THOMPSON, BELDEN & Co. Y. M. C. A. Building, Corner Sixteenth and Douglas Sts

100 deputies I will get along by sorting them in squads of five and sending them out with the policemen to cover the city...

of whom there are 400, and all other building mechanics, the bricklayers who are detained from work in most cases by the strike of the hod carriers will be affected...

Attorney Mahoney then delivered a lengthy speech which aroused great enthusiasm, even more than had been apparent through the meeting, and he was loudly and frequently cheered.

The freight handlers are not making any further effort to bring out their men. They have now between 150 and 200 out, which includes those that were at the Union Pacific and the B. and O. freight houses and a few of the commission houses in the whole sale districts.

"Now the whole question in this controversy is the recognition of the unions. But what is meant by the recognition of unions? It does not mean that the employer shall treat fairly with the union and deal equitably with it. It means that the employer shall surrender his right and accord to the union the right of recognition of him or her, just as it chooses. And while this Business Men's association is willing at any time to meet the employes on any fair grounds named by the governor of this state, we do not think that we are called on, or that the governor ought or will call on us to accord such recognition of unions as that which is here described.

Both from transfer companies and the teamsters the report comes that no non-union men are being brought into the city. A man of the name of Johnson Brothers Transfer company said: "We have some teams at work, but are not sending out of the city for non-union drivers. We can get all of them we want here in Omaha. We have more applications than we can handle."

After the meeting the transfer men of the city, representing the seven companies, held a secret meeting and renewed their determination not to accede to the demands of the teamsters, but to look elsewhere for non-union drivers. Accordingly telegrams were sent to Chicago, St. Louis, Kansas City and other cities for non-union men.

There was no change yesterday in the situation of the mason tenders' strike. None of the contractors attempted to lay brick and work on the building at a standstill. Contractor Wickham had a force of men at work on the concrete foundations of the Great Western roundhouse, but stopped all work on the freight house and the Fuller, Johnson Shugart warehouse. Contractor Weaver made an offer to the mason tenders to pay 20 cents and 22 1/2 cents, but at the meeting of the union yesterday afternoon this compromise offer was refused. Weaver had been paying 17 1/2 cents and 20 cents. The union decided the bosses must pay the scale of 22 1/2 and 25 cents, as demanded.

NEW YORK, May 7.—Sweeping aside the action of Chevalier Branch, their counsel general, Fort Warden James E. March and officials of the Central Federation of Labor, 1,500 Italians voted almost unanimously not to return to work on the city subway until they are assured of \$2 an eight-hour day. Not a stroke of work will be done on the subway tomorrow, as was promised by the committee, and another handicap is enforced against the already crippled building forces of the city.

Backache is only a simple thing at first, but when you know 'tis from the kidneys; That serious kidney trouble follows; That Diabetes, Bright's Disease may be the fatal end; You will gladly profit by the following experience;

THE BUILDING TRADES COUNCIL MEETS TO-night and may issue an order calling out every man under its jurisdiction who is now at work in the city. This will include about two-thirds of the union carpenters.

Remember the name, Doan's, and take no substitute.

THE ORDER was issued on account of the interference these two are alleged to have made with some workers in a Kansas City box factory after an order had been issued restraining the men who were on strike from interfering.

STRIKERS TURN BACK TEAMS Effort to Deliver Goods Precipitates Trouble on South Main Street. SEVERAL ARRESTS MADE BY THE POLICE

The efforts of the striking teamsters in Council Bluffs to prevent non-union men from hauling goods from Omaha to Council Bluffs culminated yesterday noon on South Main street near First avenue and the arrest of a number of the strikers on the charge of disturbing the peace resulted.

The trouble started when the strikers attempted to prevent A. D. Talbot, a driver for Grattan & Co., from delivering a load of boxes consigned to the McDaniels hide house on South Main street. With Talbot was John Bettler, who was driving a wagon belonging to the Omaha Box company containing a load of boxes and crates. The strikers attempted to stop Talbot and it is alleged he drew a revolver. The strikers crowded around the wagon and prevented the horses moving. Officer Lorenzen hastened to the scene, when the strikers demanded that he arrest Talbot for carrying concealed weapons. The officer notified the wagon and ordered Talbot to drive to the police station.

Several Arrests Made. Dunn was placed under arrest and was followed by a large crowd to the city jail. On reaching the city jail Tom Callaghan, who recently resigned from the police force as night detective, and G. A. Parker, Adolph Kolb, A. Hutchins, Dr. King and George Deeds were picked out from the crowd and placed under arrest charged with disturbing the peace. It is charged they were the ringleaders in the trouble. Callaghan was found to be wearing a deputy sheriff's badge and this was taken from him by Deputy Sheriff Groneweg during the mixup on Main street. Callaghan and the other men arrested were subsequently released on \$15 cash bonds, to appear in police court this morning.

Business men generally were aroused and there was talk yesterday afternoon of the courts being appealed to to enjoin the strikers from interfering with the hauling of goods, charged to this city. The arrests following the trouble on Main street had the result of quieting the strikers during the afternoon and no other act of violence was reported, although one or more wagons were turned back by the driver made to return to Omaha. The driver of an Omaha milling company, with a load of flour, telephoned to police headquarters that he had been stopped just east of the bridge by a mob of men who demanded protection. Chief Tibbits and a detail of police at once hastened to the scene, only to find that the driver had become frightened and driven back to Omaha.
