Grain Pits on Board of Trade Rule Quiet, but Close Firm.

GOOD WEATHER BREEDS SELLING ORDERS

Provisions Are Dull and Featureless All Day, Prices Finally Going Up from Nickel to Seven and Half.

CHICAGO, June 9.—Business in the grain and provision markets was rather quiet today, but closing prices were firm, July wheat being up ⅛c, July corn ¼c higher and oats also up ¼c, while September provisions were from 5@7½c to 7½c higher.

There was quite general commission house selling of wheat at the opening, due to the improvement in weather conditions and the initial sales on July were unchanged to ⅛c lower at 75¼@75⅜c. There was little feature in the early trading, liquidation by thousands and selling for short account being most noticeable. The general fear was that the government report would show more favorable conditions than expected, and this caused much of the selling. A better feeling was displayed the last half of the session and the commission houses bought quite freely, while there was also covering by shorts, which advanced prices. The close was firm with July ⅛c higher, at 75¾, the top figure of the day. Clearances of wheat and flour were equal to 153,300 bu. Primary receipts were 261,600 bu., against 265,500 bu. a year ago. World's visible supply, according to Bradstreet's, showed an increase of 107,000 bu. Minneapolis and Duluth reported receipts of 280 cars, which, with local receipts of 46 cars, 2 of contract grade, made total receipts for the three points of 494 cars, against 575 cars last week and 150 cars a year ago.

Generally favorable weather conditions brought out a considerable selling pressure in corn at the start, the opening prices being easier. Country acceptances were better than expected, and this, together with the lower cables, was partly responsible for the early depression. There was a fair demand from the commission houses throughout the day which prevented any serious decline, and later in the session, on an added demand, the market became firmer. After selling between 47½c and 48⅛c, July closed ¼c higher at 48⅛c. Local receipts were 47 cars, with 12 of contract grade.

Oats were influenced some by the favorable weather, but the most important factor was the selling of a good sized line of September by a prominent holder. While the feeling in general was quite bullish, traders were indisposed to do much business, the uncertainty regarding the coming government crop report being the restraining influence. July closed ¼c higher at 36⅛c, after selling between 35⅞c and 36⅛c. Local receipts were 300 cars.

Trading in provisions was exceedingly dull and without any features. An advance of 10c in the price of hogs had a strengthening influence early in the day and, although there was some liquidation late in the day, most of the gain was retained. September pork closed 7½c higher. September lard was 5@7½c higher at $8.99, and ribs were up 5@7½c at $9.22½@9.25.

Official receipts yesterday were: Wheat, 15 cars; corn, 200 cars; oats, 90 cars; hogs, 36,000 head.

The leading futures ranged as follows:

WEARE GRAIN COMPANY.

Omaha Branch 110-111 Board of Trade Building.

CHICAGO, June 9.—WHEAT—The market was weak early on the increase in the world's visible of 107,000 bushels, compared with a decrease last year of over 4,500,000, but recovered later on the announcement that the Illinois weekly crop bulletin was bullish on winter wheat and in sympathy with the closing firmness in coarse grains. The close approach of the government report tended to make the market a small and "waiting" one. The feature has been a demand for the July and an inclination to do all the selling in September. The St. Louis and Duluth markets dragged. Cables were a fraction lower and the cash demand has been quiet everywhere. Clearances of wheat and flour were 152,000 bushels. The contract stock, 2,867,000 bushels, decreased 208,000 bushels. Local receipts were 46 cars, with 2 of contract grade; estimates for tomorrow, 45 cars.

