COMMERCIAL AND FINANCIAL

Bullish Crop Advices Boost Corn Values on Board of Trade.

PRICES RISE NEARLY CENT AND HALF

Oats and Provisions Also Go Up Slightly, but Wheat Remains Unchanged at Close of

Day.

CHICAGO, June 16.—The feature in the grain trade today was the sharp advance in the price of corn under the influence of tuilish crop advices, September closing 13cc higher. September outs were 3.6% higher, but wheat was unchanged and provisions were from 23cc to 5c higher.

Wheat ruled quiet and was steady the greater part of the day. The opening was a trifle easier on indifferent cables, excellent weather and bearish crop advices from France and Russia, July being a shade lower to a shade higher at 75% 175 c and September unchanged to 3c lower at 75% 175 c and September unchanged to 3c lower at 75% 175 c and September unchanged to 3c lower at 75% 175 c and September unchanged to 3c lower at 75% 175 c advices both at home and abroad, together with selling by St. Louis and the northwest, had a weakening tendency and prices gradually yielded, July declining to 75% c after touching 75% c soon after the opening, while September sold off to 73% c. A decrease in the world's visible supply of 4.162.000 bu., as shown by Bradstreet's, and bullish Hilnois crop report caused some firmness later, but the advance was lost on profit-taking. The strength in corn gave prices another upward turn late in the day and the close was steady, with July and September both unchanged at 75% 75% c and 73% 77% C Clearances of wheat and four were equal to 430,000 bu. Primary receipts were 24,000 bu., against 279,000 bu. a year September both unchanged at 75%4976c and 73349735c. Clearances of wheat and flour were equal to 430,000 bu. Primary receipts were 245,000 bu., against 279,000 bu. a year ago. Minneapolis and Duluth reported receipts of 26 cars, which, with local receipts of 26 cars—one of contract grade—made total receipts for the three points of 222 cars, against 304 cars last week and 145

222 cars, against 304 cars last week and 145 cars a year ago.

There was an active trade in corn and prices were decidedly strong throughout the entire session. Covering by shorts due to the unfavorable crop prospects and a marked improvement in the cash demand were responsible for the advance. Favorable weather and liberal receipts were bear factors, but they were offset by firm cables and by the uncertainty in regard to the factors, but they were offset by firm cables and by the uncertainty in regard to the crop, together with the light offerings. The close was strong and near the top, July being 1½c higher at 49½c after selling between 45%c and 49½c. September closed with a gain of 1%c at 49½@49%c after ranging between 47%@48c and 49%c. Local receipts were 7% cars, with 31 of contract grade.

grade.

Trading in oats was moderately active, but the scarcity of offerings kept the business confined to a small volume. The strength in corn was the main supporting feature and caused considerable buying by commission houses, while there was also a good demand from local traders. July closed in higher at 35 c, while Beptember was up 10 c at 35 c after selling between 25 c ars.

Provisions ruled dull and featureless, with prices about steady. A little buige at the opening resulted from a light run of he opening resulted from a light run logs and an advance of from 5c to 10c hogs and an advance of from 5c to 10c in prices at the yards, and shorts covered early in the day. Later the offerings were more free and prices reacted somewhat, closing steady with September pork 2½c higher at 316.87½. September lard 5c higher at 59 and ribs up 2½c at 39.39.

Estimated receipts for tymorrow: Wheat, 25 cars; corn, 269 cars; oats, 100 cars; hogs, 22.000 head.

Foreign Financial.

in connection with Americans and the general situation in New York. Consols declined on the money requirements and home rails were dull and irregular. Americans opened weak, owing to continued realizations for New York account, became a fraction steadler, reacted and closed steady but somewhat firmer. Rio Tintes collapsed on New York advices. Kaffirs drooped. PARIS, June is.—Prices on the bourse today were affected by the weakness of French rentes. Only Servians and Turks were strong. At the close business was rather irregular. The private rate of discount was 2 11-16 per cent. Three per cent rentes, Sf. 20c. extra interest. Exchange on London, 35f. 164c for checks.

BERLIN, June 18.—The bourse here was closed today, owing to the reichstag elections. tions.

New York Mining Quointions NEW YORK, June 18.—The following are he quotations on the New York Stock ex-hange:

Little Chief Adams Con.

tive this morning, but still there was considerable more life than was noticed early yesterday morning. Buyers were inclined to do quite a little jockeying in the hope of weakening salesmen, but in this they failed, and the general market was only about a dime lower than yesterday. Other points quoted just about the same decline, so the prices paid here are still well in line. Some of the choice handy-weight cattle, which were just the kind they all wanted, did not sell quite a dime lower, but, on the other hand, some of the less desirable heavy cattle were more than a dime lower. The bulk of the offerings was disposed of in good season, but still it was rather late before a clearance was made. The proportion of cow stuff to the total receipts was again rather light, but, owing to the decline on steers, prices suffered to a greater or less extent. The market was rather uneven, but on the average prices were not far from 10c lower than yesterday. Some sales did not look much of any lower, while others looked a big dime lower, the same as was the case with steers. The moderate receipts of cows brought the market to a reasonably early close.

Bulls, yeal calves and stags did not sell

close.

Bulls, veal calves and stags did not sell far from stendy where the quality was at all satisfactory.

There were only just a few stockers and feeders in sight and the demand was limited, the same as it has been for some time past. The market was certainly no higher, but still it could not be quoted a great deal lower. It could best be described by calling it slow but about steady. Representative sales;

that the quality was very poor. About all that could be said of the market is that the few bunches that arrived sold at nominally steady prices. Some spring lambs brought \$5.50 and some ewes sold for \$4.75. Chicago was reported about steady with yesterday and the general impression was that anything desirable would have sold here readily at very satisfactory prices.

