STATEMENT OF CIRCULATION. State of Nebraska, Douglas County, ss. George B. Tschuck, secretary of the Bee Publishing Company, being duly sworn, says that the actual number of full and complete copies of the Daily, Morning Evening and Sunday Bee printed during the month of April, 1903, was as follows:

INTERNATIONAL ARBITRATION. The progress that has been made in recent years in international arbitration, in which the United States has taken a conspicuous part, is one of the conspicuous facts of the time that is worthy of more than ordinary consideration.

JEWISH IMMIGRATION. The fact that renewed persecution of the Jews in Russia and other countries of eastern Europe is pretty certain to be followed by an exodus of Jewish emigrants to the United States...

PROJECTED UNION OF CHURCHES TO CHECK THE DIVORCE EVIL. Various Protestant churches seek cooperation with the Roman Catholic for a vigorous campaign against divorce.

It is never too late to arbitrate. Luckily no one has yet dared perpetrate that last summer's joke, "It's cool in Colorado."

Having two members in President Roosevelt's cabinet, Iowa comes in for two visits of the presidential party, catching it coming and going.

A Long-Felt Want. The attorney general of the United States is about to change the anthracite coal trust, and the coke combine should receive similar attention from the government.

Thin Out the Hide. Let us call a halt on the orange growers. Are they breeding and propagating for mind? Oranges now in the market have rinds three-eighths of an inch thick.

Touching Envy's Tender Spot. Chicago Chronicle. It is a curious and not encouraging circumstance that an otherwise unemotional scientist of the Darwinian school can indignantly be stirred up by vituperative fury by hinting that there is a possibility of the existence of a God.

OUR FACTORY OF AMERICANS. Twenty-one years ago we touched high-water mark in immigration, with 750,000 arrivals. It looks as if that tremendous record would be bettered this year.

BLESSÉD ARE THEY THAT MOURN! William Cullen Bryant. O, deem not they are blest alone whose lives a peaceful tenor keep; The Power who plies man has shown a blessing for the eyes that weep.

When Russia starts in to expel the foreign newspaper correspondents we may assume that conditions there are so bad that the Russian government cannot afford to have them advertised to the world.

There is room for employers' associations, and they are capable of great usefulness if wisely planned and conservatively managed. It would in every instance be a mistake, however, to model them on trades union lines or to launch them with proclamations open to criticism on the score of insincerity.

A STRONG PROTEST. Nothing that has been publicly said in the way of protest against the brutal massacre of the Jewish people at Kishineff is more forceful, or will have greater influence, than the address of ex-President Cleveland at the mass meeting in New York City a few nights ago.

Eye Strain and Nervousness. American Medicine. In some cities the nervous child is moving parents and physicians to appeal for fewer hours in the schools and less pressure. We do not much believe in the intellect, the morals or the pedagogics of the coil breakers or the boy breakers.

Driving Out the Blues. Brooklyn Eagle. Cheerfulness is one's own; to one's self as well as to one's neighbors, for nothing so unites one for the ordinary duties of life, or so quickly brings on premature old age, as a morose temper.

Strongest in the World. Surplus \$75,000.00. If I Had Not Opposed Life Assurance. I would not now be working at hard labor to support myself and children; I said a young widow last week—If men were less careless in providing for the unexpected—there would be fewer such sad instances in Omaha—

Among other things embraced in the new amendment to the Colorado state constitution is a provision by which five school districts previously maintained within the boundaries of the city of Denver are to be consolidated into one district.

When one side to a labor controversy refuses the petition of the other side for arbitration the natural inference is that the side refusing doubts the justice of its contention. It is not as if it could not afford to do so, they have said frequently, "There is nothing to arbitrate."

While unreservedly denouncing the persecution of the Jewish people in Russia, Mr. Cleveland pointed out that it is a matter as to which our government cannot properly take any extreme action. Public expressions of indignation those in authority should give attention to, but they are not called upon to make these a subject of governmental protest against an internal wrong under a foreign government which does not directly affect us.
