Bullish Foreign Advices Help Grain Prices on Board of Trade.

WHEAT, CORN AND OATS ALL GO SHADE UP

Many Hogs and Smaller Values Weaken Provisions, but Good Demand Rallies Market, Which Closes Steady.

CHICAGO, June 15.—Bullish foreign advices caused strength in wheat today and the close was near the top, with July ⅝c higher and September up ⅝c. July corn was ¼c higher, oats were a shade higher, while September provisions were unchanged to 2½c better.

Wheat was rather quiet, with trading confined largely to local interests. Opening prices were easier on the excellent weather, with July a shade to ¼@⅜c lower at 75¼@75½c, and September or ⅜@½c at 72⅝@72¾c. The weakness was of short duration, however, for with a good demand from commission houses the market soon rallied and held firm the remainder of the session. The principal factor in the situation was the bad condition of the crops reported from abroad, the Hungarian report being especially bullish, while in France and England the crop was reported badly damaged by rains. A decrease in the visible supply of 2,707,000 bushels was also a strengthening influence. With a good demand from shorts and on buying for long account September advanced to 73⅝c and closed at 73⅝@73¾c, a gain of ⅝c for the day. After selling up to 76c July closed ⅝c higher at 75⅞@76c. Clearances of wheat and flour were equal to 249,200 bushels. The amount on passage decreased 696,000 bushels. Primary receipts were 460,800 bushels against 605,700 bushels a year ago. Minneapolis and Duluth reported receipts of 438 cars, which with local receipts of 19 cars—one of contract grade—made total receipts for the three points 345 cars, against 450 last week and 462 a year ago.

Trading in corn was only moderately active and the feature early in the day was the changing from July to September by elevator people. The market was easier at the opening under the influence of favorable weather and liberal receipts, but the strength of wheat and a fairish demand caused a better feeling later in the day. The close was firm with July ¼c higher at 45⅝c, after selling between 45¼c and 45⅝c. September closed weak, a gain of ¼@⅜c at 47⅛@47⅜c. Local receipts were 516 cars, 18 of contract grade.

The feature in oats early in the day was the selling of July by traders with profits. The offerings were in excess of the requirements of the shorts and in consequence the market declined. Later the demand became more urgent and prices advanced and closed steady, with July ⅛c higher at 38¼c, after ranging between 38⅛@38⅝c. September was up a fraction at 33⅜@33¾c. Local receipts were 184 cars.

A big run of hogs and a decline of 10c in prices at the yards caused an easier tone in provisions at the start, but with a fair demand later and light offerings the market steadied around Saturday's closing figures. Trading was small and without feature. The close was steady, September pork being 2½c higher at $16.85. September lard was up 2½c at $8.95, and ribs unchanged at $9.27½.

Estimated receipts for tomorrow: Wheat, 35 cars; corn, 685 cars; oats, 220 cars; hogs, 18,000 head.

The leading futures ranged as follows:

Foreign Financial.

LONDON, June 15.—Money was fairly plentiful in the market today and there was a better demand, in view of the preparations for the payment of the instalment of £15,000,000 of the Transvaal loan tomorrow. Discounts were steady. There was a growing disposition to expect a reduction of the Bank of England's rate of discount on Thursday next. Business on the Stock exchange was quiet, and the bad weather prevailing helped to dampen the enthusiasm of operators. There was a pretty general reaction of profit-taking. Consols were fractionally easier and home rails were apathetic. Americans opened down ¼@½ below parity. Union Pacific was the most distressed on realizations and closed flat. Grand Trunk was easier. Argentine rails were dull on rumors of difficulties in the provinces. Kaffirs were lower.

PARIS, June 15.—Prices on the bourse today opened firm, but later French rentes weakened, which affected the rest of the market, with the exception of Turkish securities. Three per cent rentes, 98f 20c for the account; exchange on London, 25f 16c for the account.

BERLIN, June 15.—Business on the bourse today was inactive and quotations nominal. Exchange on London, 20m 42½pfg for checks; discount rates for short bills, 2¼ per cent; for three months' bills, 3¼ per cent.

NEW YORK STOCKS AND BONDS.

Rising Tide Reaches High Water Mark and Prices Ebb Once More.

