THE REPORT OF TH

The silk on which the special paper was printed for the President was furnished by Hayden Brothers.

WINSLOW TAFFETA is a silk for the American people, manufactured on American looms operated by skilled American weavers, and is known from coast to coast as the leading American silk. If the American women could vote their choice of taffeta silks the Winslow Taffeta would overwhelmingly prove the winners. The Winslow Taffeta mills are a typical illustration of the progress and supremacy of the American people in the field of manufacturing. Winslow Taffeta is sold by Hayden Bros. in city of Omaha..
