MUST PUNISH MURDERERS

Italian Government Declared to Say Powers Will Avenge Royal Murders.

LONDON, June 13.—A special dispatch from Rome says a semi-official note published there declares that whoever is made the king of Servia the powers will exact the punishment of the murderers of King Alexander and Queen Draga, as civilized countries cannot tolerate that administrative and military positions in any country should be occupied by assassins.

Views of Russian Government.

ST. PETERSBURG, June 13.—In official circles here it is said that none of the powers is inclined to raise difficulties in recognizing the sovereign the Servian Parliament elects, whose accession is calculated to end a dangerous condition which might lead to anarchy.

An official note, giving the views of the government, follows:

The tragic events at Belgrade have occasioned profound emotion in Russia, where there is the keenest interest in everything affecting the destinies of the Servian people. All the blood that has been shed can only awaken in Russia a feeling of compassion, which in the present instance is increased by the fact that the king and queen of a friendly state have fallen victims of a violent death and that the Obranovitch dynasty, so closely bound up in the history of Servia, is now extinct.

The most fervent desire prevails in Russia that Servia, after this fearful crisis, may be able to pursue peacefully the course of its national life in the direction which the patriotism of the people and a proper conception of their supreme interests will indicate.

Peter Seeks Information.

ROME, June 13.—Prince Peter Karageorgevitch has written an autograph letter to King Victor Emmanuel. Its contents are not generally known, but it is supposed that Prince Peter refers to his ascension to the throne and asks what attitude Italy will take.

The foreign office here denies that an agreement has been reached among the powers concerning Servia.

SHOOTING AFFRAY AT CUTOFF

Partners in Saloon on Iowa Territory Have a Violent Disagreement.

Frank Brown and Charles Howard conduct a saloon near Cut-off lake in Iowa territory. Last night they had a difference of opinion which ended up in a shooting affray in which Howard received a bullet in the arm and Brown was left in possession of the premises, armed with a revolver and a rifle and threatening to kill anyone who came near him.

The trouble culminated about 10:45 last evening and Brown took a shot at Howard and missed. Officer Eaton of the Council Bluffs police, who is stationed on the island, heard the shot and ran to the saloon. He demanded that Brown give up his revolver, but the latter declined and leveled it at the officer. While they were parleying Brown reached over Eaton's shoulder and took a second shot at Howard, this time hitting him in the arm. Howard at once ran out, jumped on a car and started for Omaha to get his injuries dressed.

Brown ran upstairs, returning with a rifle in addition to the revolver he originally had, and in view of the threats he made Eaton decided it was better to depart. Brown then proceeded to barricade the doors and announced that he would kill anyone who attempted to arrest him. A warrant will be sworn out against him in the morning as soon as Howard can be located and his version of the trouble be obtained, but in the meantime Brown is in possession of the saloon and no one feels called upon to interfere with him.

All the other cities of the island report similar enthusiasm.

RIVAL PICKETS ON DUTY

Waiters Try to Stop Hotel Supplies, While Teamsters Insure Delivery.

CHICAGO HOTELS WINNING VICTORY

Bartenders and Some Others Break Away from Strikers, While Other Help is Imported from Outside Cities.

CHICAGO, June 13.—The second day in the strike of the hotel and restaurant employes in twenty-six Chicago hotels brought desertions from the ranks of the unions and increased determination on the part of the hotel owners to ignore what they term the arbitrariness of the striking employes.

Vigorous efforts of the strike pickets to prevent the delivery of coal, meats and grocery supplies created some excitement around many of the hotels, but every such effort was balked by business agents of the various unions involved in the attacks, and even the milk wagon drivers, who had declared in favor of the strike, were forced by officials of the National Teamsters' union to obey the general laws of the organization and refrain from a sympathetic strike.

Rival Pickets on Duty.

The strike directors sought first to enlist the sympathy of the National Teamsters' union, and failing put pickets of their own on duty and tried to stop the delivery of coal and other supplies. As soon as these tactics were made known to the Teamsters' union 100 rival pickets were scattered through the downtown districts to combat the efforts of the strikers and to assure the delivery of hotel supplies. Before the end of the day the cooks and waiters abandoned hope of support from other unions.

