CHICAGO, June 12.-The strike in the hotels of Chicago, impending for the last three weeks, materialized today and twenty-five of the leading hotels of Chicago are tonight badly crippled in all departments. All of the hotels are running, however, and the proprietors declare that the establishments will remain open for

business at any cost. hotels to go on strike was made by the last November were quashed by the paswalking delegates at 9 o'clock this morn- sage of the amnesty law. ing and all day the delegates have been visiting the different hotels represented in delegates were refused admission and were no need to make a call on the men to go out, the hotel proprietors telling the help it would be necessary to get out and stay out until the trouble was over. The last hotels in which the strikes were declared were the Virginia, the Great Northern, the Brevoort and the Union. The men in these places walked out tonight.

### List of Hotels Affected.

The complete list of houses in which the employes have left follows: Auditorium, Auditorium Annex, Sherman house, Grand Pacific, Stratford, Palmer house, Briggs house, Bismarck, Kaiserhof, Thompson, Victoria, Wellington, Lakota, Chicago Beach, Del Prado, Vendome, Hyde Park, Windermere, Metropole, Kenwood, Holland, Great Northern, Virginia, Brevoort,

The Lexington hotel signed the scale presented by the union five minutes after the help had been called out.

The Employers' association, representing more than fifty hotels, including all the prominent hotels of Chicago, held a meeting this afternoon and gave out a statement, in which they review their efforts to bring about a settlement of the contro-This statement says:

hotel employers, individually and hotel employers, individually and hotel association, have offered to long interested arbitration of all the upon the question of union arbitration upon the question of union recognition. The hetels even agreed to submit to arbitration the question of union recognition as advanced by the unions themselves. The various unions of hotelemployes, as represented by their respective heads, have stated that the only arbitration they would consent to would be the arbitration of their own board and have also stated that before they would entertain any negotiations further with the hotelemployers, they, the union board, should first determine hours and wages and also that under no circumstances would they consider the question of freedom of employment even if the hotel men agreed to exploy union labor where it was available. The hotels where strikes have been decisted are not closed. While they are discommoded and naturally handicapped by the calling of the strike, they are open and will continue to take care of their guests to the best of their ability. The situation as it stands is the guests will be provided with rooms and accompanying accommodations and sufficient food to take care of with rooms and accompanying accommoda-ions and sufficient food to take care of

## Indications of Hard Fight.

There is every indication that the strike will be hard fought. The hotel proprietors declare that the demands made by the men are unreasonable and the unions claim to have not been fairly treated by the proprietors in that the proprietors agreed to treat as individuals with the unions and have not done so.

The proprietors have agreed to submit every point at issue to arbitraion, but to this the unions will not consent. The unions insist upon the absolute recognition of the union. To this latter demand the proprietors say they will never agree so long as the strikers maintain their present attitude. The unions also demand that the at Azoff June 8, as a result of the collapse members of the Hotel Keepers' association come to the office of the employes' association as individuals and not as members of Bry association.

The strikers today made efforts to diversupplies from the hotels, but were not succeasful to any great extent. The employes have hopes of bringing to their aid the members of the teamsters and engineers unions in order to keep food out of the hotels and to deprive the hotels of a supply of hot water. Present prospects are that hopes, for President Young of the teamsters' union declared tonight that his organization would not declare a sympathetic strike in aid of the cooks and waiters because the latter placed themselves in the wrong in refusing to accept the offer of ar bitration made by the proprietors.

the same declaration, and added that the each engineers would remain on duty no matter if an effort would be made to run the hotels with nonunion help. Officers of the Chicago Federation of

Labor gave similar views.

Quiet Up to Present.

Tonight pickets surrounded every hotel be which strikes have been declared, and police are patrolling the sidewalks around the buildings. So far there has not been the slightest evidence of disorder.

