Governor Mickey Explains the Bribery Stories Floating Around.

SEES NO OCCASION FOR PROSECUTIONS

State Board of Assessment is Not Yet Ready to Make Its Report on Railroad Valuations.

(From a Staff Correspondent.)

LINCOLN, May 16.—(Special.)—By the distortion of a statement made by Governor Mickey, in an interview to demonstrate that no appointee of his would be compelled to pay a portion of his salary in order to hold his position, much has been made out of little, and sensational newspapers have taken advantage of an opportunity to speculate.

A report was sent out under a Lincoln headline yesterday afternoon by the representative of the Associated Press to the effect that four men, applicants for positions at the disposal of the governor, had offered to pay \$1,000 each for the places. There was absolutely no truth in the statement. The Associated Press representative did not talk to the governor, but instead he secured his information second hand.

In the common acceptance of the word, no bribes were offered the governor, and it was not the intention of Governor Mickey to state the truth of the bribery charge in this.

While the fight for the position of oil inspector was at its height and the feeling was so strong as to develop two factions in Lancaster county, each of which strongly advocated a different man, one of the candidates informed the governor that if the other strong candidate would withdraw and the governor would appoint him, as a compromise, he would give the retiring candidate \$1,000. Governor Mickey refused to even allow this to be done and informed the applicant of his disapproval of such methods.

An old soldier who was a close personal friend of a relative of Governor Mickey, who is not well off in this world's goods, asked to be appointed commandant of the Soldiers' home at Grand Island. To Governor Mickey the old soldier said he would be able to live on his own, but the other half he would give toward the support of the governor's relative. This was the nearest approach to an offer of bribery that has occurred since Governor Mickey was inaugurated. The old soldier, of course, was turned down, and the fact that he had made such a proposition only came out yesterday in the course of a general discussion of the manner in which appointments were made. Governor Mickey stated that this proposition, as such as anything else, was what caused him to refuse to consider the man's application further.

The other "bribe offer" was a candidate for labor commissioner. This man, in enumerating his good qualities, informed the governor that three months in the year he would devote to the interest of the governor politically. When this man then recommended the governor's idea of men buying appointments he left the presence of the governor in a very bad humor, and he has been that way since.

No Reason for Complaints.

"I see no reason why I should file complaints against these men," said Governor Mickey this morning. "I see no reason why I should give their names to the public. I just mentioned those things to the newspaper men yesterday to show them that I was not influenced in any way by such methods in making appointments, and that I would not be. Every one of my appointments I have made myself and there is not a single one of them who has to pay tribute for his office. If one of my appointees went wrong I would remove him. If I thought that one of them paid tribute to any man for holding office I would remove him. The old soldier who made me the proposition about the Grand Island home made the mistake of his life when he offered to give one-half of his salary to a relative of mine. He has felt my displeasure and my disapproval of such methods in that his application was not considered after the proposition was made. He is a poor man and an old man. I would not, I think, be justified in giving his name to the public or filing a complaint against him. He did not offer me anything direct."

"The fact that a candidate for labor commissioner offered to spend three months out of the year working for my political interests was what might be termed traffic in politics, but such traffic does not nor will not receive my approval. That man knows my ideas on such methods of securing office and I see no reason why I should attempt to prosecute him."

"None of the men were appointed to office and no bribe was offered to me in the nature of a bribe, direct or indirect, was committed against the state; no damage has been done the state; the men have been shut out absolutely from holding appointive offices so far as I am concerned and there, I am of the opinion, the matter will rest."

"The matter came up in the discussion of the Hays' criticism of me in connection with the standard oil company. I have been reliably informed that a deputy oil inspector under the previous administration had to pay tribute in the sum of half of his first year's salary to hold his position. Who got the money, I do not know. But I do want everybody to know that none of my appointees will ever have to do that, and anyone who imagines he will secure an appointment by making offers to that effect will be disappointed."

Not Ready to Report.

The state board is not yet ready to report. Late this afternoon it adjourned until Monday morning. D. E. Pollard, representing the Burlington, was here at the request of the board to explain some of the returns made on the several branch lines of the road. The board could not make out in just what counties the road was supposed to be. All of the roads have been gone over and temporarily the value has been placed on them. The board, however, is not yet ready to put its final approval on the findings and will not until another meeting is held. Very little if any difference will be made in the aggregate railroad assessment from the returns last year.

