What the General Assembly Will Have Before it at Los Angeles.

LAST TOUCHES ON CREED REVISION

Eleven Overtures of Alteration En dorsed by the Synods Will Be Finally Adopted at the Coming Session.

LOS ANGELES, Cal., May 18.-(Special Correspondence of The Bee.)-An army of invasion is on its way from the east and will enter this city on Wednesday. Advices received during the last fortnight from New York, Philadelphia, Pittsburg, Washington, Cincinnati, Cleveland, Chicago, Minneapolis, St. Louis, tell of special trains or special cars being prepared at each of these places filled with the commissioners and the delegates to the women's meetings held in connection with the assembly, and a much larger number of tourists attracted by the low rates and the fine opportunities.

What contrast these travelers across the plains and over and around the Rockies will find in comparing their own adventures with those of Lewis and Clark and Whitman and Fremont and the "'49ers!" No horseback riding, nor new letters, nor ox teams, but the finest equipment which the transcontinental railway systems can offer has been placed at their disposal. Only second in importance to the presidential train will be those which come from New York, Boston and Chicago.

Rest on Sunday.

Sunday being a day of rest in theory, and sidetracked tomorrow while the members in worship or in communion with nature, of New York. or in trying to solve the Mormon problem according to program arranged before the party started. It is well that there should be this Sunday rest, for the last general assembly enjoined upon all the officers and members of the Presbyterian church, and especially upon the young people, to be faithful in the preservation both by precept and example of the sacred character of the Christian Sabbath. One resolution

That we most respectfully but earnestly request all officers of public transportation companies seriously to consider the subject of Sunday excursions to the end that they may be discontinued in the interest of labor, morals and religion.

Several hundred people from the east will spend the day in Salt Lake City. That they will attend a religious service goes without saying; that they will attend a Mormon service is highly probable; that they will go away thinking that his satanic majesty is not so black as he is painted goes also without saying, but this will be because they have seen him on exhibition and not in dally life. A missionary meeting will be held in New Mexico, where 200 or 300 people from New York and Philadelphia are to spend the day, starting from Albuquerque for the Grand Canon of the Colorado at 12:01 a, m. Monday, Other train loads are due at the Grand canon this evening and the passengers will have two days instead of one to visit this great wonderland of Arizona

Los Angeles Getting Ready.

Extensive preparations are making in this city for the reception and entertainment of the commissioners and their friends. A strong committee, under the leadership of Rev. Hugh K. Walker, D. D. pastor of the Immanuel Presbyterian church, in which the meetings are to be held, and is subcommittees, have done for the coming guests what Rev. Arthur J. Brown, D. ... and his faithful committee-men did for the visitors to Portland in In fact, it is the memory of the splendid time which the eastern people had

1892. In fact, it is the memory of the splendid time which the eastern people had in Portland that has made the present company so large. Every man who went to Portland eleven years ago was perfectly willing to make the sacrifice of going to the coast again this year, and every one who did not go then felt that he was entitled to be sent now. This has made the election of commissioners unusually interesting and has resulted in the choice of picked men to represent the church.

After the adjournment of the assembly a large number of people will return home by the northern route, that they may deepen former impressions of Oregon and Washington, or may receive at first hand something of the sensation which their friends conveyed to them upon their return from the last assembly held on the coast. The home mission work of the church in the great western synods will be carefully studied by the visitors, as will also the educational work carried on by the Board of Aid for Colleges and Academies, and it is and to infer that an impetus will be given to the work of these boards as the result of the meeting this year.

Same Fresbyterian relities.

As usual, interest centers about the office of the moderator. In Presbyterian circles, as in political circles, the office always seeks the man, but there is no precedent against the friends of any prominent commissioner lending a guiding hand to the given to the work of these boards as the first of the meeting this year.

Same Fresbyterian circles, as in political circles, the office always seeks the man, but there is no precedent against the friends of any prominent commissioner lending a guiding hand to the given to the work of these boards as the first of the meeting this year.

Same Fresbyterian circles, as in political circles, the office always seeks the man, but there is no precedent that enough friends eff to first prominent commissioner lending a guiding hand to the given to the work of these boards as the conference to insure the office and the man forming a happy com western city to entertain the assembly

their approval and it now remains for the assembly next week to enact the changes alreay approved. That this will be done goes almost without saying, although there are some then who believe that it is possible to defeat revision and leave the old Westminster confession where it was before the agitation began. This seems hardly probable. The vote last year was ous in favor of softening some of

the phrases of the Westminster creed, and

WORK FOR PRESBYTERIANS the leading presbyteries, many of whom voted against revision at the outset, have

approved the changes. The principal modifications have to do with the pope of Rome, who is no longer

branded as anti-Christ; the addition of chapters upon missions and the holy spirit and two declarations regarding sections of the confession, which have marked the battleground between Calvinism and its oponents for 20 years. The wording of the onfession regarding predestination and infant salvation has not been changed at all, but a statement is to be appended declaring that the doctrine of the decrees of the Almighty is held in harmony with the doctrine of His love to all mankind. His gift of His Son to be the propitiation for the sins of the whole world, and His readiness to be-

It is denied in terms that the confession of faith teaches that any who die in infancy are lost, and then this positive statement is added: We believe that all who die in infancy are regenerated and saved by Christ through the spirit who works when and where a how He pleases.