CORN—Prices lost ¼c early and there was some selling of July credited to the leading holder, but toward the close there was local buying and the early dip was recovered. Cash market was slightly easier and the eastern demand slow. Local receipts were 147 cars, with 12 contract grade; estimates for tomorrow, 200 cars. Clearances, 242,000 bushels. The contract stock, 267,000 bushels, decrease, 198,000 bushels; east of Rockies, corn increased 1,485,000 els; east of the Rockies, corn, 1,485,000 bushels. The Illinois weekly crop bulletin is reported as bullish on corn. We have it from a reliable grain dealer in Nebraska who manages an extensive elevator system that not to exceed 70 per cent of an average corn crop has been planted and that as much as 30 per cent of this has been washed out by floods. In spite of the improvement in the weather, which has been the dominating factor of late, corn closed strong with a firm undertone. We believe it a good purchase on all setbacks such as today's.

OATS—The market opened ¼@⅜c lower on good showers in the east and improved weather west, but recovered toward the close in sympathy with wheat and corn. There was some selling of September and December by Patten in a moderate way, but the trade as a whole was without importance. Local receipts were 500 cars, with 27 of contract; estimates for tomorrow, 90 cars. The Illinois weekly bulletin says there has been considerable improvement in oats. Eastern demand was slow; clearances, 8,000 bushels. The stock of standard, 386,000 bushels, decreased 7,000 bushels.

PROVISIONS—The market has been steady on the advance of 10c in hogs. There has been some buying of ribs credited to Armour as it was taken for granted that the packers were not changing their position, but adding to rather than lessening their interests. Western receipts continue small on account of floods, only 43,000 head, against 7,100 head last year. Estimates for tomorrow, 38,000 head.

NEW YORK STOCKS AND BONDS.

Prices Fluctuate Exceedingly, Closing at Month's Lowest Average.

NEW YORK, June 9.—Today's stock market went through an extraordinary series of fluctuations, closed at the lowest average on the present month and in a semi-demoralized condition. This was after prices had been rallied to above last night's level, the second rally establishing substantial net gains in a number of active speculative leaders. St. Paul rose 2¼ over last night, Missouri Pacific 1¾, New York Central 1½ and Pennsylvania, Union Pacific, the Atchisons and Wabash preferred about a point. There were important examples also among the industrials, showing gains of a point and the whole market was a substantial fraction above last night. The large buying on the advance gave the rally a more impressive appearance than anything that has occurred during the present decline, and the conviction of the floor seemed fairly general that the market had turned upward at least temporarily. The result was due in part to large operations in professional cliques which planned the demonstration on the assumption that the short interest in the market might reach unwieldy proportions and must be vulnerable to attack. There were, in fact, evidences of alarm among the bears and large buying developed to cover shorts. The demonstration was aided by the published opinions of some important leaders in the financial world, as many stocks at their present level were selling below their intrinsic values. It has been evident for several days that there was absorption of an influential character in several points on the list, notably St. Paul, Pennsylvania and New York Central. Reports from accredited sources sustained the belief that responsible financial interests stand ready to take over all available offerings of Pennsylvania at or about the price which the recent new issue of stock was issued to the stockholders for control, and that they formulated this purpose in a definite offer to the underwriting syndicate to take the new issue of stock off its hands. Such a state of affairs is calculated to buttress Pennsylvania stock. There were some fears among the bears on that account to cover their short contracts. The strength in the market, therefore, became quite general. It was not until near 2 o'clock that the advance culminated. At that time it became evident that the higher level of prices was being used as a basis for renewed liquidation and the market crumbled until the close, the fall gaining momentum as it proceeded. The force of the selling centered on Baltimore & Ohio and Norfolk & Western, the former falling an extreme ⅝ and Norfolk & Western 3⅝. The failure of so promising a movement toward recovery redoubled the discouragement on all hands and heavy selling was renewed in Atchison down to a new low level on this movement at 65½, Union Pacific to 78⅜, Reading to 43⅜, Erie to 30⅞ and United States Steel preferred to 79⅝. Northern Securities also sold down to a new low level on the curb. The source of selling was a mystery, but it was quite commonly attributed to further calling of loans by some large capitalists and the consequent forcing of liquidation. Selling for Boston and London account were in first on the weakness. There was little in the way of news developed beyond a renewed outbreak of the wild speculation in cotton in which Wall street was reported to be on the short side, and a further hardening of the time money market. Transfers of currency to New Orleans and reports of a new demand from San Francisco had rather an optimistic influence on feeling over the money outlook.