New Deputy Oil Inspector.

Governor Mickey took a few moments off from the board this morning to announce the appointment of C. E. Burns of Scribner as deputy oil inspector to take the place of Fred Sonnenschein in the Third district. Mr. Burns is an old soldier and was highly recommended. When he made the announcement Governor Mickey stated that he was taking care of as many old soldiers as he could, for it would not be many years before there would be none of them to care for.

The governor also announced that he would the very near future appoint

George L. Carter of North Platte, better known as "Nick" Carter, to occupy the position now held by Chief Game Warden Simpkins. Mr. Carter is at present deputy under Mr. Simpkins and as such has done good work. A number of applicants were after the place.

Police Commissioner Next.

The next number on the program is the appointment of a member of the Omaha police commission. C. C. Wright, who has recently been elected city attorney of Omaha, has signified his intention to resign by the 21st of May. It is the general belief that Governor Mickey will name his successor shortly after that time. So far the other strong candidates would withdraw and the governor would appoint him, as a compromise, he would give the retiring candidate \$1,000. Governor Mickey refused to even allow this to be done and informed the applicant of his disapproval of such methods.

GERMANS IN ALFALFA FIELD

Visitors Are Shown the Famous Watson Ranch at Kearney.

MIDWAY CITY IN GAY ATTIRE

Great Cherry Orchard, Big Dairy Barn and Other Western Wonders Are Thoroughly Investigated.

(From a Staff Correspondent.)

KEARNEY, Neb., May 16.—(Special Telegram.)—Kearney was gaily decorated today in honor of the German visitors who are here to observe the Watson ranch and the surrounding agricultural district.

The visit was first made to the power house, where the party alighted and looked over the electric plant and the canal and lake. A short stop was next made at the State Industrial school, the party not alighting, where a magnificent bird's-eye view of the valley, and the city in the distance, could be had.

Before reaching the ranch house Mr. Watson turned the party loose in an alfalfa field, where the group of carriages was photographed from the top of an alfalfa stack by a staff artist of The Omaha Bee and members of the visiting party who had kudos.

The drive on the ranch was past that great cherry orchard of 5,000 trees, then back in the hills among miles of orchard, alfalfa and winter wheat, taking the serpentine road around the foot of the hills and back to the barnyard. Here the party was greatly interested in investigating the big dairy barn and studying the various machines and appliances for agricultural work.

Returning to the city a luncheon was served at the Midway hotel about 1 o'clock and the balance of the afternoon was spent without reference to any special order.

Banquet at Midway.

The party was banqueted at the Midway tonight with an elaborate menu. Mayor Roe extended the welcome of the city. Mr. Augustus Kaiser proposed a toast to the German emperor and Herr von Flegel in return offered a toast to "Your Great President, Theodore Roosevelt." H. D. Watson, proprietor of Watson ranch, spoke the thanks of one of the great cities of the world in coming here. J. Hamilton Lewis of Chicago paid a glowing tribute to the German nation. Dr. Albert Dietrich, speaking in German, returned the thanks of his party for the attentions shown, said they were pleased with what they had seen and considered Nebraska a great state, closing with a toast to Nebraska. Mr. O. W. Wickler spoke in the same strain. Before breaking up B. O. Hostetter proposed the sentiment, "May the Friendship of Germany and America Last Forever," which was drunk with enthusiasm. Mr. F. E. Breitrich responded, proposing a toast to the friendship of Germany and America, after which the party took the westbound train for Denver, profuse in its acknowledgment of Kearney hospitality.

Select School Superintendent.

At a meeting of the school board last night, the following were elected: W. L. Stephens, Beatrice, superintendent, salary \$2,400; H. K. Wolfe, Lincoln, principal high school, salary \$2,000; A. J. Morris, Lincoln, was elected secretary of the board at a salary of \$900, and Miss Anna Badger was elected at a salary of \$800. The only change made from last year was in the selection of Mr. Stephens as superintendent, the others being old employees of the board.