When the men waiked out of the Palme house this evening some exuberant waiters turned loose with yells and whoops and tumbled a few dishes on the floor before as the result of an explosion of a large leaving. The police were hastily sum-

moned, but there were no arrests. Tonight all of the hotels are open as usual, and the proprietors are confident they will be able to care for all the guesta that may arrive. Several proprietors have imported help from outside, and say they

can secure more whenever they need it. A telegram was sent tonight to Presi-Gompers of the American Federation of Labor asking his assistance in settling the strike and a reply was received from

Belleville Cars Are Stopped by Water, While Brondway is Gradually Giving Way Before the Persistent Current.

### Weather Bureau Bulletin.

The Mississippi river at St. Louis he fallen slowly since Thursday morning, the gauge this morning reading 27.5 feet, a fall of 0.33. The rise continues slowly, but the crest will probably be reached at Cairo to-night or Saturday.

ST. LOUIS, June 12.-The river continue to fall steadily, but the weather bureau reports that those who expect to see a sudden decline will be disappointed. If the river falls at the same rate that it fell in 1892, when there was a heavy flood, the levee will be covered for a month yet. Two teamsters today swam the swollen Mississippi on a wager of 25 cents, made with Gus Baum. The three were viewing the river and the bet grew out of a discussion as to the force of the current. The two gave most of their clothing to Baum, who took a street car across the bridge and met the winning teamsters on the Illinois side. The teamsters swam across in an hour.

The heavy pressure of water against Broadway in East St. Louis will probably finally destroy a large section of that street. In some places portions of the street have caved in and tonight a large section near Eighth street went down, but the the federal judiciary. I am sure he will fill street car tracks still hold the street from the place acceptably." street car tracks still hold the street from giving entirely away. Even if it does break the result will be simply that the water is let through to Missouri avenue, a parallel street one block north. The water is seeping through Broadway steadily and in large quantities and must finally completely inundate all that portion of the city

At 7 a. m., when the official observation was made, the river had fallen slightly, more than an inch since midnight, and stood at 27.6 on the gauge, since when it has remained stationary.

The flood is declining slowly, but with the falling river above and no indications of rain the prospects for relief to the territory in this vicinity and north for hundreds of miles, covered with a great body of water, seems near.

Lansdowne, the northeast suburb of East St. Louis, is flooded by water from the reservoir at Hunter's Switch. At 8 o'clock this morning water was from six to twenty inches deep all over the suburb and rising rapidly. A swift torrent is running under the trestle at Lake Station, meeting the back water from the south and spreading over Winstanley suburb, south of Rock

At midnight last night the East St. Louis and Suburban company abandoned its car sheds at Rock Road and the terminal belt. The cars there were taken to sheds at the bluffs. At 1 o'clock this morning 200 men and a supply of sacks were hurried out to the bell tracks at Lansdowne. Weaken Empire White Strength. By anybrenk a levee of dirt bags three

feet high and two feet wide extended along the tracks for 300 yards opposite the flood suburb.

If the water continues the rise at the present rate the fight for the north part of East St. Louis will be made at this point. Water Scoks New Yevel.

The extent to which East St. Louis is to be submerged depends entirely upon the level which the water, coming in from the east and northeast will have to reach. It is now flowing along the lines of least resistance, seeking its own level. No effec tual resistance can be made to it. It wil continue to advance and aubmerge the territory in its path as long as this territory is lower than the level of the water at the point at which it pours through the Vandalia and Baltimore & Ohio embank-

ments, west of Caseyville. The water has crossed the Louisville & Nashville railroad two miles east of the Belt Line. During the night it reached the St. Clair turnpike, over which runs the East St. Louis and Suburban Electric Electric railway to Belleville.

This morning it had spread over the low ground between Lake Bridge and the Jerome farm house and was pouring through a culvert a short distance west of Jerome, filling the space between the turnpike and the Day Electric line and passing through a trestle to the south of the Day line, where it joined the water which has been backing up to the south of Winstan ley park from Pittsburg lake at the foot of the bluffs.

## Car Service Abandoned.

At 10 o'clock official announcement was the plant and tracks of the company and that no cars would be run to Belleville, where hundreds of refugees are being cared for, after 11 o'clock today.

The united waters are pressing west along the south side of the Day line, directly toward East St. Louis. They menace the power house of the electric railway at Winstanley park.

