BOARD MEETS ON THE QUIET

One Member Slighted Talks and Lets the Cat Out of the Bag.

TROUBLE IN HIGH SCHOOL CONSIDERED

Question of Introduction of Manual Training and Financial Policy of the Board Also Taken Up.

The fact that the Board of Education has been holding a number of secret sessions recently has been made public through the talk of one of the members who had been present at some, but not all, of the meetings. The member in question took umbrage at not being invited to attend some of the private sessions and this let the cat out of the bag.

Several of these meetings have been held in the private office of Superintendent Clifford in the high school building, the object of them being to discuss the question of manual training, which it is proposed to establish in the high school next year, and to outline the financial policy of the board for the ensuing fiscal year.

The last of these private sessions was held Wednesday afternoon in Superintendent Clifford's office, the purpose of which, it is said, was to take some action relative to the recent trouble in the high school caused by the changing of the pupils' books from their present desks and in some instances from the proper classrooms. This mischief, said to be the work of certain pupils who got into the building after the close of school, prevented the usual studies for almost an entire day until matters were straightened out and the books redistributed. It was reported that the board had decided to recommend the suspension of the pupils guilty of the depredation, but forbore taking such action when the guilty ones appeared before the board and expressed regret and agreed to pay damages which had been sustained by their action.

As a result of the trouble at the high school the board at the secret session Wednesday ordered that all teachers hereafter must, at the close of school, see that the windows of their respective rooms are locked and that the doors when leaving their rooms for the day, and that after that time the janitor of each building will be held responsible for it. The board also decided to renew its offer of \$25 reward for the detection of anyone injuring any of the school buildings or school property.

Members of the board when seen yesterday admitted the holding of these meetings, but denied that there was any intention to keep the business of the board from the public and that the newspaper reporters would have been welcome. It has been the custom for the secretary of the board to notify the newspapers of the meetings of the board, but this was not done in the case of the recent meetings held in Superintendent Clifford's office.

Bishop Morrison administered the rite of confirmation to a class of candidates at St. Paul's Episcopal church. He arrived in the city Wednesday night from Missouri Valley and while here was the guest of Mrs. Horace Everett and family.

George Dunlap, alias Charles McDougall, was arrested yesterday, charged with the theft of a pair of horse clippers from a main street livery barn. About two weeks ago Dunlap was arrested for the theft of a clock from a Scott street livery barn.

The funeral of Miss Daisy Wells, daughter of Mr. and Mrs. Al Wells, 202 South Eleventh street, will be held this afternoon at 2 o'clock from the Presbyterian church on Seventeenth avenue, between Seventh and Eighth streets. Rev. W. E. Barnes of the First Presbyterian church will conduct the services and interment will be in Walnut Hill cemetery.

FRUITS ARE BADLY DAMAGED. Growers Unable to Say Definitely Just How Great the Injury Will Be.

That the frost of Wednesday night has caused considerable damage to the fruit crop in the vicinity of Council Bluffs and surrounding towns there remains but little doubt, but fruitgrowers stated yesterday that it would be several days before the exact damage could be estimated. Reports received yesterday in the city indicated that the apple and plum crops would suffer most, although small fruits had been more or less damaged.

J. F. Hess, one of the largest fruitgrowers in this section of the state, gave it as his opinion yesterday that about half of the blossoms on the apple, plum and cherry trees in this vicinity had been killed by the frost. The growing season, as far as he was able to ascertain yesterday, appeared to have suffered least.

Frank P. Bradler, the owner of extensive orchards at Glenwood, estimated that the frost of Wednesday night would result in the destruction of half of the apple crop in that vicinity.

The favorable weather of the last few weeks had brought out the fruit trees earlier than usual, and in this vicinity the trees were a mass of bloom. The meager reports to hand yesterday indicate that the cherry trees suffered most, but that all small fruit suffered considerably. The frost was entirely unlooked for and the resultant damage has proven a sore blow to the fruitgrowers, who were looking forward to a most favorable season.

Find More Stolen Goods. Constable Albert of Justice Ouren's court and Detective Murphy, accompanied by P. D. O'Hall, a special officer of the Chicago & Northwestern railroad, made another search yesterday of the home of Otto Paul, a former employe of the railroad, and unearthed an additional large quantity of

Labor Unions and Employers for Most Part Have Already Signed Scales.

No serious trouble is looked for in Council Bluffs between organized labor and the employers, despite reports to the contrary. The relations between the employed and the employers in this city are at present most cordial and there will be no walkout on this side of the river.

