and bought up everything in sight at much higher prices. The fact that the Kansas City plants were shut down made packers very largely dependent upon Omana and Chicago for their supplies.

The beef steer market was active and could safely be quoted logific higher than the close of last week. All kinds sold freely, as there were evidently not enough cattle in sight to fill packers' orders. In a great many cases sales were made that looked fully 20c higher than the same kinds sold for last week and buyers were calling the market 18225c higher. The cattle changed hands as rapidly as offered, so all the early arrivals were soon disposed of. The cow market was also active and fully changed hands as rapidly as offered, so all the early arrivals were soon disposed of.

The cow market was also active and fully 100m15c higher than last week. Buyers did not discriminate against any class, but bought whatever they could get their hands on at the advance. The bulk of the arrivals was made up of steers and as a result there were not near enough cows to go around. Canners and medium grades joined in the advance with the good to choice

Bulls, veal calves and stags also sold to better advantage today in sympathy with the advance on steers and cows.

The only cattle that did not sell to good advantage were stockers and feeders. Speculators were afraid to buy many, as not much demand from the country is looked for so long as the rain continues. Very few stock cattle were on sale, but the market could best be described by calling it slow and a little lower. Representative sales:

HOGS—There was a big run of hogs here today for a Monday, but so many of them were consigned direct to packers that the actual number on sale was only about normal. Packers, though, were all englous for supplies and as a result the market opened active and 1001125c higher. The bulk of the choice loads selling from \$5.90 to \$5.95, with the choice loads selling from \$5.97% to \$5.05. There was no particular change in the parket from start to finish, as trading was so active that it only took a comparatively short time for all the early arrivals to change hands.

NEW YORK STOCKS AND BONDS.

Market is Yet Under Pressure in Spite of Resistance.

NEW YORK, June L.—The stock market was still under pressure today in spite of some registance by the speculative leaders, notably in St. Paul. The movements in this stock recently have almost served to dominate the market, so that its firmness today naturally had some effect on interest. Its effect was modified, however, by the patent fact that selling was going on eisswhere under this cover and also by the assertions that a large bear account was taking profits on the long decline in St. Paul by covering short contracts for many thousand shares. Short covering was also reported in Rock Island, but with less effect. Reports of damage by the flood affected Rock Island and had a growing affected to the depression became the weakest stock as the present of the selling story. The subscript stock and it sold 2½ below Friday's closing day. The gathering strength in the weak aggravated the depression in this group of railroad stocks. There was renewed liquidation also in a group of stocks which certain shareholders are largely interested in, most of the selling being attributed to orders received from the Canadian cities. Schloss-Sheffield was most conspicuously affected by a drop of 6½ points, the preferred losing 1. Twin City Rapid Transit an extreme 1½. Canadian Pacific 3. Minneapolis. St. Paul & Baults Ste. Marie 1½ and the preferred and Duluth South Shore & Atlantle preferred a point. The leather stocks were heavily sold apparently on account of dissatisfaction with hyperson of the market, There is evidence of continued pressure to sell had a bad effect upon the sentiment and kopt buyers out of the market, There is evidence of some slight demand on concessions and there is much current discussion of the investment return offered by dividend-paying stocks on the declining range of prices. But the pressure to sell had presented to the server of th Market is Yet Under Pressure in Spite of Resistance.

United States bonds were all unchanged on the last call.

The cotton market opened at a decline of 3 points to an advance of 6 points. Quotations were confined to the old crop options and were the result of realizing and selling for short account, while the new crop was sustained by the low temperature noted in western sections of the belt and fears that the floods in the southwest would work down into the cotton country. Following the call trading became slightly more active under demand for later positions, shorts covering and the south sending buying orders, which advanced prices sharply until a level about 4616 points above the closing of last Friday had been attained. Then there was some taking of profits and prices were worked back to nearly the opening basis. Almost immediately there was another rully, however, on the moderate estimates for tomorrow's receipts at leading points; better accounts from New England spinning centers and a slight improvement in the demand for cotton goods.

Exports for the day were heavy and although the port receipts again greatly exceeded last year's the unfavorable crop talk proved the dominating factor, prices being rapidly forced up until a net gain of 4520 points was apparent with September selling to 19.19c, touching a new high level for the season. DES MOINES GETS RELIEF

(Continued from First Page.)

forty miles north of here, has not been interrupted, but its yards and depot in Des Moines are submerged by water and are impassable. The work of clearing the tracks is slow because laborers are in such demand that offers of \$5 and even \$10 a day are

often declined. The Milwaukee and St. Paul is running an occasional train from the outskirts of the city and will be able to run regularly in twenty-four hours. The Great Western started a train northeast this morning and also started one south from the south city limits. The Winterset branch of the Rock Island, the Albia branch of the Burlington, the Osceola branch of the same line and the Wabash cannot hope to operate trains for several days, as their tracks were badly torn up by the flood. An ice and milk famine are the most serious menaces now confronting Des Moines people. Every ice house has been carried away and the only manufacturing ice plant is unable to supply one-tenth the demand. Milk could scarcely be obtained this morning at any price, but this difficulty will not

last more than twenty-four house. The water is receding here at the rate of four inches an hour this afternoon. It is exposing a deplorable condition in the factory and wholesale districts. The loss here will mount up close to a million dollars. The Page Fence company's warehouse collapsed this morning, entailing a loss of \$10,000.

