

WAR CLOUDS ARE GATHERING

German Government Regards the Turkish-Bulgarian Situation as Grave.

TROOPS FACE EACH OTHER ON FRONTIER

Accidental Collision Seems Possible and Then War Could Scarcely Be Averted by the Two Governments.

BERLIN, May 9.—The German government regards the Turkish-Bulgarian situation as grave, but responsible officials say if a collision can be averted off through the summer, more sober counsels will obtain a hearing in the winter, when military action is impossible.

Regarding the mutual recrimination of Turkey and Bulgaria in imputing bellicose purposes, the officials here say Turkey plainly cannot wish for war because it is unable to bear the expense and knows beforehand that the powers would not permit territorial expansion as a result of victory. It is asserted that Bulgaria, while showing a deplorably weak attitude toward the revolutionary elements, does not desire war. The powers have made representations to Sofia, emphasizing the impossibility of allowing Bulgaria to realize that fundamental aim of its policy, namely, the acquisition of a part of Macedonia. The powers know that the partition of Macedonia in favor of Bulgaria would cause Greece, Serbia and other countries to raise claims for Turkish territory.

Powers Are Determined.

The powers are unitedly determined not to permit any change in the status quo. On the other hand, the reforms in Macedonia, which have unfortunately been suspended through the outbreaks of violence at Salonica, must be carried out, and Austria, Hungary and Russia, which are immediately concerned, will see, through their consuls, that the policy is carried out. It is understood that the powers in their representations at Sofia reproaching the Bulgarian cabinet with showing weakness toward the revolutionists pointed out the necessity for a more energetic attitude.

In addition to the communications made to the government at Sofia the powers have made representations at Constantinople which have convinced Turkey of the hopelessness of deriving any territorial or pecuniary advantage from attacking Bulgaria. Nevertheless danger lies in the fact that Turkish and Bulgarian troops are facing each other on the frontier and in proximity to it, rendering a more or less accidental collision possible, which could easily grow into uncontrollable dimensions. The situation therefore is having a depressing effect on the German officials and is preventing any operations on a large scale.

Blows Up Two Hundred Moslems.

VIENNA, May 9.—A mosque at Kipritli, in which 200 moslems had assembled, was, according to a dispatch to Die Zeit from Sofia, Bulgaria, blown up with dynamite May 2. The worshippers were killed in the ruins. The perpetrator of the outrage, a man named Popov, committed suicide by shooting. A paper found in one of his pockets described him as a member of the "Macedonian Knights of Death."

Many Christians Killed.

CONSTANTINOPLE, May 9.—Thirteen Christians were killed and nineteen wounded and three Moslems were killed during the recent outbreaks at Monastir. In an encounter between imperial troops and a force of insurgents in the neighboring village of Zapari May 6 eleven Bulgarians were killed and seventy-four made prisoners.

A New War Motor

Is one of the latest inventions for service in war times. It is a fort, built on wheels, and is strongly recommended for sea coast defense. The strongest recommendation for a family medicine is the fact that during the past fifty years Hostetter's Stomach Bitters has never been known to fail to cure indigestion, dyspepsia, constipation, biliousness, nervousness, insomnia or malaria, fever and ague. It therefore commends itself to all sufferers who want to get well again. Avoid substitutes.

Two passenger trains, traveling at a high rate, crashed into each other and five persons are reported dead and several injured. The scene of the wreck is about fifty miles from Utica on the main line between Utica and Montreal.

The disaster occurred on a curve and the locomotives and mail cars were badly wrecked. The mail compartments are reported to be in splinters and the mail is buried in the debris.
