INSTITUTE IN NEED OF FUNDS Management of the Child Saving Con-

cern Makes Appeal for Assistance. The Child Saving Institute, owing to in-

creased demands upon it, is in need of inancial assistance. The management issues the following statement:

During the last winter the capacity of the institute building has been taxed to its very utmost. Last year the average number of children on hand daily was about twenty-six. During the last seven monthis the average number on hand daily has been nearly forty. The total capacity of the building is for forty children and it is believed that the public will approve of the action of the medical staff, for sanitary reasons, in limiting the number to forty. It was thought that as soon as spring came the demands upon the institute would be lessened, but the number of appeals on behalf of homeless children requiring shelter and assistance have increased of late rather than decreased. For several weeks past every bed in the Institute to the present the present and applies the present applies to the present applies to the present applies to the present applies the present app sues the following statement: creased of late rather than decreased. For several weeks past every bed in the institute has been occupied and this is the present situation, with the outlook that it will continue. This increased number of children over the average number daily cared for last year has greatly increased the expenses over last year. This larger number has required additional help to properly care for them.

There was no comment either by the mayor or the members of the tally showed five votes had been cast was the only member who voted for the mayor's appointee. As soon as the vote had been announced the council adjourned until next Monday night.

Before the nomination of Tobias was transacted. City Engineer Beal sent in an estimate of the cost of repairing the Twenty-fourth street pavement. The estimate was \$2,000.56. Attached to the estimate was a bill from the asphalt company for \$2,000. The estimate was referred to the finance committee.

Certain grading taxes on property owned by the First Christian church were ordered cancelled. Witness fees and costs due R. B. Montgomery were ordered paid. Mayor Kontsky declined to talk about the

BUILDERS' STRIKE STILL ON

including registered No. 1.302; lighting fund, Employers and Employes Fail to Agree and Cancel All Negotiations.

ACTION FOLLOWS ASSOCIATION MEETING

Fresh Trouble in Labor Affairs Feared, as Barbers and Bartenders Apparently Are Not Entirely Satisfied.

After holding a series of four conferences the Builders exchange and Building Trades council have failed to agree and cancelled all negotiations. This action came about yesterday after a brief meeting

of the respective representatives at Builders exchange. It is significant that the disruption followed a long meeting Thursday afternoon of the executive committee of the Busi ness Men's association, which dealt with the matters under consideration by the contractors and their former employes. It is believed by men on both sides that had against Tobias. Councilman Mike Smith shipments as rapidly as possible. At pres- the builders conferences been continued a settlement would have been reached within another day or two and the strike declared off and probably all labor turmoils in Omaha thereby brought to an end. "But there is no immediate hope of peace

now; building will continue at a standstill for an indefinite period, so far as anything to the contrary is known," said a gentle

made to suppress any new outbreaks. The Bartenders' union, at a late meeting, about the same time

cided to submit to a referendum vote of its membership the question of pressing their proposed scale or accepting the provisions of the old one which was destined to remain in effect until January 1, 1904. The election opens Sunday at noon and closes Tuesday at 2 p. m.

BURLINGTON INTO KAWVILLE

Overcomes Grave Obstacles from Flood and Enters Kansas City Sooner Than Expected.

For the first time since the disastrous floods the Burlington yesterday ran trains St. Joseph & Council Bluffs. The trains were run only during the day. Night trains will not be in operation for some days. The Burlington has done remarkably well in clearing away the obstacles which beset its way into Kansas City by this route. When the flood had done its worst and a calm view was taken of the terrible situation it was said the Burlington could not open its line for weeks, but the prediction proved untrue. The Burlington has conquered the situation in less time than it was thought possible to do. Its worst obstacle was at Harlem, where the approach to the Hannibal bridge was washed out.

Woman Charged with Burglary.

Last evening Lizzie Reynolds was located at 1916 Cuming atreet by Detectives Drummy, Dyer and Fisk, and booked for burglary. Elizabeth had paid the station a man who has been participating in the conferences.

Fresh trouble is feared in labor affairs in Omaha.