The Platte Valley Independent Telephone company of Beatrice filed articles of incorporation today with the secretary of state. The capital stock is \$50,000, and the incorporators are E. F. Price, F. Alexander and C. A. Morrill.

Keeps Wedding Secret.

Miss Rosa V. Scott, who secured the passage of a bill through the legislature authorizing the state to pay her \$500 for back salary due for services in connection with the food commission, surprised her friends here today by making out from Omaha notice of her marriage. The wedding occurred July 17, 1907, and the man in the case is J. Fred Garvey. The groom came to Lincoln some time ago from Columbus, Mo., where he was a member of the Washington car accountant force, since which time he has been transferred to Omaha. The wedding has been kept a secret by the two until last Sunday, when the bride informed her parents.

Finns Not Suffering.

The starving people of Finland are not in need of assistance from the citizens of Nebraska, having been provided for by the Russian government, and consequently the Finnish relief committee in Washington has returned the \$500 appropriated for them by the late legislature. The check was received this morning by Governor Mickey and the money will be turned over to the treasurer. It was suggested that the money be sent to Norway or Sweden, the couple places the other \$2,500 appropriated by the legislature was sent, but as the bill that passed definitely stated to what places the money was to be sent it was thought the proper plan by the governor to return it to the treasurer.

Miss Lydia Mullen, assistant in the library of the McGill university of Montreal, was this afternoon elected city librarian of this place. Miss Mullen is the daughter of O. A. Mullen, deceased, formerly court reporter in the First district. For the last year he has been in Montreal.

Takes Dose of Cocaine.

Belle Meacham, well known in police circles in various parts of Nebraska, is dying in a room at 114 South Eleventh street as a result of cocaine taken with suicidal intent. The woman went to the room this afternoon accompanied by a man as yet unidentified and remained there after the man left. At this time she was intoxicated. Tonight she took a dose of cocaine and being unable to retain it took a second dose. She was seen by a member of the family who resides at the house and a physician was summoned. Before his arrival the woman became unconscious and at midnight the physician said she could not recover. The woman is 35 years of age and was known in Omaha and other places as Belle Duval.

ASKS COURT FOR GIRL WIFE

Bride is Living with Her Father, Who Tells the Young Man He Must Earn a Living for Her.

BEATRICE, Neb., May 16.—(Special Telegram.)—W. H. Harrison of Tecumseh has been in town here yesterday trying to secure possession of his wife. The couple eloped last December and were married at Atchison, Kan. They located in Missouri and after residing there a short time Mrs. Harrison's father, Mr. Bartels, prevailed upon them to return to Beatrice. Harrison alleges that Bartels drove him away, saying that he abducted his daughter and that he could not have her until he was able to earn a living. The young man returned to Tecumseh this afternoon, where he is employed. He has engaged an attorney and the matter will probably be settled in the courts. Mrs. Harrison is 18 years old.

Dietrich Will Build.

HASTINGS, Neb., May 16.—(Special Telegram.)—The contract has been let for the erection of the new building which Senator Dietrich has been contemplating for some time on Second street between Lincoln and Denver avenues. The new building will be built back to the alley and will bring about a number of changes and improvements on that street. The book store occupied by Hall & Martin will also be enlarged and greatly improved, as will the building occupied by the German National bank.

JOINT HEIRS OF THE INDIANS

Small Part of the Millions Belonging to Charles and John Harper to Come to Citizens of Nebraska.

YORK, Neb., May 16.—(Special.)—Several citizens of York are heirs to a part of the estate of Charles and John Harper of Indian Territory, who are full blooded Indians and have an estate of \$5,000,000, consisting of large tracts of valuable land and cash held by the United States. The heirs here are Robert Kerwood, Samuel Kerwood, Eveline Kerwood and Mrs. John Jones, who have registered and furnished testimony of relationship. Each adult heir is to receive \$50,000 in cash and a section of land. Each child over 12 receives a half section, and under 12 a quarter section.

WANTS NITRO FOR EVIDENCE

County Attorney Refuses to Allow Explosive to Be Destroyed, Though Other Officials Fear It.

