While the business sessions are in progress the wives of the visiting delegates will be entertained by trolley rides about the city and to Omaha.

The state pharmacy board has notified Mayor Morgan that it will meet in Council Bluffs one day during the session of the society for the purpose of holding an examination of candidates for verification.

Eastern manufacturers and jobbers have donated a number of handsome prizes to be awarded for the sporting events. Prizes will also be awarded for the best essays on the following subjects:

REPAIRS ON GLENWOOD INSTITUTION

General Electric Company Preparing Estimates on Equipment on Des Moines-Council Bluffs Interurban.

(From a Staff Correspondent.)

DESMOINES, May 27.—(Special.)—F. W. Cherry, the promoter for the Des Moines & Southern railroad from Des Moines to Winterset and Greenfield this morning stated that he had made a definite offer of the entire road to President Stickney of the Great Western and that it was understood the Great Western would take it over at an early date and build the line. The surveys have been completed from Lida on the Great Western through to Greenfield and right-of-way secured. There are some troubles in Greenfield over the right-of-way through the city and a place for the depot, but this will be adjusted. President Stickney looked over the line a few days ago and is said to have been pleased with it, but Cherry has insisted all along that the line would be built independently.

Plan for New Buildings.

Messrs. Cowles and Robinson and Architect Liebbe of the state board of control went to Glenwood today from Vinton, where they will look after the immediate needs of the state institution there and see that due care of the injured is given. It is anticipated that the board will have some difficulty in procuring the repair work at the institution, made necessary by the storm. A new cottage is in process of construction and several other buildings are in the hands of the contractors and it is probable that contractors will suffer from a shortage of material. Nothing additional has been received at the office of the board today as to the losses to state property.

McCabe Is Released.

A case that attracted a great deal of attention was disposed of in district court today, being an indictment against H. H. McCabe, a furrier of this city, for retaining property. McCabe had been indicted for having in his possession furs said to have been stolen from a store in Clinton. Afterwards a lawyer in Chicago named Wade was convicted for being concerned in the robbery and it is claimed that all of the furs were in fact, but that the case had been allowed to remain on the docket here until today.

Estimates on the Interurban.

The General Electric company of New York City is engaged in preparing estimates on the equipment of the Des Moines-Council Bluffs electric line. The preliminary estimates are to be ready for the meeting July 1 at Atlantic. It is now stated that the Western Iowa will form a connecting line between the Seligman system now running out of Omaha in all directions and the Polk system in Des Moines and vicinity.
