke at some length on the platform of the party and told of the things that he has done and has not done when elective offices have been his. Following Councilmanic Candidates Charles Schnauber, Louis Rothschild, George W. Smith Thomas Falconer and Ed L. Robertson spoke a few words, telling of their good qualities. C. O. Lobeck, the bell wether of the democratic ward meetings, was called upon and recounted the histories of the candidates and begged that they be supported as an entirety.

The principal talk of the evening was given by Lysle Abbot. He began by saying that he had originally been for another candidate, but that the convention had thought otherwise and so he stood by it, while his candidate had turned against the He then proceeded to say many unkind things of Streeter. Afterward he took up the various phases of the mayoralty fight and produced figures intended to show that the election of Ed Howell for mayor depended upon the handful of voters at the meeting.

JACKSONIANS HOLD JUBILEE

Ratify the Democratic Ticket and Ronst the Bensonites to a Turn.

The Jacksonian club last night ratified the democratic ticket, this being the first regular meeting of the club since the primaries. I. J. Dunn in opening the meeting referred to the precedent in the club at such times which required that the candidates be accepted and supported by the members. In warning the democrats to avoid the Benson anti-monopoly reform movement, he called their attention to the fact that M. A. Hall, who, he said, had ring the late session of the legislature in Lincoln killed the bill to give Omaha cheaper telephone rates, is now a member of the Benson executive committee

C. S. Montgomery spoke at length. Speaking of Benson he said: "Mr. Benson is a nice gentleman, but he has been unfortunate In business and not like our candidate, who has carried his business to a success. I say that Benson is not in it; he will get good many votes, but can't be elected. Those republicans who were displeased in the convention and vote for Benson, throw away their yotes and democrats must not

HANGED NEGRO STILL LIVES

Physicians Succeed in Restoring Victim of Alabama's Vengeance to Partial Health.

ANNISTON, Ala., April 25 .- The negro hanged in Wedowee two weeks ago is now able to sit up and may recover. After he was pronounced dead he was cut down as is usual and shortly afterward began to show signs of life. A physician was summoned and applied restoratives. This was the first man ever hanged in

andolph county and it is thought the ofclais were excited and allowed him to be down too soon.

er, spoke briefly, saying that should be German Importers Declare Eastern Inspectors Pass Inferior Wheat.

UNITED STATES LARD DEARLY TESTED

Kalser's Officials Charge Over Forty Dollars for Examining One Hundred Tierces of Transatlantic Pork Products.

BERLIN, April 25 .- Importers of American wheat are complaining of the quality | tinguished it before it gained much headof the recent arrivals and are blaming the nadequacy of the American inspection. They say the New York inspection is bet- the extent of about \$50, which is covered ter than that of Philadelphia and Balti- by insurance. more, while that of Newport News is the worst. Wheat appearing to the inspectors to be of good quality develops heat during the voyage and is ruined. Even the late arrivals by fast steamers from New York are found to be partly damaged.

The importers are agitating for American wheat the same condition that prevails with Russian, Roumanian and Argentine at a German port.

Charge for Testing Lard.

The new meat inspection regulations are being applied to American lard. A firm at Koenigsburg has filed a protest with the Bundesrath against a charge of \$40.25 for the examination of one hundred tierces of lard, three to five samples being tested by caught back with a small white blossom, smell alone. The importers inquire if the and carried a shower of white carnations. government intends, by placing examina- Her sister, Mrs. Kaik of Washington, D. tion fees on perts to impose an additional tariff.

DEATH RECORD.

J. M. Jones.

BEATRICE, Neb., April 25 .- (Special.)-After an illness of two years of cancer of the stomach, J. M. Jones, one of the best known residents of this city, passed away yesterday afternoon. Deceased was a native of Indiana, where he was born in 1849. He located in Odell, this county, in 1884 and lived there for a number of years during which time he had charge of several yards in this section for the Union Lumber com pany. In 1889 he removed to Beatrice and engaged in the lumber and coal business with W. H. Mahannah. Two years ago he was forced to retire from active business on account of failing health. Mr. Jones served two terms as chairman of the county board and was regarded as a painstaking official and honorable business man. He leaves his wife and three sons to mourn his death. The funeral will be held Sunday afternoon at 3 o'clock under the auspices of the Masonic fraternity of which deceased was a member.

Stephen J. Herman.

WILBER, Neb., April 25 .- (Special.)as he stepped to the platform and made Stephen J. In it he says:

the Funston matter. In it he says:

I will make a suggestion that will give you a fair chance to show that you are right. Summon a court in Washington, the members of which shall be named by the commanding general, Nelson A. Miles, Then summon any witness whom you or General Funston may desire, but also summon Colonel Edward C. Little of Abilene, Kan., who organized the Twentieth Kansas, and Lieutenant John F. Hall of the Twentieth Kansas, and William Moore of Aliceville, Kan., who was ordered by Colonel Metcalf to shoot a prisoner at Caloccan on his knees, begging piteously for mercy and who refused.

Such a court as this should settle the question.