YORK, Neb., May 16.—(Special.)—The county officials would like to make some disposal of a bottle of nitroglycerine which was taken from the suspected bank robbers. Sheriff Brott is afraid to close or open the safe in which the bottle is kept.

County Attorney Stronman, however, will not allow the nitroglycerine to be disposed of, as he wishes to use it in testimony against the suspected robbers. There is enough nitroglycerine to totally destroy the courthouse.

SHOWS FAITH IN AMERICA

Report of Philippine Governor Indicates Natives Are Satisfied.

NEW IMPOSED TAXES QUICKLY COLLECTED

Public Instruction is Retarded by the Lack of Filipino Teachers and Proper Laws.

WASHINGTON, May 16.—The Bureau of Insular Affairs of the War Department has received the report of Senator Philip Taft, governor of the province of Bulacan, P. I., for the year 1907. The report says:

"The political situation of the province could not be more satisfactory. Since I took possession of the government there has not been noted the least perturbation of public order, but, on the other hand, I have observed that American sovereignty is now so firmly established that it is reflected in the confidence and faith which the inhabitants feel when they see the efforts the government makes in carrying out its exceedingly favorable promises."

"As an eloquent proof of this we cite the ease with which the taxes were collected, especially the land tax, which is so new in this country, and to the payment of which the province responded with such patriotism, without offering the least opposition, notwithstanding the agricultural crisis through which it has passed and is now passing. Small bands of Ladrone, the remains of the past revolution, still exist in the province, engaged in stealing animals, making highway assaults upon isolated roads and settlements, but having, however, no political significance. These bands are fast disappearing, owing to the constant persecution of the constabulary, local police and the provincial volunteers."

The governor mentions how agriculture has suffered from the loss of animals and the plague of locusts. He also gives quite a list of bridges, both of wood and stone, that have been constructed, and roads that have been improved.

Losses and Improvements.

In speaking of public instruction he reports that education has not developed as it should for the following reasons:

"First, the scarcity of Filipino teachers, who should be paid by the municipalities; second, the lack of law compelling the attendance of children when their parents through apathy or ancient custom do not wish to send their children to school; third, the continuous calamities that have befallen the province during the year 1907."

He urges that Filipino teachers be assigned to assist the Americans in their task of teaching English.

"The hygienic condition of the province," adds the report, "is highly satisfactory and this is due doubtless to the persevering and intelligent effort of the president of the provincial board of health, seconded by the municipalities, who enforce the sanitary laws of their respective jurisdictions. In the cholera epidemic just past the provincial president was found lending personal aid to the most infected portions of the province. There occurred only 1,500 deaths from cholera in the whole province, which contains approximately 24,000 inhabitants."

Calls Tulloch's Charges Frothy.

The formal charges of Seymour W. Tulloch, cashier of the Washington city postoffice for many years until his removal four years ago, alleging irregularities in the postal administration, were submitted to Postmaster General Payne today. Mr. Payne and Fourth Assistant Postmaster General Briar went over the statement in detail. The postmaster general subsequently stated that of the fifty typewritten pages of 300 words each, only a section of the page contained material in regard to the event. He said the rest of the statement consisted of glittering generalities.

Postmaster General Payne, reviewing

the charges of Mr. Tulloch, said this afternoon:

"The great bulk of the irregularities, of which Mr. Tulloch complains, was the result of the government taking over the postal service of Porto Rico. Mr. Tulloch refers to troubles caused by the payment of the Porto Rican accounts through the Washington postoffice, and that some other irregularities, as, for example, the promotion of letterbox schemes, etc., but there is no evidence of anything of the kind. The bulk of the charges alleged is that vouchers were clipped to the wrong accounts. All of the items which were not allowed by the comptroller were finally disallowed by the auditor general. We will look into the records of these matters, of course."

Now, once for all, I want to say that this investigation of the affairs of the Postmaster General goes on in the department and in every direction where there is reason to believe anything wrong may be found. Investigation will be pursued relentlessly. Any thought of hushing up the investigation is a pure gratuity on the part of the person who furnishes such information. I am not the man who is disposed to turn tail on such a matter. I have got the man to go after the fact."
