All that remains to insure Council Bluffs retaining its franchise in the lowa-South Dakota league will be the ability of the men backing the proposition to secure a good and reliable player-manager. At the meticilia last evening in the Commercial club rooms the committee which has the matter in hand announced that over \$600 of the required \$1,000 had been subscribed and that there would be no doubt about the financial end. The men backing the proposition are willing to go ahead and put up the necessary money to start the team out again on a sound basis provided they can secure some player who can also act as manager of the team.

> Frank Brown, the saloon keeper at Cut-Off who shot and wounded his partner, Charles Howard, in the wrist Saturday night, was brought to Council Bluffs after midnight Sunday on a warrant issued from the court of Justice Ouren. He was not, however, lodged in jail, but permitted to spend the night at a Broadway hotel in nustody of Officer Eaton.

> He was taken before Justice Ouren yesterday morning and his preliminary hearing on the charge of assault with intent to commit murder was fixed for Thursday. His bail was placed at \$800, which later in the day he furnished.

Howard's version of the shooting affray at Cut-Off is that Brown resented Howard giving some women permission to pick flowers growing in the yard of the saloon. After a wordy dispute Brown drew his revolver, but Officer Eaton interposed. Then Brown leaned over Eaton's shoulder and fired at Howard, shooting him in the wrist. inflicting a painful but not serious wound. Following the shooting Brown armed himself with a shotgun and defled anyone to arrest him. When the warrant was served on him Sunday he submitted peaceably and was permitted to attend to his business during the day before being brought to this city.

INSPECTORS HASTEN WORK Scene of the Postoffice Scandal is Shifted to New York

NEW YORK, June 15 .- Developments of great interest in the investigations of the postoffice scandals are expected here this

City.

The many inspectors sent from Washington pursued their inquiries with evident haste all day yesterday and the signs are many that the crisis is soon to come. Rumors of action by the grand jury and of impending arrests were heard in the hotel corridors and wherever politicians gathered and talked of the postoffice matters, the political importance of which they

recognize fully. The federal grand jury for the June term is to meet on Friday, and rumor has it that various charges affecting the postoffice will be presented to it then.

ing of the records. It is probable that one of the results of the investigation will be the abolishment of the office of the postoffice physician on the ground that there is no authority in law for the employment of such an officer. Their employment at Washington and New York already has attracted attention. There are five postoffices in the country where physicians are carried on the rolls. The office of phyrician was abolished in Washington some ilms ago. The cities where postoffice physicians are now employed are New York, Chicago, Philadelphia, Brooklyn and Boston,