The water from the north is gradually the Louisville & Nashville and augment ing the flow toward East St. Louis along both sides of the Day line. From the northeast the water is steadily advancing from Lansdowne through the suburban residence district of East St. Louis.

The shutting down of the electric line train was run over the Illinois Central today for the first time since the tracks were covered after the break on Wednesday. It had to run through water most of the way from the bluffs, but got through all right. The officials wanted to run it on the viaduct to St. Louis, but police were sent with strict orders to stop it.

In view of the want and suffering caused by the flood in East St. Louis, Mayor Cook | GIRL has issued an appeal to the public for aid. No Postponement of Saengerfest.

On receiving assurances from the managers of all lines centering here that railroad traffic to St. Louis would be resumed next week the local committee in charge of the arrangements for the national saenpostponement of the great musical festival to be held in the Liberal Arts building on June 17, 18 and 19,

Nearly all the railroads could handle the visitors today, but under difficulties, as the eastern lines have made their terminals at or near East St. Louis, and three of them, the Chicago & Atton, the Big Four and the Burlington, at Alton. WASHINGTON, June 12.-William C. Hook of Leavenworth, Kan., has been seected to succeed Judge Caldwell, who re cently resigned the circuit judgeship of the Eighth district. Judge Hook is at present

district judge. LEAVENWORTH, Kan., June 12 .- Willlam Cather Hook has been a candidate for the position ever since Judge Caldwell first announced, two years ago, that he would retire soon after he had reached the age

limit. Politicians and lawyers of Kansas and Missouri have been so certain that Judge Hook would be advanced that for over a year they have been selecting his successor on the bench.

William Cather Hook was appointed United States district judge for the district of Kansas by President McKinley in 1899. Judge Hook was born at Waynesburg in 1857, was graduated from the Leavenworth High school in 1875, from the St. Louis Law school in 1878 and up to the time of receiving his appointment had practiced law.

The position to which Judge Hook has been appointed in the one for which the friends of Charles J. Greene have been urging his name. When informed of the appointment of Judge Hook Mr. Greene said While I would have liked to have been the fortunate man the president's choice is by no means unexpected, as I had information that Judge Hook had the inside track for some time. Judge Hook's position on the federal district bench placed him in line with the president's policy of promotion in

All day long the victims were reposing in rough coffins and had lain exposed to the gaze of those who had killed them and to the privileged curious, who gave many unpleasant evidences of the public resentment against

them. Some persons even spat on the remains. Outside the palace a vast crowd awaited the cortege, which included the bodies of all the victims, which were simultaneously interred, being conveyed in hearses to the Belgrade cemetery. In the streets there was a dead silence, the public being kept back by the troops. The burial service was brief. Two priests were present. Some Favor Republic. The meeting of the Skupestchina on Monday is looked forward to to confirm the army's proclamation of Prince Peter Karageorgevitch as king of Servia and to regularize the new situation. The only new element in the situation is a growing feeling among the intelligent classes in favor of the abolition of a monarchy altogether

Differences of opinion on this point developed today at a meeting of the cabinet, when the new foreign minister Ljubonur Kallevics, favored the establishment of a republic. The majority of the ministers, however, declared themselves in favor of a new king in Prince Peter Karageorgevitch and urged the wisdom of their decision by the strong argument that it was certain Austria and Russia would not countenance the creation of a republic. This is the view generally shared by poli-

ticians. The government has laid claim to the possessions of the late monarch, as it is supposed he leaves considerable savings. having lived economically during the last decade. It is reported that the greater part of his money was deposited in England, but it is questionable whether this will be delivered to the Servian government.

The cabinet meets today and will consider what steps shall next be taken. At present we are not in communication with Karageorgevitch, even if the army has proclaimed him king. His election as king is probable, however, as there is no other course open. It will remain for the Shukiptivina to remove him or not. The government will not propose him, but will leave this task to the representatives of the people. We shall then resign. We do not fear any external interference, as there was none in the case of Bulgaria. Please say that peace prevails throughout Servia and it will continue. That event now belongs to history. We should not judge the deed nor dwell on the past, but look to the future.