Speaking of the local situation a prominent member of the Council Bluffs Trade and Labor assembly said last night: "There will be no strike of organized labor in Council Bluffs today. All of the old unions are satisfied with existing conditions. The bosses have signed the scales demanded and the relations between the members of the old unions and their employers is perfectly harmonious. Some of the recently organized unions may have some slight troubles of their own, but they will soon be settled. For instance, the Teamsters' union, which has but lately organized, has not yet succeeded in getting its scale signed but the bosses undoubtedly will yield, and I do not look for any trouble from that quarter. The Bartenders' union, another recent organization, has as yet not altogether fixed up matters to suit it, but the differences now existing will soon be straightened out. I do not look for any organized labor troubles on this side of the river, however threatening conditions appear on the Nebraska side."

Matters in District Court. The trial of the suit of former Street Supervisor G. C. Taylor against the city of Council Bluffs to recover \$50 on back salary was begun before Judge Wheeler in the district court yesterday. The city sets up a counterclaim of \$100, alleging that Taylor had failed to account for that amount in connection with work done on the streets. Mayor Morgan, City Clerk Phillips and the aldermen were all in court as witnesses. The city failed signally to produce any evidence which the court would admit to show that Taylor had tampered pay roll vouchers as alleged. The case is expected to go to the jury today.

The sealed verdict returned Wednesday night in the suit of H. W. Miller against the State Savings bank is in favor of the defendant. The case involved a \$100 deposit which the bank claimed had been credited twice, once to the account of the plaintiff and also to the account of his son. The plaintiff claimed that two deposits of \$100 each had been made on the same day and that both accounts were entitled to a credit in this amount.

A. L. Thomas, whose suit against the motor company resulted in a verdict for the defendant company, has filed a motion for a new trial.

Leg Broken in Fight. A warrant was issued last evening from the court of Justice Ouren for the arrest of John Burright, an ex-convict in the employ of the Milwaukee railroad, charged with murdering and assaulting E. M. Cady, a locomotive engineer in the employ of the same company.

Burright is alleged to have struck Cady with a heavy piece of railroad iron during the altercation in the local yards yesterday afternoon, inflicting several severe gashes in his head and breaking his left leg between the knee and ankle.

According to Cady's story Burright and Cady's Bremen were having a dispute, when he (Cady) attempted the role of peacemaker and was set upon by Burright, who was removed to his home at 723 Sixth avenue. Burright had not been arrested up to a late hour last night.

Resigns from Library Board. Rev. Father Patrick Smyth tendered to Mayor Morgan yesterday afternoon his resignation as a member of the board of trustees of the free library. In his letter of resignation Father Smyth said that his continued ill health prevented him from further serving on the board. Father Smyth was appointed on the board in December, 1928, by Mayor Jennings to fill the vacancy caused by the resignation of Rev. P. McDonald, rector of St. Paul's Episcopal church, at the time of the latter's removal to Toledo. Father Smyth has been in ill health for a year or more and last summer went to the Atlantic coast in the hope of benefiting it. Since his return he has suffered a relapse and the result that he will be forced to give up his duties as pastor of St. Francis Xavier's church for a time at least.

PROGRESS IN M'DANIEL CASE

State Rests Its Case and Defendant Has Long Array of Witnesses Ready.

AVOCA, Ia., April 30.—(Special.)—The trial of the case of the state against Mrs. Ella McDaniel and A. M. Livis, which began on Tuesday, was resumed before Judge Green in the district court this morning.

Many witnesses were called on the part of the state to describe the condition of the house and its surroundings on the day Mr. McDaniel died. They testified as to the finding of the broken razor on the floor of the room, of the blood spattered walls and curtains, and of the blood stained shirt and doctors who were called to the assistance of the deceased and who assisted at the post mortem, testified that the cuts upon the throat severed both the external and internal jugular veins, and the carotid artery. Medical experts testified that with the injuries which the deceased had received from wounds in his neck, it would have been impossible for him to have articulated a sound, while other witnesses who were passing at the time deceased came running from the house, stated that he was crying, "They did it."

The state offered in evidence the testimony of several witnesses to prove the immoral conduct of the defendants for the purpose, it is said, of showing a motive for the crime. The defendants' counsel seem to be willing to permit the state to prove all matters without objection on their part, and the court has several times during the trial intimated that progress be made in the trial of the case.

The state closed its evidence this morning after introducing the broken razor, hammer, window curtain and the blood stained garments.

A large number of witnesses have been summoned on the part of the defense and several days more will be consumed before the trial will be finished.

The defendants, who were placed in jail,