Evangelistic Work.

Having disposed of this topic the more popular one, that of evangenzation, has claimed the work of the church during the year, and will receive a greater amount of time in the assembly than any other subject. Rev. J. Wilbur Chapman, D. D., of New York resigned his pastorate that he might give his entire time to this new work. He was made corresponding secretary, and has held conferences in many of the leading cities of the east and has had associated with him such men as Dr. Chichester of Chicago, formerly one of the eading pastors of this city; Dr. Clelland B. McAfee of Chicago, Dr. John Balcom Shaw and George Alexander of New York, in practice also, the special trains will be Cieveland, John Willis Baer of the board of paralleled exhibition, embracing people home missions and William E. Dodge, one from all nations. of the various parties spend the Sabbath of the great financiers and philanthropists

In addition to the work at home the committee has sent letters of encouragement and offers of co-operation through foreign missionaries of the church and thus endeavored to bring into active co-operation the entire forces at home and abroad of the denomination. A large number of books committee and sent to the foreign field, as dom witnessed. well as to every church in this country. The probability is that the report of accessions to the church to be made to the assembly this year will show the great value of the of the committee for another year. To show the deep interest which Mr. Converse has in this new feature of the church's activity it may be added that at as the year previous, he placed at the disposal of the committee \$25,000 to use toward the payment of necessary expenses.

Besides the committee on evangelistic work there are sixteen other special committees to report this year. These include those that have been considering; "Divorce and Remarriage," "Work Among Hungarlan Immigrants," "Omaha Seminary, "Prosbyterian Building in New York,"
"Sabbath Observance," "Pulpit Vacancy and Supply" and "Young People's Societies." From one to three hours will also be given to each of the eight boards of the church, home missions and foreign missions occupying the longer time, and church erection, freedmen, publication and Sabbath school work, education, board of aid for colleges and academies and ministerial relief receiving an hour and a haif each. Popular meetings are also held in the

Omaha Theological Seminary. The special committee on the Omaha

Theological seminary presented an interesting report last year, which is given herewith. The report was unanimously adopted:

Our report to the last assembly showed a property worth \$60,000. We report this

How it Will Help.

western city to entertain the assembly. His services for the church at large have made him the best known member of the denomination. Other names already put forward by their friends are those of Rev. Calvin W. Mateer, who went to China as a missionary forty years ago this fall; Rev. Robert F. Coyle of Denver, whose pastorate in California is remembered with great pleasure by those who knew of it and who is now deing excellent work under the shadow of Pike's Peak; Rev. William N. Page, D. D., of Leavenworth, Kan., a ploneer in the work of that state; Rev. David S. Schaff, D. D., a professor in Lane seminary in Cincinnati, and Rev. Samuel B. McCormick, D. D., of Cedar Rapids, Ia., the president of Coe college. Both Dr. Schaff and Dr. McCormick represent a feature of Christian activity—the educational—which is to be prominent in the General Assembly.

Revialon of the Caerd.

Perhaps the most important topic to come before the body this year is that of the evangelistic work carried on by a special committee, of which Mr. John H. Contyres of Philadelphia, the head of the Baldwin locomotive works, is chairman. The revision question has been fought out in three assemblies. A year ago the report of the committee headed by Dr. Minton, then of Ban Francisco, was adopted, and eleven overtures were sent to the presbyteries for their approval or disapproval. More than the requisite number—two theirs of the entire number—have given their approval and it now remains for the assembly next week to emate the changes

Large Real Estate Deal.

One of the largest real estate deals recently consummated, involving the greatest number of properties, was completed yesterday by the filing of deeds from Charles S. Francis of Troy, N. Y., to D. V. Sholes company and Wilson T. Graham of thirty houses and about as many vacant city lots

scattered throughout the city. These were properties Mr. Francis se cured under mortgage foreclosures and stood him in about \$50,000. He desired to close them out in a lump, selling for spot cash, and Mesars Sholes and Graham m him a cash proposition, which he accepted. The properties were absolutely free from an encumbrance or back taxes. About twothirds of the property has been resold by Sholes and Graham in the last thirty days pending the preparation of the abstracts of