The bond market shared in the weakness of stocks, but in only a moderate degree. The total sales, par value, $1,985,000. United States 2s and 3s advanced ¼ per cent on the last call.

Foreign Financial.

LONDON, June 9.—Money was fairly abundant in the market today and the demand was moderate. Discounts were steadier on the increase in the Berlin bank rate yesterday from 3½@4 per cent, lessening the prospect of a reduction on the Bank of England's rate Thursday. Operators on the Stock exchange were largely occupied with what it was feared would be somewhat difficult settlement. Although the tone was rather less depressed and gloomy than yesterday, pessimism generally prevailed. Americans and Kaffirs were practically demoralized, genuine holders, especially of Kaffirs, tired of waiting for the long overdue advance, unloading considerable stock at a moment when the big houses are apparently unwilling to support prices. The American situation caused increasing nervousness throughout the day on account of a number of professionals, in order to make good their losses in Americans, being forced to sell other holdings. Consols weakened on realizations. Home rails reacted. Americans opened below parity, but later were rather steadier on a cessation of forced selling. The undertone was weak, but prices closed slightly firmer. The amount of bullion taken into the Bank of England on balance today was £10,000. The sum of £20,000 was withdrawn for shipment to South America.

PARIS, June 9.—Business opened dull on the bourse today, but there was a general improvement later and at the close prices were fairly firm. Three per cent rentes, 90f 40c for the account; exchange on London, 25f 17½c for checks.

BERLIN, June 9.—Prices on the bourse today were firm and business was quiet. Exchange on London, 20m 44pfg for checks. The weekly statement of the Imperial Bank of Germany shows the following changes: Cash in hand, increase, 20,600,000 marks; treasury notes, increase, 520,000 marks; other securities, decrease, 48,300,000 marks; notes in circulation, decrease, 41,940,000 marks.

Cotton Market.

NEW ORLEANS, June 9.—COTTON—Firm, sales 2,200 bales. Ordinary, 9 13-16; good ordinary, 10 9-16c; middling, 12 5-16c; good middling, 12 13-16c. Receipts 1,314 bales. Stock 72,331 bales. Futures firm. June, 13.20c bid; July 13.50c bid; August, 12.98@13.00c; September, 10.93; A, 10.44c; November, 9.44c; December, 9.50c; January, 9.50@9.52c.

NEW YORK, June 9.—COTTON—Opened firm at a decline of 1 point to an advance of 12 points under firmer cables and continued scarce of July shorts. It was one of the most nervous and excited openings of the season. On the call July sold first at 11.85c, went to 11.86c, 11.88c, then jumped to 11.92c and sold at 11.95c, with later months more active and no less excited. August sold at 11.30c, September at 11.34c, October at 9.72c and December at 9.60c. The receipts for the day were moderate, further showers were reported over the cotton belt and Liverpool which sent the disappointing responses to our advances on the old crop months yesterday, showed further strength. Notwithstanding this, there was tremendous realizing and July declined to 11.78c, August to 11.18c, September to 10.30c, and October to 9.70c. The strength in New Orleans reacted again and orders begun to come in from that center while the profit-taking by the longs had about run its course. Shorts began to cover and by midday prices were net 5 to 25 points higher. At this level the weekly report of the weather bureau was read and the trading became the wildest of the session and even wilder than at any time this season. The general list at this time showing a gain of 12 to 33 points over the sensational advance of yesterday. Throughout the entire afternoon there was no material decrease in the activity and while there was an occasional narrow recession the market continued its upward career until July sold at 12.27c, August at 11.81c, September at 10.67c and October at 9.90c. At this level the market was 11 to 46 points above the closing of yesterday and 19 to 101 points above the lowest level of yesterday. Such profits as this naturally attracted heavy realizing and the active months broke sharply, the market closing irregular and unsettled, net 8 to 28 points higher. July was finally quoted at 12.15c, August at 11.66c, and October at 9.80c. The New Orleans, on the contrary, closed at about the best point of the session, with July quoted at 13.50c. Liverpool closed net 14½@15½ points higher on the old crop and 5@8 points higher on the new. Spot cotton in New York was advanced 50 points, to 12.40c, with sales of 188 bales reported to spinners. Total sales futures 800,000 bales estimated.