A canvass of the hotels where strikes have taken place shows that most of them are in fair working condition. Against a total of 2,517 employes who have gone out the hotels in the aggregate have a working force of 1,753. The Hyde Park hotels are in the worst condition, but all the downtown places are fairly well equipped and are confident that by Monday they will have a full working force.

Three hundred men arrived in Chicago during the day from outside cities, sent here by agents of the hotel men. These men were taken from the trains to various hotels in busses, in order to lull the suspicions of the pickets. Every hotel owner has arranged with hotels in other cities for all the help that can be spared. These men will come here with the understanding from local proprietors that they may remain if they wish and assured by old employers that their old positions will be given them when they return. Bartenders who went out yesterday in many instances returned to work today and tore up their union cards.

Waiters who struck on Friday at the Union restaurant returned in groups of four and five today and were disappointed when they found the doors closed and no one there to advise them whether they might return to work.

The hotel owners are remaining solid and declare their policy from now on will be to get all the help that is possible from surrounding cities and to ignore the strikers altogether as long as they continue to insist on their demands for exclusive contracts and refuse to submit differences to arbitration or to incorporate arbitration provisions in their proposed contracts.

BRICKLAYERS SETTLE

(Continued from First Page.)

action in its relation to the general strike situation as Miles.

"I cannot see where the collapse of the teamsters' strike is going to have any effect on the rest of the situation," he said. "We knew weeks ago that their collapse was inevitable. The most conservative men of their own ranks knew it. It is not a surprise at all. It does not discourage anybody who understands the situation. There is no reason why the collapse of this strike should have a vital effect upon the general fight. The teamsters were not the controlling factors in the situation. They are not the highly skilled tradesmen that other unionists engaged in the strike are and therefore could not dominate the situation."

HONORS FOR NEBRASKA MEN

Two Win Scholarships in the Divinity School at Yale University.

NEW HAVEN, Conn., June 13.—(Special Telegram.)—Among the students awarded scholarships today at Yale university were: Judson L. Cross of York, Neb., and David E. Thomas of Dawson, Neb. Both are granted Alliss scholarships, which are offered to students in the divinity school and are awarded every half year. They stand in the relation of second prizes to the Fogg scholarships. Cross is a member of the middle class and Thomas of the junior class and both rank among the highest in their respective divisions, not only in general scholarship, but in theological grounding, forensic ability, etc. The notable feature of the awards today was the number of athletes awarded scholarships for excellence in their studies, one of the best going to Captain Clapp of the 'varsity track team. This would refute the generally accepted idea that proficiency in athletics is accompanied by low rank in studies.

Lee Turner's Brother Arrested.

MIDDLESBORO, Ky., June 13.—"General" Turner, brother of Lee Turner, charged with complicity in the "quarter house" battle, was arrested last night and lodged in jail today.

POVERTY TO MAKE MEN RICH

Chamberlain's Protective Policy Ridiculed at Irish Nationalist Dinner.

ERIN'S FREEDOM SAID TO BE CERTAIN

Bourke Cockran Declares Question Now to Be Decided is Use Hibernians Will Make of New Rights.

LONDON, June 13.—The deserted corridors of the House of Commons rang tonight with the strains of "The Wearing of the Green," when the Irish party took possession of Parliament with a dinner in honor of Bourke Cockran of New York.

In proposing Mr. Cockran's health John Redmond referred to him as one of the most powerful unofficial citizens of the United States, of whom the whole Irish race was proud, and closed with an eloquent appeal to Mr. Cockran to enter Parliament on behalf of the nationalists.

Mr. Cockran expressed his thanks for his great reception but declined Mr. Redmond's offer, saying: "I do not believe any man living can contribute to the success of the Irish cause, which is now a certainty."

Mr. Cockran, however, confessed himself willing to make any sacrifice if he thought it were really needed.

He declared himself little concerned over the chances of the Irish people gaining their liberty, but much more regarding the uses to which they would put it. He pleaded strenuously for the development of Irish cities, increased transportation facilities and the improvement of urban rather than rural conditions.