Free Use of Trains.

Governor Cummins received a telegram Northwestern railway this afternoon tendering the free use of trains or employes for relief work.

Ottumwa Under Water, OTTUMWA, In., June 1 .-- With nearly half of South Ottumwa under water, which threatens to take out houses and business blocks, a large part of West and East Ottumwa is flooded and railroad communication cut off, except on the main line of the Burlington. Ottumwa is experiencing the worst flood in the history of the city. The water has backed up in several places,

It is estimated that between 600 and 800 people have been driven from their homes. It is impossible to estimate the property loss. All the people caught in the flooded district have been rescued, with the exception of those in South Ottumwa, where it is believed 106 are in danger, unless there

At a mass meeting \$1,700 was raised for the destitute. The river was rising when he left and no trains were running on the Burlington wast of Ottumwa. The part of the city affeeted by the flood is the southern portion, occupied by packing houses and factories. The water supply is shut off. There had been no deaths reported. Citizens generally were throwing open their homes for the

use of the sufferers.

Flood Near Keokuk. KEOKUK, Ia., June 1.-The crest of the Des Moines river flood reached the Mississippi Sunday night, breaking levees and overflowing the lowlands. The town of Alexandria, Mo., is under water this morning, but no loss of life has yet occurred. Hundreds of houses are surrounded by three feet of water. The government boat was sent from here with men and skiffs to rescue the people from the housetops. It is the worst flood from the Des Moines ever known in this sec-

ELDON, Is., June 1 .- (Special.) -- One fatality from the floods is reported from Eldon. Henry Kunts while trying to rescue his family from the home surrounded by water yesterday was swept down stream together with his wagon and team. The body has not been recovered. Kuntz's house was submerged half way up the door when he attempted to get his family to the home of a neighbor. In driving into the yard the horse became tangled in the wire and floundered in the water. In an effort to save them Kuntz was drowned. Neighbors who witnessed the accident came to the rescue of the family in boats. Kuntz was a married man, 30 years of age. He leaves a wife and four children.

WILL ASK CHANGE OF VENUE State Will Seek Trial Elsewhere in Kentucky's Feud Murder Case.

JACKSON, Ky., June 1 .- The incident of and which came as a surprise was the announcement by Commonwealth's Attorney Byrd at the afternoon session of court that he would ask for a change of venue in the trials of Curtis Jett and Tom White. Judge Redwine indicated that the change would be ordered it had been agreed from the general offices of the Chicago & previously that a special venire would be summoned from another county and the prosecutor had announced only last night that he would not ask a change of venue. The reason assigned is the impossibility here, at 2 o'clock stated that every house of attorneys for the defense and the prosecution agreeing on a special bailiff to per-

> WORK FOR THE COUNTY CLERK Attorney Cites Law Requiring Him to File and Countersign

> > Tax Receipts.

There is more work for the county clerk and an old law which has been honored in the breach for years is again operative in Douglas county. The law was brought to the attention of Judge Dickinson in the trial of a suit in which Mary F. Pollard is seeking to enforce a tax lien against J. N H. Patrick. Attorneys for the plaintiff introduced in evidence the tax receipts for money paid by her as taxes upon property which stands in the name of the defendant The attorney for the defense immediately objected to this evidence, holding that under the state law it was not competent tween the business men who were at either to show the receipt of money by the treasurer. He called attention to section 95 chapter xvii, article i, which provides that no receipt given by a county treasure: shall be accepted as evidence of payment of money to the treasurer unless the receipt be countersigned by the county cierk struments are sheltered in a small building The law provides that the treasurer shall issue receipts in duplicate, both being given to the person paying the money; that the payer shall then take both receipts to the county clerk, who shall place one on file in his office and countersign the other. -There is no record that this law has ever been observed in Douglas county, but under the terms of the statute all tax lien cases must be based upon countersigned receipts CHICAGO, June 1.-One man dead, two It is said at the office of the county clerk others severely injured and 300 employes that if this law is to be observed it will the signing receipts and filing the duplicates.