The supply and demand for feeders continues very light and the market unchanged.

19,200 55,500 19,500 Looking for Stolen Jewelry. Game Warden Simpkins of Lincoln was here yesterday and asked the police to find a watch belonging to Mrs. Simpkins and some money and jewelry belonging to his sister-in-law. The articles were stolen from the home of the latter in Lincoln Simples with

his office to George Carter July 1, after which he does not know what he will do. "I have several propositions that I am looking up," he sain, "but have not yet determined what to do."

RECEPTION ON MARKET ROW Young Roasting Ears Arrive from Texas and Find Hearty

Welcome Here.

Manly young roasting cars, straight as Indian braves, held a reception on market row yesterday. They had just come in from Texas, packed in open crates as carefully as precious jewelry and worthy of nearly the same care, too, being quoted at \$1.50 per crate of forty ears.

The annual reunion of Texas vegetables is approaching an end and representatives of other states are about to assert themselves. Chief of these, perhaps, is a trade excursion of California peaches, apricots, plums and cherries, who in their special car are expected to arrive Wednesday or Thursday. Then there are the strawberries of Hood River, Ore., who are known everywhere for their staying qualities and who with characteristic western energy are trying to drive the home berry from its own market. About a carload of Oregons was sold Monday. Missouri berries are still coming along and, with the home article. are down to \$1.50 or \$1.75.

A modest stranger on the row is the Missouri raspberry, which registered in fair number yesterday and seems hardly nervy enough to accept the \$2.50 or \$3 a crate offered. Cucumbers, still hot Texas confederates, for they continue to disserve with northerners, are on sale every day, as are also members of the same family who come from the steam-heated flats of Morrison, Ill. Michigan celery, still tender and slight, is here daily, looking for a select boarding house with good service. Texas beets are constant loafers along the row and the Texas tomate, which has been dropping in occasionally, will soon move here for the summer.

HUSTON PLEADS NOT GUILTY

Charge Against Him is Conspiracy in Preventing Bidding on Public Lands.

Thomas Huston of Thurston county, Nebraska, was arraigned before Judge Mc-Pherson in the United States circuit court yesterday on a charge of conspiracy to defraud the government, in a land deal. He is implicated with a number of other persons recently indicted by the federal grand jury for refusing to bid or certain government lands for a consideration, and for dissuading others from doing so, in order that the land might be bid in by speculators. He pleaded not guilty and was released on bond. The date for the trial is not yet fixed.

Miss Vickers, stenographer in the office of City Attorney Wright, was locked in the office vault for an hour Monday afternoon. The incarceration was brought about by the playfulness of John F. Stout, Mr. Wright's law partner. Miss Vickers was working in the vault filing papers. Mr. Stout noticed her security and slammed together the outer iron doors. Without thinking he turned the combination lock and as gener the outer fron doors. Without think-ing he turned the combination lock and as he did not know how to release it Miss Vickers was absolutely certain of not being interrupted. While Stout proceeded to hunt an expert the stenographer turned on the electric light and proceeded with her work, confident of rescue.

D. J. Kennedy of Des Moines wants to find his brother, E. O. Kennedy, and has written to the chief of police to assist him. Besides his brotherly concern, the Des Moines Kennedy said he and his brother had recently fallen heir to some property and he wanted the brother to assist him in getting it. The wanted man came to Omaha a week ago, since which time his relatives have not heard from him. He is six feet and five inches in height, the letter states, 27 years of age, smooth shaven ter states, 27 years of age, smooth shaven and a laborer.

Major J. C. Muhlenberg, chief paymaster of the Department of the Missouri. departed yesterday for a trip to superintend the payment of certain troops. Word was received at headquarters yesterday that the Sixteenth field battery under Captain Van Deusen had left its station at St. Mary, Kan, and was proceeding successfully and by easy stages toward Fort Riley.

Captain Cook of the commissary department returned yesterday from a visit to Fort Crook.

The Best Cure for Colds Is Dr. King's New Discovery for Consumption. Sure, pleasant, safe and guaranteed to soon cure, or no pay. 50c, \$1.00. For sale by Kuhn & Co.

Railway Notes and Personals.

General Manager Holdrege of the B. & M. left for Chicago Monday night. Elmer H. Wood, general freight agent for the Union Pacific, is in Chicago. R. W. Baxter, superintendent of the east-ern division of the Union Pacific went west Tuesday morning. . Charles J. Lane, assistant general freight agent for the Union Pacific, went to Den-ver Monday night.

C. L. Nichols, division superintendent of the Chicago, Rock Island & Pacific, with headquarters at Fairbury, is in the city. George J. Lincoln, commercial agent for the Milwaukee, with headquarters at Phila-delphia, and J. H. Skillen, traveling freignt agent, with headquarters at New York, are in the city.

in the city.

W. A. Gardner, general manager of the Chicago & Northwestern; C. C. Hughes, general superintendent of the Nebraska & Wyoming division, and T. J. Mahanna, division superintendent, went out over the lines yesterday on a tour of taspection.

The Great Northern has made a reduction in freight rates of from 10 to 30 per cent on more than 500 commodities shipped to northern Pacific coast points, and it is expected that this unasked for and unexpected diminution in freight rates will work an enormous amount of good to the wholesale houses in that section.

The Southern Pacific shops located at

The Southern Pacific shops located at Wadsworth are to be moved to Reno, Nev., and enlarged so as to give employment to 500 men. Wadsworth will be two miles from the line of the road after the improvements and cutoffs are made on the line in that vicinity, and the new shops at Reno will be considerably larger than those at Wadsworth.