Proceeding he denounced Mr. Chamberlain's suggested change in British fiscal policy, which he declared was intended to make everybody rich by making the country poor.

He ridiculed the argument that the United States made Great Britain the dumping ground for its surplus goods and dissected the recent protectionist speeches in Parliament, based on American prosperity, declaring that "the essence of the relations between states is that none of them are independent."

Mr. Chamberlain's scheme, he declared later, merely amounted to the declaration that some similar institution to the supreme court of the United States must be created, and that either the colonies must surrender their independence to England, or England its to the colonies. Never any suggestion was made so fatal to the integrity of the empire. The essence of protection was to do business at a loss and to remedy it by taxation and legislation.

"In America," he said, "the farmer is despoiled by the manufacturer. He is bound to give four bushels of wheat for a dozen pairs of stockings, instead of two, because he buys in a highly protected market."

TURKS START PILLAGING

Raid Bulgarian Homes While Inhabitants, Terror-Stricken, Flee Before Them.

SOFIA, Bulgaria, June 13.—Fully 1,500 Bulgarian refugees arrived in the Burgas district yesterday from Pirogu, Kull, Kovatcha and neighboring villages. They report that a reign of terror exists in the vilayet of Adrianople.

Turkish regulars and bashi-basouks are said to be pillaging the whole region, under the pretext of searching for arms, and are arresting and maltreating the residents of the country. The panic stricken people are fleeing in a body, men, women and children, taking with them their carts, cattle and all their movables.

RAISE STATUE OVER A WELL

(Copyright, 1903, by Press Publishing Co.)

PARIS, June 13.—(New York World Cablegram — Special Telegram.) — Pasteur's statue is to be placed on the site of an artesian well, possibly in suggestion of the bubbling genius which so benefited the world. Paris has only one artesian well, which is in Grenelle. Above it is a structure not unlike the Eiffel tower, which is to be torn down and in its stead Pasteur's monument will be erected.

May Dissolve the Reichstag.

BERLIN, June 13.—It is semi-officially stated by the Hamburg correspondent that the government will not hesitate for a moment to dissolve the new Reichstag if it is found that the socialists and agrarians together command sufficient votes to defeat the ratification of the commercial treaties. These widely separated parties will act together in the commercial treaty opposition, the socialists because they consider the duties to be too high and the agrarians because they believe them to be too low.

FLEE FROM WILD RIO GRANDE

Texans Seek Safety from Waters Spreading Hourly Over Country.

EL PASO, Tex., June 13.—The Rio Grande at Eartham, N. M., is threatening. The guage has risen more than a foot and a half during the last twelve hours and an additional rise of eighteen inches is expected by tomorrow morning.

The river is more than two miles wide, extending from Eartham to Berino, a Mexican town. Berino is flooded, the inhabitants abandoning their homes and farms and ranches are submerged for miles along the valley in New Mexico. At Eartham the people are leaving for the highlands.

The damage to farms will aggregate many thousands of dollars. At San Marcial the river is a foot higher than during the big flood of 1897. At El Paso all last night, upon instructions of Chief Wooton, mounted police officers patrolled the leves and watched at the flood gates.

The two-foot rise from the north is not expected here until tomorrow morning.

WATER GOES DOWN SLOWLY

Not Until Next Week Will Conditions Become Normal in St. Louis.

ST. LOUIS, June 13.—The river is falling at the rate of about .04 in twenty-four hours, the gauge reading tonight 37. It will probably be increased by Sunday or Monday to one foot in twenty-four hours, and it is predicted that without floods from above or additional rainfall the river will have gone down to the danger line, thirty feet, by the latter part of next week.

There is very little change in the situation in East St. Louis except that the falling river has filled the hearts of flood sufferers with hope of speedy relief from discomfort and peril and will soon enable them to return to their ordinary pursuits and manner of living.

It is expected that the embargo caused by the high water will be lifted from the stock yards, which have been entirely suspended during the past few days, early next week.