ST. LOUIS, June 9.—COTTON—Quiet, ⅛c higher; middling, 11⅝c. Sales, none. Receipts, 6 bales; shipments, 6 bales; stock 5,583 bales.

LIVERPOOL, June 9.—COTTON—Spot in limited demand, prices 16 points higher. American middling fair, 7.02d; good middling, 6.62d; middling, 6.66d; low middling, 6.46d; good ordinary, 6.22d; ordinary, 6.02d. The sales of the day were 5,000 bales, of which 500 were for Spain and export and included 4,200 American. Receipts, 1,000 bales, including 200 American. Futures opened and closed firm. American middling good ordinary clause, June 6.42@6.43d; June and July, 6.37@6.38d; July and August, 6.33d; August and September, 6.17@6.18d; September and October, 5.65d; October and November, 5.30@5.31d; November and December, 5.18@5.19d; December and January, 5.16d; January and February, 5.15d; February and March, 5.15d.

CATTLE—There was quite a liberal run of cattle here this morning, but none too many to meet the requirements of the local trade. Buyers were all out early and the market was active from start to finish and the bulk of the arrivals was disposed of before the middle of the forenoon.

Beef steers made up by far the large proportion of the receipts, the same as has been the case for some time past. The market opened active and strong and some of the more desirable grades sold at prices that looked 5@10c higher than yesterday. As high as $5 was paid for a prime bunch of cattle weighing 1,660 pounds, and for another bunch weighing 1,478 pounds. All kinds of cattle, the heavy as well as the handy weights, sold to good advantage and an early clearance was made. The bulk of the fair to good steers now coming forward are selling from $4.40 to $4.65, with choice grades from $4.70 to $5. The common cattle sell largely from $4 to $4.25.

The cow market was also active and strong. Receipts were again very light, so that practically everything was disposed of at an early hour. Buyers all had liberal orders, and there did not seem to be near enough cows and heifers on sale to fill their requirements. There were quite a few extra choice cows and heifers included in the receipts, and as there is a good demand for choice stuff very satisfactory prices were paid. The bulk of the fair to good cows sell from $3.25 to $4, with good to choice largely from $4 to $4.25, with fancy grades from that up.

Bulls, veal calves and stags all sold in about the same notches they did yesterday.

The supply of stockers and feeders was very limited this morning, and as there was some demand from the country yesterday anything at all decent met with ready sale at fully steady prices. Representative sales:

HOGS—There were over 10,000 hogs on sale this morning, but there was a brisk local demand, and besides that there were several liberal shipping orders. As a result the market was active and generally a nickel higher. The long string of the hogs sold at $5.85, with the bulk of all the sales going from $5.82½ to $5.87½. The choice heavy hogs sold from $5.87½ to $5.95, while the lightweights went from $5.82½ down. There was very little change in the market from start to finish, so that all the early arrivals were out of first hands in good season.

Today's advance carries the market back to where it was on Thursday of last week. Representative sales:

SHEEP—There were only about 400 head of lambs on sale today and those were driven in. They sold at $5.75 and were only just fair in quality. There were no sheep at all on sale, so there was not enough business done to tell much about the situation. In Chicago there were only 8,000 and the market was quoted steady to strong and packers claimed that they would have paid good steady to strong prices here for anything decent.

