

HAS FAITH IN RUSSIA

Ambassador McCormick Says the Manchurian Situation is Not Serious.

OPEN DOOR POLICY TO BE MAINTAINED

Omaha's Government Declares it Has Never Had Any Other Purpose.

FINANCE MINISTER ITS FIRM ADVOCATE

Maintenance of that Policy to the Interest of Russia.

HOPE TO MAKE SIBERIAN RAILROAD PAY

This Can Only Be Accomplished by Increasing the Commerce of the Country Through Which It Passes.

LONDON, May 22.—Ambassador McCormick is here for a few days on his way from St. Petersburg to America.

He is expected to return to St. Petersburg next, with his wife and Miss Patterson.

The St. James Gazette today prints an interview with him, in which he is quoted as saying:

One of my last official acts before leaving St. Petersburg was to meet the Russian government on its policy toward Manchuria.

I was assured that Russia had no desire to see the Siberian ports closed to the United States or to have its consuls expelled.

The Russian government was emphatic in declaring that it was at one with America in the open door and that it applied to the United States must apply to every other power.

Your government also received an acceptance of the open door. I know Mr. Witte is a firm advocate of the open door and I have every reason to believe that Russia is quite sincere in the matter.

It pleases me that it is its own interests to support that policy and I think that is the case. The Russian statesmen are very anxious that the Siberian railroad shall be a success, and to be so it must get freight in large quantities. Russia cannot get itself supply sufficient to make the railway the desired success.

Situation is Not Serious. "You do not then consider that the situation in the far east is in any way serious on account of Russia's policy in Manchuria?"

"I do not," replied Mr. McCormick. "I can see nothing at present that need alarm the United States or any other country."

Mr. McCormick added that the relations between the United States and Russia at the present moment was of a most friendly character.

"Do you think the United States will view Mr. Chamberlain's policy in regard to protection with disfavor?" was the reporter's next question.

"I do not see why it should," answered Mr. McCormick. "We have set you the example. The suggestion that you give preferential treatment of the colonies is your own affair. Canada may one day be able to give you all the wheat you want, but not for some time. In the United States, we are a growing nation and we are consuming more of our own products. I believe the United States will not always send its raw material in cotton to England, but will offer you the finished article."

ARE TAKING DOWN THE POLES

Pennsylvania Railroad Employees Removing Western Union Lines Along the Railroad.

NEW YORK, May 22.—Investigation shows that withstanding the destruction of its lines along the Pennsylvania railroad, the business of the Western Union Telegraph company is moved with practically no delay.

All messages for destinations on the lines of the Pennsylvania railroad are being delivered with usual promptness.

The cutting of Western Union poles as a result of the decision of Judge Buffington will not be carried into Jersey City. The decision covers only a part of New Jersey, the southern part, and the poles are being cut on the West Jersey & Seaboard railroad in that section.

Judge John F. Dillon, chief counsel for the Western Union, said today:

"The rights of the parties are in course of adjudication in the courts. The supreme court will ultimately judge as to the rights of the company and if those rights are established the company will be restored to its rights on the Pennsylvania railroad and compensated for all damage to its property and business."

PHILADELPHIA, May 22.—Announcement was made today at the office of the Pennsylvania company that the company would not permit the Pennsylvania telegraph company or any other corporation to own the poles for telegraph service which are to be erected along the lines of the railroad. According to an official of the company, it is the intention to replace the poles of the Western Union with poles which will be owned by the Pennsylvania railroad.

BALTIMORE, May 22.—The Northern Central Railroad company, which is a branch of the Pennsylvania, today began cutting the Western Union wires from all poles on that line.

EAGERSTOWN, Md., May 22.—A large force of men is engaged in removing the poles of the Western Union Telegraph company along the Cumberland Valley railroad, which belongs to the Pennsylvania system.

FIENDISH ACTS OF A NEGRO

Waylays Man and Girl, Knocks Former Senseless, Assaults Girl and Throws Body in Creek.

LAWRENCEBURG, Ind., May 22.—Possessed with bloodhounds tonight are scouring the country around Manchester for a negro who waylaid and assaulted Martin Kaiser and his daughter, Rose, aged 12 years, near Manchester last night.

Kaiser was found near the Big Four tracks early this morning in an unconscious condition. After regaining consciousness Kaiser said that a negro had assaulted him with a club and carried his daughter into the woods nearby. The girl's hat and umbrella were found near Tanner's creek and it is believed her body was thrown into the creek by the negro after he had murdered her.

Kaiser, who is 39 years old, is in a critical condition and is not expected to live.