All trains on the Missouri Pacific, Iron Mountain, Missouri, Kansas & Texas and St. Louis & San Francisco railroads are leaving Union station on schedule time and are arriving with almost equal promptness. With the exception of the Burlington, the Wabash and the Chicago & Alton, train service to the west and southwest from St. Louis is up to the usual standard.

Traffic to and from eastern points is in worse shape at present than it has been since the flood began. The stoppage of the East St. Louis-Belleville Electric line on account of the high water prevents the transfer of passengers to Edwardsville, Belleville and Collinsville, where the Clover Leaf, the Southern, the Louisville & Nashville and the Vandalia established terminals.

At noon today it was almost impossible to get a train over any of the lines mentioned.

The Wabash is still running by a roundabout way trains to Chicago and the east.

The Illinois Central, which receives passengers at the Broadway viaduct, East St. Louis, has removed its station to the foot of Trendley avenue.

The Mobile & Ohio, the Chicago, Peoria & St. Louis and St. Louis Valley are not running at all. The Big Four, the Burlington and the Chicago & Alton still have excellent steamboat service between here and Alton, their terminal.

Late tonight a gang of men were discovered cutting the levees at Winstanley park, near the Brattonstock farm, in the extreme eastern portion of the city. Arrests followed, which resulted in a company of naval reserves being rushed to the spot. Over 100 shots were fired and Clifford Hanley, a naval reserve member was killed.

TOPEKA, Kan., June 13.—The Union Pacific road ran its first train through Topeka today since the beginning of the flood, May 29. The line is now open to St. George, forty-five miles west, and a local train passed through at 11 o'clock today to Kansas City. From St. George west to Junction City the road bed is still impassable.

The Rock Island has its wrecked track in running order in the flooded districts of the state save between Eenterprise and Salina. A bad order bridge at Wilder is yet giving the Santa Fe trouble, also a section of track near Bonner Springs.

Governor Bailey tonight issued an appeal for subscriptions to aid the sufferers. In it he says:

Within the past week I have visited the stricken district, including Kansas City, Argentine, North Topeka and the fertile valley between Topeka and Kansas City, and from what I saw and heard the calamity is more appalling than was feared before the waters receded, and while the loss of life was less, yet the property loss and suffering in many times greater than was entailed by the Galveston disaster.

Though Kansas is prosperous and generous, yet when the limit of Kansas generosity is exhausted we shall still be hundreds of thousands short of having the means to meet the demands of those who have a claim upon our humanity.

We contributed generously to the relief of Johnstown and Charleston, and in money, clothes and food supplies were sent nearly $500,000 to the flood sufferers at Galveston, and this was done by the conditions that appealed to our charity and our humanity.

Today Kansas finds more than 30,000 of its people practically homeless from no fault of their own and one of its fertile valleys, representing an area 200 miles long and five miles wide that but a few days ago was covered by happy homes and filled with promise is now a watery waste.

In view of all these facts I wish to say to the charitably inclined everywhere that your contributions will be welcome; they are needed to relieve the necessities of the hour and every dollar will be used to relieve the suffering of the deserving and needy.

RAINS MEAN LARGE CROPS

Secretary Wilson is Optimistic of the Outlook for Nebraska.

CORN MAY REACH THE RECORD

Period of Wet Weather Likely to Prove Beneficial by Storing Up Moisture for a Possible Dry Spell.

WASHINGTON, June 13.—(Special Telegram.)—Secretary James Wilson will leave Washington next Thursday evening for Cincinnati, where he is to deliver an address at the opening of the School of Technology in that city, June 20. He will probably return to Washington before going to Iowa to attend the state convention, which assembles at Des Moines July 1. After the convention Secretary Wilson will go to Sioux Falls, S. D., having accepted an invitation extended by Senator Kittredge and others to address farmers at that point July 3. On July 4 Mr. Wilson is scheduled to address farmers at Clear Lake, S. D.