Quotations for clipped stock: Choice western lambs, $6.25@6.75; fair to good lambs, $5.25@6.25; choice western wooled lambs, $6.75@7.00; fair to good wooled lambs, $5.50@6.50; choice lightweight yearlings, $5.50@5.75; fair to good yearlings, $5.00@5.50; choice wethers, $4.90@5.10; fair to good wethers, $4.50@4.90; choice ewes, $4.25@4.50; fair to good ewes, $3.50@4.25; feeder lambs, $2.50@3.50; feeder yearlings, $2.50@3.50; feeder wethers, $2.50@3.50; feeder ewes, $2.00@2.75. Dry Goods Market.

NEW YORK, June 9.—DRY GOODS—Show no signs of increased activity, but, on the other hand, purchases are conservative and buyers show little desire to operate for their future needs. Buying has been fair and with reports of moderate business the jobber is naturally inclined to operate with conservatism.

STORY FROM COMMISSION ROW

Aristocratic Texan Potatoes Arrive in Town with Some Show of Haughtiness.

A car load of haughty young texan potatoes rolled into market yesterday, the new comers being of the pink-blooded bliss-triumph family, who expect to find ready and permanent engagement in this city at 3 cents per. Bliss-triumph is a double barreled expression of the potato's attitude this spring toward the other vegetables with which it associates. The old line white potato is on the bum just now, the southern pinks being about the only new representatives of the spud on the market. The local have been too busy being planted to do anything yet, and the Kaw valley, where perhaps the largest number of little whites come to a hill and go out in the world, has not yet been towed ashore along the Gulf coast. So the potato will continue an aristocrat. The Texans have had as much trouble with water as is usual with Texans and the first delayed lot came through Saturday in their ark. Some pale-faced Californias will be in soon.

Nebraska strawberries are rolling in with exceptional strength and on account of cheapness of production will get the price down again in a few days. The oranges on the market have shown commendable business enterprise during the period when fruits prices have had to go so high to keep out of reach of the water, and coming in from the western highlands have been able to beat almost everything else to the breakfast table, getting there before the mush and pickles. New apples are expected to come up from the south in a week or two. Meanwhile the last of the crop, which has been hard at work through the winter, is anxious to retire at $4.50 or $5 a barrel and go into private life.

WILL REPORT ON SINECURES

Real Estate Exchange Committee Investigating Some Matters at City Hall.

At the meeting of the Real Estate exchange today a committee consisting of W. T. Graham, Ernest Sweet and D. V. Sholes will report on the question of sinecures at the city hall. The matter was referred to this committee two weeks ago and would have been reported on last week, but the visit of the city officials, who were invited guests at the meeting, made such report out of order. The matter to receive particular attention is the deputies to certain appointive officers, notably the deputy license inspector and the deputy building inspector. It has been reported by one of the elected city officers that the principal duty of the deputies is to draw pay. The exchange wants to learn the facts. The committee is making an investigation in order to complete its report, and while it will probably have no recommendation to make to the exchange, it may have some suggestions. So far no member of the committee has intimated the results of the investigation and this will not be done until the report is made.

YOUNGMAN MAY FEEL EASIER

His Former Wife Withdraws Petition to Have His Divorce Decree Set Aside.

Mrs. Jennie L. Youngman yesterday withdrew her petition in the case of James D. Youngman against Jennie L. Youngman, in which a divorce was granted the plaintiff a few months ago, and by so doing relieved her former husband of considerable trouble. According to the petition filed by the defendant in the case, after the divorce was granted the defendant, before the expiration of six months from the granting of the decree, went to Iowa, where he again married. Mrs. Youngman then moved to set aside the decree granted, alleging irregularities in the service had upon her. Had her petition been granted Youngman would have found himself the husband of two wives and subject under the Nebraska law to punishment for that offense.
