BOUND ABOUT NEW YORK.

Ripples on the Current of Life in the Report of the Coal Strike Commission Metropolis.

The deadlock in the building trades in New York City since May 5 is estimated to have cost in wages alone \$14,000,000. Be tween 110,000 and 120,000 skilled mechanics 4,000 helpers, \$,000 iron workers, 3,000 elec trical workers, besides boiler makers, machinists, marble workers, tile layers, glaziers and 50,000 unskilled laborers.

The shut-down in the moantime is est mated to have tied up \$200,000,000 of capital, has retarded work on the schools and made conditions under which many owners and ntending occupiers of new buildings are bound to lose money. There are 2,000 build course, charitably interpreted as "de- ing contractors involved in the present trouble whose loss of profit, rents and other expenses are said to figure up between \$7,000,000 and \$8,000,000.

Several millions of dollars are estimated and figures it was cheerfully disposed to to have been hopelessly lost by enterprising merchants who had hoped to occupy buildings at a given time, so as to catch a certain class of trade. Small storekeepers whose sole custom is that of workingmen funds was deemed necessary. Inferen- are beginning to lose heavily. In a great many cases they have been paid from week to week and now they are keeping their customers on credit so as to hold their custom until the shut-down ends. Many failed to editorially commend the editor of their customers have gone to other cities of The Bee when he mailed more than for work, in which case the debts of the customers are little likely to be recovered The strike, it is estimated so far, has cost employers, employes and others in the neighborhood of \$25,000,000, including the losses of persons indirectly affected.

Of all the public buildings which are seems as if hotels are the most numerous. that it is an interstate corporation sub- entitled to be classed ahead of hotels in ject to federal control, if to any control the matter of numbers, but to this it may at all. Extraordinary Extremes. · Philadelphia Record.

It required many days of rain to raise the great flood which has wrought such destruction down the Kansas, Missouri and Des Moines rivers, and which, still on its way to the sea, is overflowing town and country southward from where the Missouri joins the Mississippi. But less than one night of rain caused the flood that has destroyed, in and around Spartanburg, S.

C., about as many lives and nearly as much property as did the Kansas or Kaw river flood at Topeka. More destructive of life than either flood was the tornado which leveled a part of Gainesville, Ga. last week in shorter time than it takes to tell. It has already proved a year marked by extraordinary extremes in the manifes tations of atmospheric forces. The northeastern states, with their drouth now passing beyond all recorded precedent for this season of the year, are not worse afflicted

than some other parts of the country are in other ways. WHY PEOPLE FEAR THE TRUSTS.

Bedrock Basis of Popular Dread and Suspicion.

Saturday Evening Post. Regiments of arguments for capital

trusts and labor trusts are hurled at the people of this country, but they continue to be suspicious, continue to listen attentively to anyone who comes forward with a plausible "remedy" for what the trust advocates say is not disease but a national development of healthy growth. What is the reason for this tenacious, not-to-bereasoned-with popular instinct? answer is "popular ignorance." But that is as shallow as it is easy. Analysis discloses the truth, the bedrock basis for popular dread and suspicion. It is expressed

The people of this democracy know that their liberty rests upon equality, that in our social scheme no man and no group of men is permitted to have irresponsible, unendable power The corporation has al- tim explained. ways been sharply watched by the people it looked like a something posbecause seased of real power. The combination that amazing expansion of the corporation idea, is suspected and dreaded because it is obviously a depository of genuine power -the brains and muscles and capital of

thousands intrusted to one man who is in no way responsible to anyone or checked by anyone, so long as he earns dividends and interest, no matter how. And for obvious reasons this applies equally, will

"No other depositories of power than the people themselves," says Jefferson, "have ever yet been found which did not end in of an eight-story building of 164 rooms, and converting to their own profit the earnings still have a number of its overflow bureaus of those committed to their charge." And this the people believe-and can't be reasoned out of by plausibilities or philan- before the Department of Comme ce and

Another somewhat novel feature of the

> who, their shopping over, stop here again they do in this country, will live on the and get the shoes to carry home, repaired. | fat of the land. The whole business of repairing shoes

while you wait is comparatively new. It has all sprung up within twenty years. The first shop of the kind in New York was in the Bowery, with a man at work in the window while others were seen busy inside. Chairs and newspapers were provided for the waiting customers, whose shoes the busy shoemakers were at work

This shop, as a novelty, was described in the newspapers. Now there are in this and in other cities, too, many shops in which men's shoes are repaired while you walt, quite as a matter of course; what was once a novelty having now becom a regular feature of the business

The repairing of women's shoes in this manner is something still comparatively novel here. The concern in this city that mends women's shoes while you wait has a branch in Buffalo and another in Rochester At its Rochester branch it has been mending women's shoes in this way for years.

> It is possible to overdo a good thing. An enthusiastic supporter of the crusade against mashers was pulled into court recently charged with assault. Replying to the questions of the judge the would-be gallant said:

"Yes, I struck him, judge; any gentleman would have done the same thing. He was making 'goo goo' eyes at a woman passenger, and I did not propose to let a man insult a woman who happened to be without a male escort."

"I didn't insult any lady. This fellow struck me without a word of warning. We had no dispute whatever. He just stood sponded the victim.

"I saw him ogling a woman who sat in a cross seat some distance away. He chirped to her to attract her attention and acted like one of those mashers you hear

about." went on the assallant "It was my wife who sat in the cross

to one of the pictures in the car." the vic-"I don't believe she is your wife," the as

"Here she is." rejoined the victim, as he

beckoned to a woman who stepped upon the bridge and said she was his wife. "Well, I only wanted to act the part of a chivalrous gentleman and protect wom from insult," the assailant declared. An apology satisfied the court and the

When we read that the Department of Commerce and Labor will occupy the whole accommodated elsewhere, it makes us wonder where and how all this work was done Labor went into business.

IF FOLKS WERE ALWAYS GOOD.

Bomerville Journal

This world would be a pleasant place If folks were always good. And all the people, young and old. Did always as they should: But what would the policemen do. If nobody did wrong? They'd surely have to go to work. For they are well and strong.

And all the judges in the courts, And all the judges in the courts, They'd lose their places, sure, And all the ministers would find Their jobs would not endure: For all their preaching would be thought Unnecessary, quite. If no one in the world did wrong, And everyone did right.

And countiess other people, too, Would find that they must change Their daily occupations, and Their new lives would be strange. The lawyers, watchmen, locksmiths-yes, And hosts of others would Most certainly be out of date, it follow were always good! Most certainly be out broadi If folks were always good!
