Unexpectedly Bearist Oron Report Causes Wheat to Weaken on Board of Trade.

CORN AND OATS ARE NOT AFFECTED

Prices Increase Slightly, While Provisions Drop as Result of Small Business Offering, Though No. Weakness Develops.

CHICAGO, June II .- A rather bearish crop report where a bullish one had been expected caused weakness in wheat today and July closed '4c lower. July corn closed 1464c higher and oats were up 14c, while September provisions closed from 24c to 5c lower.

The government crop report showing the condition of wheat up to June 1 was a great disappointment to the buils and was the cause of a considerable decline in prices. At the opening there was a disposition among tracers to regard the outlook as somewhat buillish and the market at the start was inclined to firmeass. With July 16 as somewhat builts and the market at the start was inclined to firmness, with July is thick lower to is 10 to high the higher at 75% 276c, but as the day progressed the feeling gradually changed and commission houses became liberal sellers. Outside markets were weak, especially St. Louis, and with selling by the especially St. Louis, and with selling by the northwest and so thwest and by longs on stop-loss orders, the market inclined to the selling pressure and declined nearly a cent. July selling off to 75½c, after touching 76½c soon after the opening. During the last hour shorts were active buyers, which caused an upturn in prices and much of the early loss was regained. The close was steady, with July ½c lower at 75½g75½c. Clearances of wheat and flour were equal to 78,000 bu. Frimary receipts were 254,600 bu. against 20,300 bu. a year ago. Minneapolls and Duluth reported receipts of 17 cars—none of contract grade—made total receipts for the three points of 210 cars, against 138 cars last week and 179 cars a year ago.

year ago. Corn was firm early in the day on un-

Corn was firm early in the day on unfavorable weather, but there was plenty for sale on the advance and prices declined. The selling was led by a prominent provision interest, with smaller longs following the lead. The demand was largely from shorts who took profits. The selling was less urgent late in the day and the market railled, the early loss being all regained. The close was firm, with July \(\frac{\pi}{\pi}\) \(\frac{\pi}{\pi}\) engage of higher at \$\frac{\pi}{\pi}\)c. after selling between \$47\)c and \$\frac{\pi}{\pi}\)c. Local receipts were \$245\) cars, with \$6 \text{of contract grade.}

There was free liquidation in oats during the first hour on the bearish crop report, which caused a reaction from the opening firmness, but during the latter part of the day there was a good demand for July, which caused a sharp upturn. The close was strong and near the top, July being \(\frac{\pi}{\pi}\)c higher at \$75\c. after selling between \$58\c. and \$37\c. Local receipts were \$15\c. cars.

There was little trading in provisions and after a rather firm opening in sympathy with grains the market eased off and held steady the remainder of the day. September pork closed \$5\c. lower at \$16.80\c. September lard was \$2\c. disc lower at \$16.80\c. September lard was \$2\c. disc lower at \$18.502\c. 27\c. Estimated receipts for tomorrow: Wheat, 20\c. cars; corn, \$40\c. cars; oats, \$15\c. cars; hogs, \$15.000\c. bead.

NEW YORK STOCKS AND BONDS. Spasmodic Readjustment Brings Prices to Better Level.

NEW YORK, June 11.—There was a spasmodic readjustment of the price level of stocks at the opening this morning, which was continued during the rest of the session in a more orderly and steady manner. It was evident that the principal came from vectored bears for demand came from uncovered bears for the short account and there was the same lack of account and there was the same lack of account news to explain the persistent weakness been to explain the persistent weakness of the market for some time. It became instantly apparent, however, with the sail of the president's gavet this morning that much of what has been regarded as urgent and forced liquidation yesterday more especially, was a deterring operation on the short side of the market. The specificative forces in the market seemed to have reasoned themselves over night, as a part of the seemed to have information of what was awaiting them and the opening looked like a bear panic. Simultaneous transactions in many thousand shares were made at widely divergent prices. In Atchison, after one sale of 600 shares at 45%, 11,600 shares were sold at varying quotations from 80 to 87, the excited brokers paying this range of prices in different parts of the crowd at the same instant. In many of the other stocks which have been under most pressure lately, prices ranged up at the opening with a rush all the way from 1 to 3½ for the leaders. The principal trading and the most notable movements of the day were in Atchison, Ealthouse, Ealthou

SHEEP—There were about 2,000 head reported this morning, but they were late in arriving and in fact there was nothing on sale until noon. Packers, though, were very anxious for supplies and buyers were waiting for the trains to come in. Everything sold as soon as offered and the prices paid were just about steady. Some of the same lot of sheep and yearlings that have been selling here for \$4.50 brought the same price today. Some clipped lambs of common quality sold for \$5.25, which was also considered about steady. It is very evident that all the packers are getting hungry for good stuff.