Kaiser and his daughter had been to the Catholic church at Yorkville to attend Ascension day services. They passed through Manchester shortly after 7 o'clock and assaulted him with a club and carried his daughter into the woods nearby. A negro near Manchester yesterday afternoon is suspected.

Excitement is at fever heat and if the guilty man is apprehended he probably will be lynched.

TO STUDY THE SEA OF ARAL

Scientists Will Endeavor to Discover Cause of Climatic Changes in that Region.

ST. PETERSBURG, St. Petersburg, May 22.—(Correspondence of the Associated Press.)—Paul Mikulov, former professor at Moscow and Sofia and the author of "Sketches of Russian History," will be here for Chicago within a week. He was selected by Charles Crane a year ago to deliver twelve lectures at the University of Chicago this spring.

Rashad Pumpyly, who has been charged by the Carnegie institution with the exploration of Russian Turkestan, has arrived here with his son, R. W. Pumpyly, to procure the necessary permission. They will join Prof. W. H. Davis and Ellsworth Huntington of Harvard and Prof. Richard Norton, director of the American School of Classical Studies of Rome, at Baku. The party will search for remnants of the once flourishing civilization in the basin of the sea of Aral, will investigate the climatic changes that have taken place there in historical times and will seek to discover whether such changes have been sufficient to cause the decline of this region and whether equal, if not greater, importance should not be attributed to economic and political changes, such as the interruption of the old caravan route by the Arabs and Turks, the devastation of the country, the settlement of a population unused to agriculture and the discovery of the Cape of Good Hope route to India.

The party will remain several months and perhaps longer, future work being determined by the present reconnaissance.

DEATH TO BE THE PENALTY

First Conviction Under the New Code in Territory of Porto Rico.

RICO. SAN JUAN, P. R., May 22.—In the Suman district court of First degree today Pedro Diaz was convicted of murder during a political riot at Humacao last August in killing a boy named Octavio Reyes. Diaz will be sentenced tomorrow to be hanged sixty days later.

This is the first conviction under the new code and the hanging will be the first to occur in Porto Rico. It is certain the governor will not interfere.

THIRTY-ONE LOSE THEIR LIVES

Japanese and Korean Steamers Collide in Water off Japan.

YOKOHAMA, May 22.—(Via San Francisco, May 22.)—Correspondence of the Associated Press.—The steamer Hayama Maru was run into and sunk by the Korean Maru in Tsurujima straits, inland sea, May 1. Of seventy-two persons on board forty-one were saved.

Yokohama, May 22.—(Via San Francisco, May 22.)—Correspondence of the Associated Press.—The steamer Hayama Maru was run into and sunk by the Korean Maru in Tsurujima straits, inland sea, May 1. Of seventy-two persons on board forty-one were saved.

OMAHA FOR HEADQUARTERS

Rural Delivery Division to Be Moved from Denver on July 1.

MILLARD MAKES DEPARTMENT ROUNDS

Millard makes rounds in the rural delivery division of the post office.

WASHINGTON, May 22.—(Special Telegram.)—Senator Millard, who arrived in Washington last night from New York, returned to Omaha tonight and after transacting some private business there expects to start for Omaha Monday. The senator has spent a busy day, having visited nearly all the departments upon various matters. His most important accomplishment has been the securing of a promise from the postmaster general that the headquarters of the western division of the rural free delivery service shall go to Omaha. This was practically decided during the last session of congress. Senator Millard called upon W. A. Richards, commissioner of the land office, upon a purely personal matter and incidentally they had a chat regarding the work of two special agents looking into matters regarding the alleged fencing of public domain by the state.

RUMOR OF STRIKE SETTLEMENT

Union Pacific Officials and Employees in Conference, and Report of Agreement Results.

NEW YORK, May 22.—While no information is given out, it is understood here that the conference between the Union Pacific officials and the representatives of the striking boiler makers have led to an amicable settlement.

The representatives of the machinists conferred with the officials today and it is understood they have reached a settlement.

KANSAS CITY, May 22.—An injunction was granted today by Judge Phillips of the federal court against the industrial union and most of the labor organizations in Kansas City restraining the defendants from interfering with the employees of two restaurants, from posting the names of customers eating at these restaurants and from doing other things calculated to injure the business of the restaurants.

The injunction is the most sweeping in character that has ever been granted by the federal court against the labor unions in this city. The cooks and waiters were enjoined from entering the restaurants and shouting to people to boycott such places. After that the union men watched the people who ate in the restaurants and had their names printed on cards as being unfriendly to the workers.

The injunction was granted today by Judge Phillips of the federal court against the industrial union and most of the labor organizations in Kansas City.
