(From a Staff Correspondent.) LINCOLN, June 8 .- (Special.)-Probably on June 15 or 16 parties who are interested in the wellbeing and future happiness of William Rhea will meet with Governor Mickey to show the chief executive why Rhea should not be hanged. Rhea was convicted in the lower court and the decision was affirmed, of the murder of a saloon keeper at Snyder. At present he is sented in his behalf. But he hasn't sufficiently learned the doctrine to become reconciled to his fate. It is said of him that he is thinner and paler than is his wont and that as the days drag by he becomes more nervous And the prediction is made that if Governor Mickey does not interfere that Rhea will not go to the scaffold with the same coolness and unconcern that characterized Nieginfind, the fare for whose ticket of exit Warden Beemer and the Board of such a time over. Session Laws Late.

The session laws, which should have been out by this time, will probably come from the printers about July 1. The cause of the delay was the slowness of the State Printing board in letting the contract. In the meantime State Superintendent

Fowler has received from the printer his "School Laws and School Land Laws of Nebraska, as revised and amended in 1962 with explanatory notes, citations, supreme court decisions and official decisions of the state superintendent, for the use of school officers.