NEW YORK, June 15.—Prices of securities had a decided backset as a result of today's trading. Pressure developed from the outset and with only occasional halts and small fractional rallies the level of prices sank lower throughout the day. The closing was heavy at the lowest. The stocks in which the great bulk of the trading occurred have lost all the way from 2 to 3 points from Saturday's level. This includes the principal coalers, grangers, Pacifics and southwesterns. The question whether the market was on the eve of a revival of speculation for the advance was thus decisively answered and there was a corresponding relapse in prevailing sentiment about the Stock exchange into dependency and apprehension. There was no very important development of news to account for the renewed decline, but it was obvious that the urgent demand from the uncovered short interest had become mostly satisfied, while the investment demand had dropped out with a sharper recovery in prices from Wednesday's low level. There was some large selling early in the day which had the appearance of selling on speculative accounts which had been secured at the low level. London took part in the selling and western wire houses also sent orders on an important scale. The selling was not so large later in the day, but prices yielded without resisting power, and there was no attempt perceptible to support the market. The result is to open up former doubts about the motive of the selling and the extent to which liquidation may now be pursued on the decline. The uncertainty over the corn crop which fell into the background in the satisfaction over the government report on wheat came into play again today, and the excited jump in the cotton market called attention afresh to the dangers of that crop. Last week's feeling that the culmination of the western floods left that factor amply discounted gave place today to the realization that statistics of railroad earnings from that region for several weeks to come must show large inroads upon traffic and then large expenditures for repairs of the damage caused by the floods. The assembling of the coal miners' convention and the extension of the lockout in New York building trades revived anxiety over the labor outlook.

Money was easy, but sterling exchange recovered here and ran off sharply both in Paris and Berlin. As a result there was close calculation over an export of gold by tomorrow's steamer, keeping alive expectation on this point. The market closed, however, with no announcement of any engagement. The satisfactory recuperation shown by the banks in the Saturday's statement saves the surplus reserve still at a low level for this season of the year, and there is a disposition to await with great interest the compilation of the returns to the controller for June 9 of the condition of national banks throughout the country. The inference from the foreign trade statement for May, which shows a falling off in total exports as compared with last year of over $2,000,000, is that our exports of manufactured products are declining, as the exports of agricultural products were slightly above those of last year. The news from London that a prominent financier has booked a passage home for this week after authorized intimations had been given that his vacation might be extended into August was made use of by the professional operators with unfavorable effect. The bond market was dull but irregular. Total sales, par value, $1,275,000. United States bonds were all unchanged on the last call.

Dry Goods Market.

NEW YORK, June 15.—DRY GOODS—Shows an advancing tendency and buyers show an increasing disposition to accept the new level that is established. The continued advances in raw material causes the seller to take a determined stand regarding quotations. While here and there low prices have been accepted there is usually some good reason for it and the market is characterized by general firmness and inability on the part of the buyers to secure concessions.

Cotton Market.

NEW ORLEANS, June 15.—COTTON—Firm; sales, 750 bales; ordinary, 10 9-16c; good ordinary, 11 5-16c; low middling, 12 3-16c; middling, 13 1-16c; good middling, 13 9-16c; middling fair, 14¼c, nominal; receipts, 593 bales; stock, 68,095 bales. Futures, firm; June, 13.40c bid; July, 13.37c bid; August, 13.38c bid; September, 11.71@11.72c; October, 10.84@10.85c; November, 10.20@10.23c; December, 10.20@10.21c.

NEW YORK, June 15.—COTTON—The market opened irregular and unsettled at an advance of 10@32 points under a rush of shorts to cover, following a sensational burst of strength at Liverpool, which market at 12.30c was 15½@25½ points higher, with private cables denoting a similar speculative position on the other side to that existing here and in New Orleans; the big bulls being apparently in full control and talk of a corner in the early autumn options increasing. The initial advance here put everything on the list up to a new high record for the season, July selling at 12.55c on the call, September at 12.25c, October at 10.45c and December at 10.30c. New Orleans, however, showed little disposition to respond to the bullish impulses and later cables from Liverpool denoted a substantial reaction there. When the first rush of covering had somewhat subsided, therefore, the market became very irregular and showed a downward tendency. July was soon forced down to 12.17c, August to 11.84c, September to 11.12c and January to 10.19c; then there was a period of comparative quiet, but in the last hour there was another rush of covering and strong New Orleans support with reports of a break in the levee at Vicksburg, which again sent values lifting, with the late months especially surpassing all previous high points for the season. September sold at 11.37c; October, 10.58c; November, 10.45c; February, 10.20c; the list was finally steady, within 24 points of best of the late months and 24 to 38 points higher on all option except June and July, which closed net unchanged. Total sales were estimated at 100,000,000 bales. Port receipts today were 1,447 bales, against 1,078 bales last year. Weather conditions were generally favorable except low temperatures.

ST. LOUIS, June 15.—COTTON—Strong and ⅝c higher; middling, 12¾c; sales, none; receipts, 831 bales; shipments, 831 bales; stock, 5,583 bales.

LIVERPOOL, June 15.—COTTON—Spot in limited demand; prices 10@12 points higher; American middling fair, 7.48d; good middling, 7.23d; middling, 7.21d; low middling, 6.98d; good ordinary, 6.64d; ordinary, 6.44d. The sales of the week were 4,000 bales, of which 800 were for speculation and export and included 3,900 American; receipts, 2,100 bales, all American. Futures opened firm and closed weak and very shy: American middling, June, 6.74d; June and July, 6.68d; July and August, 6.63d; August and September, 6.31d; September and October, 6.11d; October and November, 5.92d; November and December, 5.58d; December and January, 5.54d; January and February, 5.53d; February and March, 5.53d.