In speaking of crop prospects in Nebraska, the Dakotas and contiguous states Secretary Wilson takes a most optimistic view of the situation. "I look forward to seeing one of the greatest corn crops on record gathered in Nebraska this season. The wheat yield, I am satisfied, from reports which have been received, will be large in the transmissisippi region. The period of extremely wet weather which has prevailed will not harm the crops; in fact it is likely to prove beneficial, as much moisture is thus stored up for a period of drouth, should it come. In the region east of the Mississippi, I look for an enormous hay crop. The weather there this spring has been such as to warrant a prediction of a heavy grass yield."

The commissioner of Indian affairs today approved the following inherited Indian land deeds for lands located in Omaha and Winnebago Indian reservation, Thurston county, Nebraska: Frank and Minnie Saunsoir conveying to Joseph J. Ashley, for $3,300 the northwest quarter of section 4, township 25, range 6, east, containing 155 acres; Yankee conveying to White Otter and John Ashford, for $1,175, the southeast quarter of the northeast quarter of section 9, township 26, range 6, east, containing forty acres; Jacob Spirit and Ma-Kha Henry, conveying to Thomas Ashford, jr., for $1,305, the southeast quarter of the northeast quarter of section 8 and the southwest quarter of the northwest quarter of section 8, all in township 26, range 7, east, containing eighty acres.

WORK OF SALVATION ARMY

Brigadier Cousins Talks of the Labors of His Soldiers in This Field.

Brigadier John W. Cousins, the new leader for the Salvation Army work in Iowa and Nebraska, accompanied by Staff Captain Merriweather, the general secretary, has just returned from an inspection tour through Nebraska. He reports the work to be in a very healthy condition and no less than 107 persons have professed conversion in connection with his welcome meetings.

"The Salvation Army work in Omaha is doing real well," said Brigadier Cousins. "The poor men's hotel at 415 South Thirteenth street provided beds for 1,705 men during last month, while employment was found for no less than 149. The Rescue home for fallen women, Twenty-fourth and Spaulding streets, is full and hundreds of women have been restored to lives of happiness and usefulness. The Maternity hospital is also going a good work, caring for about twenty infants at the present time. At the large tent, corner of Fifteenth street and Capitol avenue, gospel meetings have been held nightly and quite a number have professed to make a start in the Christian life. The distributing store at 114 North Eleventh street has two men constantly at work collecting and distributing furniture, clothing, etc., to the needy poor. Anyone desiring to help along this branch of the work may drop a postal to the Salvation Army headquarters, 402 Bee building, or 'phone 2258, and the Salvation Army wagon will call. Castoff clothing, crockery, furniture and, in fact, anything and everything, will be acceptable.

IMPROVERS IN WEST AND SOUTH

Meetings of South Side and Orchard Hill Clubs Called for Monday Night.

The South Side Improvement club anticipates a big meeting Monday night at Tenth and Hickory streets, as some especially vital matters are to come up for discussion and probable action. Recently new life has been injected into the aspirations and aims of the improvers and they have decided to find out whether there is anything in organization. Among the topics programed are the repaving of Tenth street from Center to Bancroft, the extension of the Harney street carline to Sixth and Center, improvement of the boulevard from South Thirteenth street to Fort Crook, Riverview park improvements and more electric lights.

City Engineer Andrew Rosewater will talk to the members of the Orchard Hill Improvement club Monday evening at 4008 Hamilton street. His theme will be the Saddle creek sewer and other improvements desired in the locality. Curbing, paving, gas and electric lighting, opening of new streets and establishing grades and the proposed railway viaduct at Parker street will be among the matters discussed. Prospect Hill and Clifton Hill property owners and residents are especially invited to attend.

GOODRICH TO BE ACCUSED

County Attorney English announced yesterday afternoon that he will file information charging Police Officer Goodrich with manslaughter. The papers will be made out today and Goodrich arrested. Officer Goodrich last week shot and fatally wounded Elmer Scott, a street beggar, who was fleeing from arrest. The fact that the man paid the penalty of his life for so small an offense has aroused considerable public feeling.