Philadelphia Editor Suggests Means

Above drawing shows highly magnified section of skin from a healthy scalp, cut through in such a way as to show the hair follicle with its hair in place; also the oil and sweat glands.

it a thought, so long as an abundant growth of hair is in evidence? Yet upon this very day thousands of young and middle-aged men are rushing thoughtlessly toward baldness. Thousands of loving mothers are this day planting the seeds of future baldness in their children, by neglecting the precautions that are necessary to prevent it. But these people should not be blamed, for no one ever instructed them to the contrary. It has been but a few years since the discovery was made that a germ or microbe is the cause of most hair and scalp diseases. Less than four years ago Dr. Sabouraud, of Paris, succeeded in transplanting human dandruff germs to a rabbit, causing its rapid denudation and thereby proving conclusively the parasitic and contagious nature of dandruff.

The world at large is slow to accept great truths. Some centuries ago the people wanted to send Columbus to a mad house for stating that the world was round. Even our educators show this popular disbelief; the author of one of our best school physiologies says, in his preface : "The heart and stomach receive full treatment, while matters of such slight importance as the hair and nails are briefily dismissed." Is it any wonder that many of this teacher's students "briefly dismiss" their hair? On the other hand read what Dr. George Thomas Jackson, an author and authority of world-wide reputation, says of the hair and scalp: Prophylaxis should begin at the beginning of life and should be continuous." Prophylaxis means literally a fight against disease; to preserve free from disease. In this case it refers to cleanliness, and the use of a germdistroying fluid, that prevents the dandruff microbe from establishing itself in the scalp. As dandruff is highly contagious, it is plain that the indiscriminate use of unclean hair brushes should be avoided. Upon this point Dr. Isador Dyer, a noted dermatologist, says, "This crusade (against unclean hair brushes) should begin with the barber shop and end in the legislature. It should act at home and abroad until every school child should know that it is as diriy to use the hair brush of anyone else as it is to use a community tooth brush." It is the duty of everyone to know something about the scalp, and anyone sending a postal request to the Herpicide Company, Detroit, Mich., will receive free of charge a short description of the above drawing, that will prove highly instructive. No. 3 in particular should

The Scalp! How many know about it? How many give | be studied by everyone. It is the sebaceous or oil gland, situated near the top of the hair follicle into which it empties. Its important duty is to secrete sebum, a semi-fluid oily matter, that softens and oils the hair and skin; it is first to be attacked by the scalp microbe and it gives the first warning of danger to the hair. In chronic baldness (which is incurable) this gland is completely dried up. The drawing at No. 5 shows how easy it is for the scalp microbe to find lodgment in this gland, where it establishes one colony after another, deranging the gland and causing dry, brittle or lusterless hair. After the sebaceous gland is completely diseased-it requires menths and scmetimes yearsthe microbe works its way down the follicle to the bair root, where its destructive action is so rapid that baldness is quickly produced unless the microbic growth is stopped with Newbro's Herpicide, and the impoverished tissues conxed back to health.

Newbro's Herpicide is the original dandruff germ destroyer; it is not an experiment, for thousands of physicians use it in their daily practice.

Persons who wish may get a sample by mail by sending five two-cent stamps to the Herpfolde Company, Detroit, The regular size is sold by leading druggists.

Read what J. W. O'Harrow, a prominent citizen of Racine, Wis., says about it: "I had a bad scalp disease and my hair was coming out by the handfuls. After using two bottles of Newbro's Herpicide I was completely cured; my hair commenced growing again, and has about covered a bald spot with new hair. I keep a bottle in my room and only use it once or twice a week, which keeps my head Would also state that I have tried several other 'cures.' but without any benefit, and was about to give up and go bald. But now I am shaking hands with myself that I saw your advertisement and had sense enough to try your J. W. O'HARROW.

(Bigned)

er that Newbro's Herpicide is Remer Grower." Nature grows the hair; but Newbro's Herpicide. destroys the enemies of hair growth, and by keeping the scalp clean and wholesome, itching of the scalp stops, dandruff ceases, and the hair grows as nature intended. As a toflet dressing it is incomparable, for it is a pure anti-ceptic, containing no oil, dye, sediment or sticky substance.

the United States Signal Service.

NEW YORK, April 25 .- Engineer Richard P. Fund and Assistant Engineer Herbert C. Welby of the Marconi Wireless Telegraph company left New York today for Alaska to complete the installation there of a series of wireless telegraph stations for the United States signal service. The apparatus originally sent to Alaska in charge of Stanley Cook of the company at Fort Gibson will be returned and the new apparatus substituted.

With Fort Gibson in Alaska as the startng point, the first station there will comnunicate with the second, Tolovana, distant approximately 100 miles.

The third and last station is at Chena, n the Tacana river, 100 miles up from Tolovana. The stations are all at army posts and will be operated by signal service operators. It is expected that the system, the first of any consequence to be installed for overland transmission, will be completed and turned over to the government about August 1.

Bible Society Makes Report.

NEW YORK, April 25.—The American Bible society's annual report of its Levant agency was made public ioday. The report says the agency has been subjected to harassing influences, due to political conditions in the east. In Macedonia the movements of the colporteurs have been restricted and they have gone about only at the risk of personal danger. The demand for the bible is increasing in the countries of the Levant agency, and, whils in the greater part of the territory there has been no marked movement among the Evangelicals, says the vaport, there has been a most remarkable quickening in the territory of the Central Turkey mission. Attention is called to the "marvelous changes in hearts and lives of ignorant superstituious people" made by mission schools in Falestine and Syria.