HIGH SCHOOL NOTES

A great deal of interest was displayed by the high school students last week in the annual Register staff election. It was a close contest to the finish, each candidate confident that he or she would be victorious. Tickets were issued among the students similar to those distributed in the city election and each distributer verifying to qualifications of his candidate. Running for editor-in-chief were Donald Kennedy, Richard Hunter and Joseph Swenson, the latter coming out victorious. Three of the most popular and brightest of junior girls (to be seniors next year) were put for assistant editor, Jean Fleming received the election. Howard Blackburn received the most votes for business manager and Fred Harris for his assistant. This staff will not go into effect until next year, but the present staff, with Edward Meyer as editor, will issue the commencement number. Miles Greenleaf will have charge of the Register next week, while the boys are away at camp.

The cadets of the high school assembled in the High school campus at 8 o'clock Friday morning. In a very short time the respective companies of the battalion were formed and the boys marched off amid the cheering and adieus of the girls, who came to see them off. They marched to the Webster street depot and occupied the several specials there which took the battalion to Auburn, Neb. They will remain there until Wednesday evening and practice the duties of regular soldiers. It is a known fact that the boys have no "snap" while at camp, but are under strict military discipline. Next Tuesday an excursion will be run for the friends and relatives of the boys at camp and on that day the High school will be closed for the girls who wish to participate in the excursion. For Tuesday evening the boys had planned a hop for their girls, to be given at the Auburn hotel, but Mr. Waterhouse will not allow it to be given.

The Elaine society gave a very enjoyable program on Thursday. It was a Japanese program and the stage was beautifully decorated with Japanese fans, lanterns and umbrellas. A very pretty drill was given by eight of the girls, who were dressed in Japanese gowns. The Elaine song was also an enjoyable feature of the program and the song "Violets" was sung by Miss De Graff.

Miss Vera Fleming, sponsor of the signal corps, presented the corps with a beautiful flag last Thursday. In presenting the flag she spoke a few appropriate words. Thursday evening she entertained the signal corps very delightfully at her home.

The Browning society held its last social meeting of the year at the home of its president, Miss Adele McHugh.

He is Sent to Asylum.

VIENNA, June 13.—Jacob Reisch, the man who approached in a threatening manner yesterday a carriage in which Emperor Francis Joseph was riding, was today declared insane and sent to an asylum.

LOCAL BREVITIES.

Dr. J. M. Agan of Pender is in Omaha on his way home from the Pacific coast.

Mrs. W. A. Clarke fainted while shopping in Bennett's store yesterday evening and was removed in the patrol wagon to her home, 4158 Cass street. Police Surgeon MacDiarmid reported her as recovering.

Tom Dailey was brought in by the patrol wagon last evening from Twenty-fourth and Cuming streets. Tom was a little "bad off," as he had a mixture of a pair of crutches, a jag and a bad cut on the forehead. He said some stranger knocked him down and kicked him.

Two young men named Pete Tuttle, 2109 Maple street, and Dan Ryan, 2021 Grant street, caused a "rough house" on a Twenty-fourth street car last evening. The trouble was caused by the young men getting on the car slightly under the influence of liquor and insisting upon the conductor accepting a couple of old transfers, and when he declined proceeded to make things lively. Officer Smith arrested the young men.

George Munc, rooming near Sixteenth and Davenport, had Mrs. Lottie Norton and her husband, R. D. Norton, living at 212 North Seventeenth street, arrested last evening as he suspected them of having relieved him of $40 in cash. Mr. Munc was sure that Lottie Norton had taken it, but when the police were through with their search it was demonstrated that Munc had the money in his pocket. Consequently a grand larceny charge was changed to simple vagrancy for Lottie and her husband, but George drew a ticket marked plain drunk.

THE BE-HE-MOTH

Of Holy Writ.

As described in Job xl., 24-25, was probably the hippopotamus, which in the time of Job seems to have been found in the Nile below the cataracts, though now it is said to be found only above them. It was an immense animal, the largest known, and very powerful. Dr. Burkhart's Vegetable Compound is the Be-he-moth of modern times, and its wonderful power over Rheumatism, Catarrh, Constipation and diseases of the blood has proven it to be the greatest medical discovery the world has ever known. Thirty days' treatment 25c. All druggists.
